**The Warrior State** T. V. Paul,2015 As the U S forces withdraw from Afghanistan a Taliban victory in that besieged long suffering country and the further Talibalization of Pakistan itself have become a real possibility This book explores why Pakistan has become such a heavily militarized ideologically driven state yet remains deeply insecure weak and unable to unite itself or pacify its warring ethnic and religious groups      **The American Military After 9/11** M. Morgan,2008-02-04

This book describes the intense mobilization of American society in the Global War on Terrorism coupled with trends in progress before 9 11 With its focus on maximizing civilian casualties terrorism has been uniquely able to arouse the popular emotion and make us rethink the use of military force      *Deconstructing Prehumanity* Jorge Serrano,2015-12-01

*Deconstructing Prehumanity* is an investigation into the role of archaeological perception in the construction of race It explores how social knowledge and disciplinary subjectivity have shaped our organization of the human past and how this organization and its lexicon have fueled racialism The idea of an African prehuman hierarchy powers American race relations in a damaging way Scientific physical distinctions used in ethnological studies quantified and qualified physical and racial differences among so called African prehumans all of which plague human social relations as they extend harmful ideas about peoples of African descent This book delves into the evolution of terms and utilizes Africana studies to present the systematic reconstruction of a black past By reviewing ethnological studies nomenclature and how such processes play a role in conceiving African origins the multidisciplinary work supplies explanations about notions of African nature culture and race as prehuman It explicates paleoanthropological categories and connects them to racialized inferences *Deconstructing Prehumanity* is intended for readers looking to understand how perceptions about human origins add to racialization as it proffered a utilitarian past      The Emerging Field of Personal Relationships Robin Gilmour,Steve Duck,2021-10-07

Originally published in 1986 this book is a result of the first International Conference on Personal Relationships held in 1982 The conference itself was a significant event in publicly bringing together major figures whose work was starting to define the new area of personal relationships The chapters are arranged to follow the structure of the conference program with major opening and closing discussions covering the whole field and the rest of the chapters grouped under the headings of Depiction and Taxonomy of Relationships Development and Growth of Relationships and Disorder and Repair of Relationships The result is by no means a comprehensive treatment of the field but the editors hoped that the book highlighted significant issues in personal relationship research as well as some excellent examples of the ways in which issues and problems were being tackled at the time They also hoped that it would have an effect on the future development of the field of personal relationships by indicating its value and potential      Nine Women Judith Nies,2002-10-15 Historian Judith Nies highlights

the lives of nine women who worked effectively to give women equal rights and access to public life in the U S and she writes of women whose environmental activism has been crucial in the ongoing effort to preserve biological diversity on our earth

Pepinsky,Richard Quinney,1991 Criminology has traditionally been a military science a science of war The criminal element is the enemy Repression and restraint are the primary tools of criminal justice and criminologists study how to make those tools effective in the war on crime We are beginning to realize that this is a war against ourselves and one that we are losing Our inability to make peace with crime and criminals is reflected in the paucity of our daily personal relations where we live by domination and discipline where forgiveness and mercy are seen as naive surrender to victimization The essays in this volume propose peacemaking as an effective alternative to the war on crime They range from studies of the intellectual roots of the peacemaking tradition to concrete examples of peacemaking in the community with special attention to feminist peacemaking traditions and women s experience      **Library Acquisitions List** New York State School of Industrial and Labor Relations.
