### **Direct Speech in Beowulf and Other Old English Narrative Poems**

Élise Louviot, 2016 A new examination of the little studied phenomena of Direct Speech in Old English poetry Some of the most celebrated passages of Old English poetry are speeches Beowulf and Unferth s verbal contest Hrothgar s words of advice Satan s laments Juliana s words of defiance etc Yet Direct Speech as a stylistic device has remained largely under examined and under theorized in studies of the corpus As a consequence many analyses are unduly influenced by anachronistic conceptions of Direct Speech leading to problematic interpretations not least concerning irony and implicit characterisation This book uses linguistic theories to reassess the role of Direct Speech in Old English narrative poetry Beowulf is given a great deal of attention because it is a major poem and because it is the focus of much of the existing scholarship on this subject but it is examined in a broader poetic context the poem belongs to a wider tradition and thus needs to be understood in that context The texts examined include several major Old English narrative poems in particular the two Genesis Christ and Satan Andreas Elene Juliana and Guthlac A Elise Louviot is a Lecturer at the University of Reims Champagne Ardenne France and a specialist of Old English poetry Her research interests include orality tradition formulas and the linguistic expression of subjectivity

Schneider, 2012-12-15 Over the past thirty years narrative poems have made a comeback against the lyric approach to poetry that has dominated the past century Drawing on a decade of conferences and critical seminars on the topic *The Contemporary Narrative Poem* examines this resurgence of narrative and the cultural and literary forces motivating it Gathering ten essays from poet-critics who write from a wide range of perspectives and address a wide range of works the collection transcends narrow conceptions of narrative antinarrative and metanarrative The authors ask several questions What formal strategies do recent narrative poems take What social cultural and epistemological issues are raised in such poems How do contemporary narrative poems differ from modernist narrative poems In what ways has history been incorporated into the recent narrative poetry How have poets used the lyric within narrative poems How do experimental poets redefine narrative itself through their work And what role does consciousness play in the contemporary narrative poem The answers they supply will engage every poet and student of poetry

**A History of Indian Literature: 1911-1956, struggle for freedom : triumph and tragedy** Sisir Kumar Das, 2005 Presents the Indian literatures not in isolation in one another but as related components in a larger complex conspicuous by the existence of age-old multilingualism and a variety of literary traditions

**Chinese Narrative Poetry** Dore Jesse Levy, 1988 Chinese Narrative

Poetry brings a new perspective to some of China's best loved and most influential poems including Ts'ai Yen's Poem of Affliction, Po Chu-yi's Song of Everlasting Sorrow and Wei Chuang's recently discovered Song of the Lady of Ch'in. Composed in the shih form during the Late Han, Six Dynasties and T'ang periods, these poems stand out as masterworks of narrative art. Yet paradoxically, their narrative qualities have been little recognized or explored in either traditional Chinese or modern Western scholarship. The reason for this neglect is that Western literary traditions acknowledge their origins in epic poetry and thus take narrative for granted, but the Chinese tradition is fundamentally based on lyric and does not admit of a separate category for narrative poetry. Drawing on both classical Chinese critical works and the most recent Western contributions to the theory of narrative, Levy shows how narrative elements developed out of the lyrical conventions of shih. In doing so, she accomplishes a double purpose: guiding the modern reader to an understanding of the nature of narrative in Chinese poetry and shedding light on the ways in which Chinese poets adapted the devices of lyric to the needs of a completely different expressive mode. Students of Chinese literature will welcome this pathbreaking study, but Chinese Narrative Poetry will interest other scholars as well because it addresses questions of crucial importance for literary theory and comparative literature, particularly the central issue of the applicability of Western critical concepts to non-Western literature and culture.

*Shakespeare's Sonnets and Narrative Poems* A. D. Cousins, 2014-07-21. Alongside Spenser, Sidney and the early Donne, Shakespeare is the major poet of the 16th century, largely because of the status of his remarkable sequence of sonnets. Professor Cousins' new book is the first comprehensive study of the Sonnets and narrative poems for over a decade. He focuses in particular on their exploration of self-knowledge, sexuality and death, as well as on their ambiguous figuring of gender. Throughout, he provides a comparative context, looking at the work of Shakespeare's contemporaries. The relation between Shakespeare's non-dramatic verse and his plays is also explored.

Poetry Kaleidoscope Nicolae Sfetcu, 2014-05-12. Introduction in poetry, nature of poetry, tools, history, terms, periods, styles and movements, technical means, tropes, measures of verse, verse forms, national poetry. Poetry, ancient Greek, poieo. I create is traditionally a written art form, although there is also an ancient and modern poetry which relies mainly upon oral or pictorial representations in which human language is used for its aesthetic qualities in addition to, or instead of, its notional and semantic content. The increased emphasis on the aesthetics of language and the deliberate use of features such as repetition, meter and rhyme are what are commonly used to distinguish poetry from prose, but debates over such distinctions still persist while the issue is confounded by such forms as prose poetry and poetic prose. Some modernists such as the Surrealists approach this problem of definition by defining poetry not as a literary genre within a set of genres but as the very manifestation of human imagination, the substance which all creative acts derive from.

*A History of Old Norse Poetry and Poetics* Margaret Clunies Ross, 2005. Accessible guide to and description of the medieval poetic tradition in Scandinavia. This is the first book in English to deal with the twin subjects of Old Norse poetry and the various vernacular treatises on native poetry that were a conspicuous feature of medieval

intellectual life in Iceland and the Orkneys from the mid twelfth to the fourteenth centuries Its aim is to give a clear description of the rich poetic tradition of early Scandinavia particularly in Iceland where it reached its zenith and to demonstrate the social contexts that favoured poetic composition from the oral societies of the early Viking Age in Norway and its colonies to the devout compositions of literate Christian clerics in fourteenth century Iceland The author analyses the two dominant poetic modes eddic and skaldic giving fresh examples of their various styles and subjects looks at the prose contexts in which most Old Norse poetry has been preserved and discusses problems of interpretation that arise because of the poetry's mode of transmission She is concerned throughout to link indigenous theory with practice beginning with the pre Christian ideology of poets as favoured by the god dinn and concluding with the Christian notion that a plain style best conveys the poet's message Margaret Clunies Ross is McCaughey Professor of English Language and Early English Literature and Director of the Centre for Medieval Studies at the University of Sydney
