Napoleon And The Lazarists:

Napoleon and the Lazarists John W. Carven, 2012-12-06 Neither in English nor in French is there a published study of Napoleon Bonaparte's reestablishment in France of the Congregation of the Mission whose members are generally known in France as Lazarists. This study *Napoleon and the Lazarists 1804-1809* examines the reestablishment of the Congregation of the Mission in France and its subsequent relations with the Napoleonic Government. Because religion played an important role in the policies and plans of Napoleon, this study is set within the framework of Napoleon's general religious-political policy. Since the Concordat of 1801 was the legal instrument by which the Catholic Church was reestablished in France and also a necessary preliminary to and a model for the reestablishment of the Lazarists, its negotiation is treated in detail. The examination of the reestablishment of the Congregation of the Mission in France under Napoleon Bonaparte and its subsequent history between 1804 and 1809 follows. It is a study in microcosm which reflects Napoleon's general religious-political policies. Who are the Lazarists? The name Lazarist originates from St. Lazare, the original Motherhouse in Paris of the Congregation of the Mission of St. Vincent de Paul. St. Vincent de Paul founded the Congregation of the Mission in 1625. With the cooperation of St. Louise de Marillac, he also founded the Congregation of the Daughters of Charity. *The Western Christian Presence in the Russias and Qājār Persia, c.1760-c.1870* Thomas O'Flynn, 2017-08-28 Winner of The 2018 Saidi Sirjani Book Award. In *The Western Christian Presence in the Russias and Qājār Persia c. 1760-c. 1870*, Thomas O'Flynn vividly paints the life and times of missionary enterprises in early nineteenth-century Russia and Persia at a moment of immense change when Tsarist Russia embarked on an expansionist campaign reaching to the Caucasus. Simultaneously, he charts the relationship between the new Persian dynasty of the Qājārs and missionary activity on the part of European and American missionaries. This book reconstructs that world from a predominantly religious perspective. It recounts the sustaining ideals as well as the everyday struggles of the western missionaries: Protestant, Scottish, Basel, and American Congregationalist and Catholic, Jesuit, and Vincentian. It looks at the reactions of diverse tribal peoples: the Tatars of the North Caucasus, the Kabardians, and Circassians. Persia was the ultimate goal of these missionaries, which they eventually reached in the 1820s. Altogether, this study throws light on the troubled course of history in West Asia and provides the background to politico-religious conflicts in Chechnya and Persia that persist to the present day. *Napoleon and the Lazarists, 1804-1809* John W. Carven, 1972. **Great Military Leaders** William T. Worthington, 2002. *Great Military Leaders: A Bibliography with Vignettes*

The Vincentians: A General History of the Congregation of the Mission John E. Rybolt, The French Revolution nearly destroyed the Vincentians in France, and those in most other countries were isolated, persecuted in every degree from niggling regulations to imprisonment and martyrdom, and sometimes squeezed into oblivion. To these external miseries were added painful internal schisms: the Italians abetted by other countries, and the Holy See pushed to center the Congregation in Rome, interdicts against communication with foreign superiors, forced provinces in many countries to act autonomously.

national pressures to swear loyalty and conform to compromising regulations created splits within the community and threatened to divide the Daughters and separate them from their brothers. Reduced membership and funding crippled the Vincentians' efforts as they emerged from the worst of the state obstructions. Nevertheless, they began rebuilding and even made struggling beginnings in overseas missions notably the United States, Brazil, the Ottoman Empire, the Middle East, and China, where the martyrdom of two missionaries galvanized interest in this distant and challenging mission. The Frontiers of Mission Alison Forrestal, Seán Alexander Smith, 2016-08-22. In exploring the shifting realities of missionary experience during the course of imperialist ventures and the Catholic Reformation, *The Frontiers of Mission: Perspectives on Early Modern Missionary Catholicism* provides a fresh assessment of the challenges that the Catholic church encountered at the frontiers of mission in the early modern era. Bringing together leading international scholars, the volume tests the assumption that uniformity and coordination governed early modern missionary enterprise and examines the effects of distance and de-centering on a variety of missionaries and religious orders. Its essays focus squarely on the experiences of the missionaries themselves to offer a nuanced consideration of the meaning of missionary Catholicism and its evolving relationship with newly discovered cultures and political and ecclesiastical authorities. **Napoleon and the Lazarists** John W. Carver (CM.), 1974. *Thought and Faith in the Philosophy of Hegel* J.E. Walker, 2012-12-06. The purpose of this collection of papers is to introduce English-speaking philosophers and theologians to something of the variety of the contemporary debate about the religious relevance of Hegel's thought. It is published in the hope that it will appeal not only to specialised students of Hegel's Philosophy of Religion but to a wide audience of scholars interested in Hegel's thought as a whole. The volume grew out of the 1987 Oxford conference on *Thought and Faith in the Philosophy of Hegel* but has since developed beyond the confines of the original conference programme. The programme of the conference consisted of five major papers on different aspects of Hegel's religious thought and its reception followed by a somewhat shorter commentary delivered by another scholar in the same field. This basic format has been retained but a number of the commentaries have been extended or rewritten and an entirely new piece by Kurt Meist has been commissioned for the purpose of this collection. The volume includes studies of the *Lectures on the Philosophy of Religion* and the *Phenomenology* as well as pieces dealing with the theological relevance of Hegel's philosophy of history and Kierkegaard's attack on Hegel. It concludes with an examination of the relevance of Hegel's doctrine of absolute Spirit to the modern defence of his philosophy as a whole. Eduard Gans and the Hegelian Philosophy of Law M.H. Hoffheimer, 2013-03-09. Gans ranks at the head of that important group of Hegelian thinkers that bridged the generations of Hegel and Marx. Yet there is a large gap between Gans's historical importance and the scholarship on him. Despite a renewal of interest in Gans's work on the Continent, Gans remains almost completely unknown to English language scholars and almost none of his work has been previously translated. His Prefaces to his posthumous editions of Hegel's writings are inaccessible to English speakers despite the fact that they shed important light

