shows how a separated system of government works under the circumstances created by the Constitution and encouraged by a two party system Jones examines the organizational challenges facing presidents their public standing and what it means presidential agendas and mandates and lawmaking how it works where the president fits in and how it varies from issue to issue He compares the post World War II presidents and identifies the strengths and weaknesses of each in working within the separated system Jones proposes a view of government as a legitimate even productive form of decisionmaking and emphasizes the varying strategies available to presidents for governing He concludes with a number of important lessons for presidents and advice on how to make the separated system work better
