Flack, Joan Ray, 1992-04-15 Combining substantive information with hands on activities this book helps you integrate space science with other curricular areas Topics range from our first contemplation of flight to rockets space shuttles hypersonic planes space colonies and space stations The national space transportation policy : issues for Congress., 1995 In responding to the political and military challenges of the Cold War and the urge to explore and exploit outer space the United States developed a capable fleet of space transportation systems for carrying cargo and people into space and for ensuring a credible strategic nuclear deterrent These systems are owned and managed by the National Aeronautics and Space Administration the Department of Defense and private industry In recent years increasing federal budget constraints commercial competition from foreign launch firms and a desire to continue an ambitious space program have created pressures within the United States to reduce the costs of access to space Significantly lower space transportation costs would make the U S space industry more commercially competitive foster the expansion and creation of new space markets and ensure access to space for government payloads and manned missions This report prepared for the House Committee on Science is the first in a broad assessment of the health and future prospects of the U S space transportation technology and industrial base The report focuses on the Clinton Administration s National Space Transportation Policy which was released last fall It examines administration policy in light of the implementation plans

prepared by NASA DOD and the Transportation and Commerce Departments As the report notes the new policy brings a welcome measure of order to the sometimes chaotic structure of U S space transportation activities The policy also emphasizes the important contribution private industry can make to the direction and development of U S space transportation capabilities However an analysis of the policy and implementation plans also raises some issues that might be of interest to Congress as it debates space transportation legislation oversight and funding

Technology for Large Space Systems ,1983 *National Space Transportation Policy* DIANE Publishing Company,1995-10 A broad assessment of the health and future prospects of the U S space transportation technology and industrial base Examines the Clinton administration policy in light of the implementation plans prepared by NASA DOD and the Transportation and Commerce Dept s Extensive discussion of foreign launch systems and components Identifies 2 additional issues the preservation of long range ballistic missile capabilities after final production in 2005 and the perspective of lower industrial tier firms toward national space transportation policy Charts and tables

Space Station Friendship Dick Lattimer,2017-09-15 The year is 2007 the fiftieth anniversary of the Space Age Space shuttle Discovery is about o dock at the first permanent U S space station which author Dick Lattimer called Friendship In all but name the space station depicted in these pages is based on NASA plans To help you project yourself on board Lattimer has created a fictional crew including three rookie crew members doctoral candidates who have been chosen to do special work on their theses By viewing the space station through their eyes you ll learn about the important work to be done there Friendship reflects existing technology and projected plans As part of his extensive research Lattimer along with his son illustrator Michael Lattimer had the unique opportunity to spend several different days aboard the space station mockup at Huntsville Alabama Inevitably there will be design modification But life aboard out first permanent space station will probably resemble life on space station Friendship In these pages you ll visit the many elements of the space station including the habitation modules the animal research facility and the industrial park You ll learn about the modules of the European Space Agency and of Japan and about the mobile servicing station the next generation Canadarm As the staff membered discuss their work with the rookies you ll find the answers to their questions like these How will they handle emergencies How will they get supplies What kinds of R7D work will they do How will they use the Hubble Telescope How will they cope with isolation and confinement