on the authenticity of the so called Additions to those texts His Preface to Hegel s Philosophy of Law has never been translated before while his Preface to the Philosophy of History has been omitted from reprintings 4 for generations Moreover the recent scholarship on the Continent has focused on Gans s political and philosophical rather than his legal writings There is little discussion in any language of his system of law which is the focus of the present study Some of the reasons for the neglect of Gans are obvious Gans cannot be a hero for most readers today He accepted apostasy as a means to professional advancement And though more liberal than Hegel Gans nonetheless accommodated himself to the results of the Restoration and evaded political persecution that might have kindled the sympathy of later generations

Church and Society in Eighteenth-century France: The clerical establishment and its social ramifications John McManners, 1998 This is the first of two volumes in McManners s magisterial reconstruction of the complex hierarchical world of the Gallican Church destroyed by the French Revolution It describes the diocesan and parochial structure of the Church portraying the clergy and their lifestyle from the palaces of the aristocratic bishops to the humblest nunnery and in a multitude of portraits analyzing their motivations and sense of vocation In a detailed fresco he presents the religion of the people whether centering in the parish church or in confraternities and the observances of folk religion outside it

The Opium War, 1840-1842 Peter Ward Fay, 1997 This book tells the fascinating story of the war between England and China that delivered Hong Kong to the English forced the imperial Chinese government to add four ports to Canton as places in which foreigners could live and trade and rendered irrever

Alchemy and Chemistry in the 16th and 17th Centuries Piyo Rattansi, Antonio Clericuzio, 1994-08-31 The present volume owes its origin to a Colloquium on Alchemy and Chemistry in the Sixteenth and Seventeenth Centuries held at the Warburg Institute on 26th and 27th July 1989 The Colloquium focused on a number of selected themes during a closely defined chronological interval on the relation of alchemy and chemistry to medicine philosophy religion and to the corpuscular philosophy in the sixteenth and seventeenth centuries The relations between Medicina and alchemy in the Lullian treatises were examined in the opening paper by Michela Pereira based on researches on unpublished manuscript sources in the period between the 14th and 17th centuries It is several decades since the researches of R F Multhauf gave a prominent role to Johannes de Rupescissa in linking medicine and alchemy through the concept of a quinta essentia Michela Pereira explores the significance of the Lullian tradition in this development and draws attention to the fact that the early Paracelsians had themselves recognized a family resemblance between the works of Paracelsus and Roger Bacon s scientia experimentalis and indeed a continuity with the Lullian tradition

Janowski,2012-12-06 Almost all interpreters of Cartesian philosophy have hitherto

focused on the epistemological aspect of Descartes thought In his *Cartesian Theodicy* Janowski demonstrates that Descartes epistemological problems are merely rearticulations of theological questions For example Descartes attempt to define the role of God in man's cognitive fallibility is a reiteration of an old argument that points out the incongruity between the existence of God and evil and his pivotal question whence error is shown here to be a rephrasing of the question whence evil The answer Descartes gives in the *Meditations* is actually a reformulation of the answer found in St Augustine's *De Libero Arbitrio* and the *Confessions* The influence of St Augustine on Descartes can also be detected in the doctrine of eternal truths which within the context of the 17th century debates over the question of the nature of divine freedom caused Descartes to ally himself with the Augustinian Oratorians against the Jesuits Both in his *Cartesian Theodicy* as well as his *Index Augustino Cartesian Textes et Commentaire* Janowski shows that the entire Cartesian metaphysics can and should be read within the context of Augustinian thought **Newton and Religion** J.E.
