Between Self and Society John Rodden, 2016-01-15 *Between Self and Society* explores the psychosocial dramas that galvanize six major British novels written between the eighteenth and twentieth centuries. The book challenges an influential misconception that has for too long hindered appreciation of the psychological novel. John Rodden argues that there should be no simplifying antithesis between psychological inner conflicts within the mind or soul and institutional outer conflicts within family, class, community. Instead, it is the overarching dramatic yet often tortuous relations between self and society that demand our attention. Rodden presents fresh interpretations of an eclectic group of prose fiction classics including Tobias Smollett's *The Adventures of Roderick Random*, William Godwin's *Caleb Williams*, Thomas Hardy's *The Mayor of Casterbridge*, Ford Madox Ford's *The Good Soldier*, Wyndham Lewis's *Tarr*, and D. H. Lawrence's *Women in Love*. Far from being merely admirable experiments, let alone daring though interesting failures, these fictions are shown to possess aesthetic unity, stylistic consistency, and psychic force. *Between Self and Society* thus impels our careful reconsideration of novels that represent major artistic achievements yet have been either unjustly neglected or appreciated in limiting ways that do injustice to their psychological aspects. Rodden's vibrant discussion invites an upward revaluation of these works and encourages the full recognition of their value and significance in British literary history.

Society in the Self H. J. M. Hermans, 2018 *Society in the Self: A Theory of Identity in Democracy* shows how society is working in the deeper regions of self and identity. This book is an exploration of the democratic potentials of self and identity in a globalizing and localizing society.

Self, Earth, and Society Thomas N. Finger, 2020-03-12 Our era is experiencing unparalleled and rapid transience. The twentieth century began with the telephone and ended with e-mail. People change jobs and homes a half dozen times or more in their lives. Air and water pollution are threatening the well-being of the earth itself. Wars, their multiplying refugees, and political crises are tearing societies apart. If there is a key word for our era, it might be alienation. Amid increasing and often chaotic complexity, individuals struggle to attain an integrated, stable self with durable relationships. An expanding ecological consciousness reveals our estrangement from the earth. Societies are internally divided by clashing political and economic perspectives and processes. This profound and important book recognizes and reveals the connections among these three alienations. Thomas Finger undertakes a probing critical conversation with culture and develops his own public theology. Each alienation is analyzed in depth through the writings of secular authors. His theological construction draws neither on modern philosophy nor worldviews but perhaps surprisingly on Scripture. To support his emphasis on Christ, Finger engages the skepticism of the much-celebrated Jesus Seminar. He rejects the widespread claim that Christianity's transcendent God is largely absent from the world and legitimates human exploitation of it. For transcendence means that God is different but not distant from the world. Finger then examines the roles of Jesus, Father, and Spirit in his earthly ministry. In this and later scriptures, these three act and interact in a salvific manner that can only be divine. This means that his Father and Spirit also suffer with Jesus in his death and with all creation, as Jürgen Moltmann brilliantly explains and

accompany him in his resurrection This also means that the creation exists in God as some feminists maintain and originated as the overflow of God s love and character into a realm which was hardly distant from God yet very different In addition this entails that every human self and the process of becoming a self as God s creations must be respected as indeed must all earthly creatures and the basic structures needed to form and maintain any society Theological developments in the last decade have done much to critique misguided biblical interpretations which would justify unbridled human exploitation and abuse of creation But work in exploring how an understanding of a trinitarian transcendent God results in creative and caring relationship between humanity and creation has been less developed In discussing these matters with Dr Finger I am convinced that his proposed work holds the promise of meeting an important need within global theological discussions today Further I know that Dr Finger is fully capable of accomplishing this project Thus from my vantage point where I have the opportunity of hearing theological discussions on these subjects from the major Christian traditions and from throughout the globe it is clear that Dr Finger s proposal will fill a theological void and enrich our search for truth Wesley Granberg Michaelson Executive Secretary Commission on Church and Society World Council of Churches 1988 1994 General Secretary Reformed Church in America 1994 2011 **Self and Society** John P. Hewitt, 1997 Self and Society Tenth Edition is a clearly written up to date and authoritative introduction to the symbolic interactionist perspective in social psychology and sociology as a whole Filled with examples this book has been used successfully in the classroom and also cited in literature as an authoritative source Self and Society is not a distillation of textbook knowledge but rather a thoughtful well organized presentation that makes its own contribution to the advancement of symbolic interactionism BOOK JACKET Connecting Self to Society Vanessa May, 2013-10-01 Belonging is often overlooked in its relationship to society and social change and yet it forms the bedrock of how we relate to the world around us Through the work of Marx Giddens and Goffman this book covers the familiar terrain of identity theory while going beyond it to other sites of identification and social change
