Crucible of Freedom Eric Leif Davin,2012-07-10 This book explores the relation between democracy and industrialization in United States history Over the course of the 1930s the political center almost disappeared as the Democratic New Deal became the litmus test of class with blue collar workers providing its bedrock of support while white collar workers and those in the upper income levels opposed it By 1948 the class cleavage in American politics was as pronounced as in many of the Western European countries such as France Italy Germany or Britain with which we usually associate class politics Working people created a new America in the 1930s and 1940s which was a fundamental departure from the feudalistic and hierarchical America that existed before They won the political rights of American citizenship which had been previously denied them They democratized labor capital relations and gained more economic security than they had ever known They obtained more economic opportunity for them and their children than they had ever known and they created a respect for ethnic workers which had not previously existed In the process class politics re defined the political agenda of America as for the first time in American history the political universe polarized along class lines Eric Leif Davin explores the meaning of the New Deal political mobilization by ordinary people by examining the changes it brought to the local county and state levels in Pittsburgh Allegheny County and Pennsylvania as a

whole *Ideology, Culture & the Process of Schooling* Henry A. Giroux, 1984-10 This book lays bare the ideological and political character of the positivist rationality that has been the primary theoretical underpinning of educational research in the United States These assumptions have expressed themselves in the form and content of curriculum classroom social relations classroom cultural artifacts and the experiences and beliefs of teachers and students Have existing radical critiques provided the theoretical building blocks for a new theory of pedagogy The author attempts to move beyond the abstract negative characteristics of many radical critiques which are often based on false dualisms that fail to link structure and intentionally content and process ideology and hegemony etc He also is critical of the over determined models of socialization and the abstract celebration of subjectivity that underlies much of the false utopianism of many radical perspectives Professor Giroux begins to lay the theoretical groundwork for developing a radical pedagogy that connects critical theory with the need for social action in the interest of individual freedom and social reconstruction Author note Henry A Giroux is Assistant Professor of Education at Boston University He is the co editor of Curriculum and Instruction Alternatives in Education and The Hidden Curriculum and Moral Education *Working Lives* Craig Heron, 2018-10-09 Craig Heron is one of Canada's leading labour historians Drawing together fifteen of Heron's new and previously published essays on working class life in Canada Working Lives covers a wide range of issues including politics culture gender wage earning and union organization A timely contribution to the evolving field of labour studies in Canada this cohesive collection of essays analyzes the daily experiences of people working across Canada over more than two hundred years Honest in its depictions of the historical complexities of daily life Working Lives raises issues in the writing of Canadian working class history especially working class realism and how it is eventually inscribed into Canada's public history Thoughtfully reflecting on the ways in which workers interact with the past Heron discusses the important role historians and museums play in remembering the adversity and milestones experienced by Canada's working class *Critical Theory* Douglas Tallack, 2014-07-15 An anthology of readings and extracts providing a comprehensive introduction to the main schools and positions of critical theory The book is divided into five sections structuralism and poststructuralism psychoanalytical theory Marxism feminism and post foundational ethics and politics It includes a general introduction covering the field of critical theory and identifies founding theorists and movements with a bibliography and notes *Literary and Visual Representations of HIV/AIDS* Aimee Pozorski, Jennifer J. Lavoie, Christine J. Cynn, 2019-11-06 Literary and Visual Representations of HIV AIDS Forty Years Later depicts how film and literature about the HIV AIDS crisis expand upon the issues generated by the epidemic This collection fills an important gap in the scholarship on HIV AIDS by bringing together essays by both established and junior scholars on visual and literary representations of HIV AIDS Almost forty years after the first reported cases of what would later be defined as AIDS this book looks back across the decades at works of literature and film to discuss how the representation of HIV AIDS has shifted in media This book argues that literature constitutes a very powerful response to AIDS that ripples into

