and professional life Putnam the so called PT Barnum of publishing was a bookselling visionary but often pushed his authors to extreme lengths in the name of publicity and no one bore that weight more than Amelia Their ahead of its time partnership supported her grand ambitions but also pressed her into more and more treacherous stunts to promote her books influencing a certain recklessness up to and including her final flight Earhart is a captivating figure to many but the truth about her life is often overshadowed by myth and legend In this cinematic new account Laurie Gwen Shapiro emphasizes Earhart s multifaceted human side her struggles and her authentic aspirations the truths behind her brave pursuits and the compromises she made to fit into societal expectations Drawing from a trove of new sources including undiscovered audio interviews *The Aviator and the Showman* is a gripping and passionate tale of adventure colorful characters hubris and a complex and a vivid portrait of a marriage that shaped the trajectory of an iconic life *Gender and Politics in Austrian Fiction* Ritchie Robertson,Edward Timms,1996 This volume of essays on Austrian fiction compiled at a time when Austria is forming stronger links within the European Union illustrates a transition from traditional preoccupations with character differences between Austrian and German literature to wider concerns of politics and gender Fictional treatments of such issues as male homosexuality problems in feminism the representation of women in male authored texts and anti war protest are examined both in well known novels and in little known works by underrated authors Many of the authors discussed have received insufficient recognition because they do not fall within a familiar canon of German literature The specialised research involved in compiling this material is accessible through a series of book reviews included at the end of the volume which range in subject area from the life of an eighteenth century soldier in the Habsburg service to the continuing discussion on Austrian identity *Self-Reflective Fiction and 4E Cognition* Merja Polvinen,2022-12-30 This book brings together the study of self reflective fiction and the contemporary 4E theories of cognition in order to challenge existing cognitive theoretical models and approaches to literary phenomena Polvinen presents reflective attention on artifice as an integral part of engagement with fictional narratives rather than as an external viewpoint that would obscure immersive experiences The detailed analyses included are both of traditionally metafictional texts by John Barth A S Byatt Dave Eggers and Ali Smith as well as of speculative fictions by Ted Chiang China Mi ville Christopher Priest and Catherynne M Valente Each of the chapters focuses on a specific issue of fictional cognition on metaphorical representation spatiality temporality and fictionality As a whole the book argues that by combining a literary and theoretically complex view of artifice with the enactive paradigm of perception and imagination practitioners of cognitive literary studies can further sharpen their own conceptual and terminological apparatus and continue to generate fruitful hermeneutic circulation around the study of the imagination in both the sciences and the humanities This book will appeal to students and scholars interested in cognitive approaches to literary studies speculative fiction metafiction and narrative studies *Entering History* Silke von der Emde,2004 This book offers a thorough examination of the novels of Irmtraud Morgner 1933 1990 one of the most talented

compelling and overlooked writers within East German feminist and avant garde circles Using a combination of theoretical approaches including Adorno s aesthetic theories and Bakhtinian analyses of dialogism and the carnivalesque the author traces Morgner s engagement with postmodernist aesthetic strategies back to her efforts beginning in the early 1970s to pose questions about effective political practices Morgner s work sheds new light on the fraught relationship between GDR intellectuals and the state a hotly debated topic that marks most recent attempts to understand literary culture in the German Democratic Republic Situating Morgner s fiction at the intersection of postmodern and feminist theory this study also offers new evidence for viewing literature from the GDR as significantly more complex and aesthetically interesting than has been previously assumed **Forthcoming Books** Rose Arny,1996-06 **Monthly Bulletin of the Providence Public Library** Providence Public Library (R.I.),1898 **Catalog of Copyright Entries. Snyder,2014-06-24 When a Christian writer refers to Jesus as the Lord what does it signify Is it primarily a way of making a political or theological statement or might social concerns have had more influence on the writer s choice of words Studies of early Christianity regularly depend on a nuanced understanding of lexical significance but current research often fails to consider social aspects of what words mean Julia A Snyder argues that methodological improvements are needed in how lexical significance in ancient Greek texts is determined based on an analysis of the relationship between speech patterns and addressee identity in the Acts of the Apostles Acts of John and Acts of Philip She also illustrates how sociolinguistic variation contributes to characterization and the construction of Christian identity in the narratives how it sheds light on the rewriting of ancient texts and how it informs the question of whether apostolic narratives were produced for evangelistic purposes **The Ethnography of Communication** Muriel Saville-Troike,2008-04-15 The Ethnography of Communication presents the terms and concepts which are essential for discussing how and why language is used and how its use varies in different cultures Presents the essential terms and concepts introduced and developed by Dell Hymes and others and surveys the most important findings and applications of their work Draws on insights from social anthropology and psycholinguistics in investigating the patterning of communicative behavior in specific cultural settings Includes two completely new chapters on contrasts in patterns of communication and on politeness power and politics Incorporates a broad range of examples and illustrations from many languages and cultures for analyzing patterns of communicative phenomena **Athenaeum and Literary Chronicle** James Silk Buckingham,John Sterling,Frederick Denison Maurice,Henry Stebbing,Charles Wentworth Dilke,Thomas Kibble Hervey,William Hepworth Dixon,Norman Maccoll,Vernon Horace Rendall,John Middleton Murry,1831 **The New and Complete American Encyclopædia; Or, Universal Dictionary of Arts and Sciences** ,1806
