**Narratives of Nostalgia and Repair in American Comics and Literature** Aanchal Vij, 2025-08-21 Through a study of both novels and comic books of 20th and 21st century this book claims that it is not possible to create any narrative of exceptionalism without also manufacturing a sense of nostalgia for a past that may or may not have existed Acts of personal or historical repair are central to such nostalgia and symptomatic of a desire to both escape and confront difficult pasts The myth of American exceptionalism is one such narrative of nostalgia that in its conception of damage and acts of repair disables histories Through works by Michael Chabon Art Spiegelman Philip Roth Alan Moore and Ta Nehisi Coates this book reframes the idea of heroism and locates it outside of the hegemonic narrative of American exceptionalism This book puts comics studies and literature in dialogue with disability studies to argue that an able history just like an able body is a myth The figure of the superhero or the trope of heroism is central to the moments of historical repair as well as the identity politics of who repairs the damage The corpus illustrates how American escapism and counterfactual conception of a nation s past can prolong the trauma of beleaguered communities cultures bodies and histories This book reveals how prostheticising one version of history can amputate another there is no narrative of exceptionalism that is also not simultaneously a narrative of disability

Chance, Literature, and Culture in Early Modern France John D. Lyons, 2016-04-08 In the Renaissance and early modern periods there were lively controversies over why things happen Central to these debates was the troubling idea that things could simply happen by chance In France a major terrain of this intellectual debate the chance hypothesis engaged writers coming from many different horizons the ancient philosophies of Epicurus the Stoa and Aristotle the renewed reading of the Bible in the wake of the Reformation a fresh emphasis on direct empirical observation of nature and society the revival of dramatic tragedy with its paradoxical theme of the misfortunes that befall relatively good people and growing introspective awareness of the somewhat arbitrary quality of consciousness itself This volume is the first in English to offer a broad cultural and literary view of the field of chance in this period The essays by a distinguished team of scholars from the U S Britain and France cluster around four problems Providence in Question Aesthetics and Poetics of Chance Law and Ethics and Chance and its Remedies Convincing and authoritative this collection articulates a new and rich perspective on the culture of sixteenth and seventeenth century France      **Charles II's Escape from Worcester** William

contemporary novelists feature actual historical escape pervasively from slavery or Nazism it appears in their novels as escape envy or escape nostalgia as if globalization like slavery or Nazism could be escaped in a direction from this place to another Thus the closing of the world frontier inspires a mirror messianism and utopianism that in US novels can only be rendered as a performative momentary chiasmic relationship between precocious kids and their ludic guardians **Adrift on the sea, or The children's escape** Emilia Marryat Norris,1871 **A Lady's Escape from Gwalior and Life in the Fort of Agra During the Mutinies of 1857** R.