film and politics driving the changes in past and contemporary representations of HIV AIDS The book also expands discussion of the issues generated and amplified by the epidemic to consider how HIV AIDS has been portrayed in the United States Western and Southern Africa Western Europe and East Asia **Imagining Home** Sidney J. Lemelle, Robin D.G. Kelley, 1994-12-17 This collection of original essays brilliantly interrogates the often ambivalent place of Africa in the imaginations cultures and politics of its New World descendants Combining literary analysis history biography cultural studies critical theory and politics *Imagining Home* offers a fresh and creative approach to the history of Pan Africanism and diasporic movements A critical part of the book s overall project is an examination of the legal educational and political institutions and structures of domination over Africa and the African diaspora Class and gender are placed at center stage alongside race in the exploration of how the discourses and practices of Pan Africanism have been shaped Other issues raised include the myriad ways in which grassroots religious and cultural movements informed Pan Africanist political organizations the role of African American and Caribbean intellectuals in the formation of Pan African thought including W E B DuBois C L R James and Adelaide Casely Hayford the historical ideological and institutional connections between African Americans and South Africans and the problems and prospects of Pan Africanism as an emancipatory strategy for black people throughout the Atlantic *Sexual Harassment of Working Women* Catharine A. MacKinnon, Professor Catharine A MacKinnon, 1979-01-01 A comprehensive legal theory is needed to prevent the persistence of sexual harassment Although requiring sexual favors as a quid pro quo for job retention or advancement clearly is unjust the task of translating that obvious statement into legal theory is difficult To do so one must define sexual harassment and decide what the law s role in addressing harassment claims should be In *Sexual Harassment of Working Women* Catharine MacKinnon attempts all of this and more In making a strong case that sexual harassment is sex discrimination and that a legal remedy should be available for it the book proposes a new standard for evaluating all practices claimed to be discriminatory on the basis of sex Although MacKinnon s inequality theory is flawed and its implications are not considered sufficiently her formulation of it makes the book a significant contribution to the literature of sex discrimination MacKinnon calls upon the law to eliminate not only sex discrimination but also most instances of sexism from society She uses traditional theories in an admittedly strident manner and relies upon both traditional and radical feminist sources The results of her effort are mixed The book is at times fresh and challenging at times needlessly provocative <https://www.jstor.org> Sep 30 2016 **Lessons from the Damned** Nancy E. Stoller, 2021-12-16 First published in 1998 Nancy Stoller records how the poor people of color gay men and lesbians drug users and women have built social movements to fight the impact of AIDS revealing that organizational structure and culture have a greater impact on who is served and how than do public health theories or official organizational goals She draws on ethnographic research and the words of the activists themselves as well as the literature of social movements and theories of bureaucracy In addition to the stories of the organizational strategies the book offers guidelines for dealing with diversity

and conflict with both theoretical and practical perspectives on cross community and international organizing **Common Preservation** Jeremy Brecher, 2021-06-29 As world leaders eschew cooperation to address climate change nuclear proliferation economic meltdown and other threats to our survival more and more people experience a pervasive sense of dread and despair Is there anything we can do What can put us on the course from mutual destruction to common preservation In the past social movements have sometimes made rapid and unexpected changes that countered apparently incurable social problems Jeremy Brecher presents scores of historical examples of people who changed history by adopting strategies of common preservation showing what we can we learn from past social movements to better confront today s global threats of climate change war and economic chaos In Common Preservation Brecher shares his experiences and what he has learned that can help ward off mutual destruction and provides a unique heuristic a tool kit for thinkers and activists to understand and create new forms of common preservation Managerial Prerogative and the Question of Control

(Routledge Revivals) John Storey, 2014-10-10 In both Marxist and non Marxist scholarship there has been a remarkable neglect of the managerial control of labour John Storey s analysis of the modern labour process shows that managerial control is in fact more precarious than has been so far recorded This book first published in 1983 reassesses the Braverman theory of the inexorable degradation of work and demonstrates the need to go beyond not only Braverman but also most of the ensuing attempts to complement or repair his underlying thesis The book will be of interest to students of the social sciences **Rheumatoid Arthritis** Andrew Lemmey, 2012-01-18 The purpose of this book is to provide up to date interesting and thought provoking perspectives on various aspects of research into current and potential treatments for rheumatoid arthritis RA This book features 17 chapters with contributions from numerous countries e g UK USA Canada Japan Sweden Turkey Bosnia and Herzegovina Slovakia including chapters from internationally recognized leaders in rheumatology research It is anticipated that Rheumatoid Arthritis Treatment will provide both a useful reference and source of potential areas of investigation for research scientists working in the field of RA and other inflammatory arthropathies
