Doctor Mom Chung of the Fair-Haired Bastards Judy Tzu-Chun Wu, 2005-02-28 During World War II Mom Chung was the place to be in San Francisco. Soldiers, movie stars and politicians gathered at her home to socialize to show their dedication to the Allied cause and to express their affection for Dr. Margaret Chung. 1889-1959 The first known American-born Chinese female physician, Chung established one of the first Western medical clinics in San Francisco's Chinatown in the 1920s. She also became a prominent celebrity and behind-the-scenes political broker during World War II. Chung gained national fame when she began adopting thousands of soldiers, sailors and flyboys, including Ronald Reagan, Admiral Chester W. Nimitz and Admiral William F. Halsey Jr. A pioneer in both professional and political realms, Chung experimented in her personal life as well. She adopted masculine dress and had romantic relationships with other women, such as writer Elsa Gidlow and entertainer Sophie Tucker. This is the first biography to explore Margaret Chung's remarkable and complex life. It brings alive the bohemian and queer social milieu of Hollywood and San Francisco, as well as the wartime celebrity community Chung cultivated. Her life affords a rare glimpse into the possibilities of traversing racial, gender and sexual boundaries of American society from the late Victorian era through the early Cold War period. **The National**

Reforming Medical Education Winton U. Solberg, 2009 The University of Illinois College of Medicine has its origins in the 1882 opening of the College of Physicians and Surgeons of Chicago. In 1897 the College of Physicians and Surgeons became affiliated with the University of Illinois and began a relationship that endured its fair share of trials, successes and even a few bitter fights. In this fact-filled volume, Winton U. Solberg places the early history of the University of Illinois College of Medicine in a national and international context, tracing its origins, crises and reforms through its first tumultuous decades. Solberg discusses the role of the College of Medicine and the city of Chicago in the historic transformation from the late nineteenth century, when Germany was the acknowledged world center of medicine and the germ theory of disease was not yet widely accepted, to 1920, by which time the United States had emerged as the leader in modern medical research and education. With meticulous scholarship and attention to detail, this volume chronicles the long and difficult struggle to achieve that goal. **Chimes of Change and Hours** Audrey Borenstein, 1983
