Knowing, Becoming, Doing as Teacher Educators Stefinee E. Pinnegar, Mary Lynn Hamilton, 2015-12-14 ART was established to provide state of the art conceptualization and analysis of the processes involved in functioning as a classroom teacher These include not only the behaviors of teachers that can be observed in the classroom but also the planning thinking and decision making that occur before during and after interaction with students

Social Work Louise Harms, Marie Connolly, 2019-05-03 Social workers draw on a variety of theoretical perspectives to inform their practice and understand the diverse settings in which they work Social Work From Theory to Practice explores practice theories through the discipline's unique interpretive lens and demonstrates how these can be understood and enacted by practitioners in human services settings This third edition includes new material on trauma informed practice and Indigenous practice as well as enhanced content relating to child protection and family violence and narrative approaches New practitioner reflections and case studies illustrate how theory influences practice and facilitates change Thought provoking case study discussion questions prompt students to reflect on key concepts and develop strategies for practice Highly readable and engaging Social Work From Theory to Practice builds a strong foundation for theoretically informed practice This text enables practitioners to develop the skills required to confidently and critically evaluate their work as they respond in complex practice contexts

Applications of Mathematics in Models, Artificial Neural Networks and Arts Vittorio Capecchi, Massimo Buscema, Pierluigi Contucci, Bruno D'Amore, 2010-08-03 The book shows a very original organization addressing in a non traditional way but with a systematic approach to who has an interest in using mathematics in the social sciences The book is divided in four parts a historical part written by Vittorio Capecchi which helps us understand the changes in the relationship between mathematics and sociology by analyzing the mathematical models of Paul F Lazarsfeld the model of simulation and artificial societies models of artificial neural network and considering all the changes in scientific paradigms considered by a part coordinated by Pier Luigi Contucci on mathematical models that consider the relationship between the mathematical models that come from physics and linguistics to arrive at the study of society and those which are

born within sociology and economics c a part coordinated by Massimo Buscema analyzing models of artificial neural networks d a part coordinated by Bruno D Amore which considers the relationship between mathematics and art The title of the book Mathematics and Society was chosen because the mathematical applications exposed in the book allow you to address two major issues a the general theme of technological innovation and quality of life among the essays are on display mathematical applications to the problems of combating pollution and crime applications to mathematical problems of immigration mathematical applications to the problems of medical diagnosis etc b the general theme of technical innovation and creativity for example the art and mathematics section which connects to the theme of creative cities The book is very original because it is not addressed only to those who are passionate about mathematical applications in social science but also to those who in different societies are a involved in technological innovation to improve the quality of life b involved in the wider distribution of technological innovation in different areas of creativity as in the project Creative Cities Network of UNESCO

Critical Suicidology Jennifer White,Ian Marsh,Michael J. Kral,Jonathan Morris,2015-12-02 Globally suicides account for a significant number of premature deaths every year Traditional approaches to suicide research and prevention are not working for everyone but why is this And what can be done about it In Critical Suicidology a team of international scholars practitioners and people directly affected by suicide argue that the field of suicidology has become too focused on the biomedical paradigm a model that pathologizes distress and obscures the social political and historical contexts that contribute to human suffering The authors introduce the perspectives of those who have direct personal knowledge of suicide and suicidal behaviour and propose alternative approaches to suicide prevention that are creative socially just and culturally responsive In the right hands this book could save lives

The Space Between Carmel Flaskas,Barry Mason,Amaryll Perlesz,2018-05-08 The papers in this book focus on many different aspects of the therapeutic relationship including the self of the therapist working cross culturally and with language difference impasse risk taking the place of research and the influence of theory Clinical examples illustrate successful as well as less successful outcomes in therapy and these clinical explorations make the book accessible to both systemic and non systemic practitioners alike Part of the Systemic Thinking and Practice Series Contributors Rhonda Brown John Burnham John Byng Hall Alan Carr Carmel Flaskas Jo Howard Alfred Hurst Ellie Kavner Sebastian Kraemer Inga Britt Krause Rabia Malik Maeve Malley Michael Maltby Barry Mason Sue McNab Amaryll Perlesz David Pocock Hitesh Raval Justin Schlicht and Lennox K Thomas
