Routledge is an imprint of Taylor Francis an informa company *The Maoists in India* Nirmalangshu Mukherji,2012-08-06

The Maoists in India delves deep into the decades long battle between the Indian state and Maoist groups one of the most intractable insurgencies in the developing world Nirmalangshu Mukherji uncovers the devastating impact of neoliberalism on India s tribal population armed aggression by the State as well as the impact of the armed struggle by the Maoists Unlike most accounts Mukherji takes an honest and unflinching look at each of the Maoists interventions and critically examines the ideology and programme proposed by their theoreticians and prominent intellectual sympathisers By focussing on the Maoists political philosophy the extent of their democracy as well as the roles of intellectuals Mukherji reaches conclusions about whether their strategy can help to deliver social justice and liberation for India s poor **Radical Political**

Economy: A Concise Introduction Charles A. Barone,2015-03-26 This straightforward introduction to radical political economy strikes a balance between breadth and depth and was written for the beginning student and others interested in a relatively short text on radical economics *Representing Radicals* Tilted Scales Collective,2021-05-04 *Representing Radicals* helps lawyers understand ways to work with radical defendants with an explicit focus on how to help them achieve ends that go beyond traditional legal goals For example many radical defendants want to use their trials to discuss political issues even if doing so could lead to a conviction when a standard criminal defense might lead to an acquittal Understanding radical defendants goals and political priorities is a crucial part of providing them with the most robust criminal defense while helping them strengthen and defend their social movements This book and its precursor *A Tilted Guide to Being a Defendant* are based on the Tilted Scales Collective s belief that lawyers and radical defendants can work together in shared struggle in ways that strengthen movements when fighting criminal charges **Morley of Blackburn** Patrick

Jackson,2012-05-18 This biography covers both the literary and political career of John Morley later Lord Morley of Blackburn 1838 1923 As a writer Morley made his reputation as the radical editor of *The Fortnightly Review* from 1867 to 1882 This was an influential periodical for which Morley commissioned articles by writers such as Leslie Stephen and Frederic Harrison and for which Morley wrote many articles himself As a politician Morley worked very closely with William Ewart Gladstone particularly in the two attempts to introduce legislation providing for Irish home rule with a Dublin parliament Finally at the end of his political career Morley served as secretary of state for India 1905 1910 in the great Liberal government of Campbell Bannerman and Asquith Working with the viceroy Lord Minto Morley was responsible for the first tentative steps toward a democratic government in India Morley was strongly opposed to militarism he had stood out

against the war with the Boers in South Africa and he resigned from office in 1915 in protest against the declaration of war on Germany This biography utilizes extensive primary archival material including Morley s own diaries and letters which have only recently become available Poor Relief HEATH. HENDERSON,Heath Henderson,2025 It is widely believed that distributing cash to people in poverty is the best way to help them while avoiding paternalism Heath Henderson pushes back arguing that a markets know best model is itself paternalistic and displaces better interventions Instead people in poverty need the democratic power to coordinate solutions for themselves **Noam Chomsky** Robert F Barsky,1998-07-31 This biography describes the intellectual and political milieus that helped shape Noam Chomsky a pivotal figure in contemporary linguistics politics cognitive psychology and philosophy It also presents an engaging political history of the last several decades including such events as the Spanish Civil War the dropping of atomic bombs on Hiroshima and Nagasaki and the march on the Pentagon to protest the Vietnam War The book highlights Chomsky s views on the uses and misuses of the university as an institution his assessment of useful political engagement and his doubts about postmodernism Because Chomsky is given ample space to articulate his views on many of the major issues relating to his work both linguistic and political this book reads like the autobiography that Chomsky says he will never write Barsky s account reveals the remarkable consistency in Chomsky s interests and principles over the course of his life The book contains well placed excerpts from Chomsky s published writings and unpublished correspondence including the author s own years long correspondence with Chomsky Not for sale in Canada **The Politics of Persuasion** Anthony R. DiMaggio,2017-02-21 Tracking the effects of media content on the public is a difficult endeavor and media effects vary on a subject to subject basis To address this challenge The Politics of Persuasion employs a multifaceted mixed method approach to studying mass media and public attitudes Anthony R DiMaggio analyzes more than a dozen case studies covering US domestic economic policy and examines a wide range of theories of how bias operates in mass media with regard to coverage of these issues While some research claims that journalists are overly negative and biased against government officials some reveals that journalists favor citizens groups Still other studies contend there is a liberal bias in the media a progovernment bias or a bias in favor of advertisers and business interests Through his analysis DiMaggio is the first to systematically examine all of these competing interpretations He concludes that reporters tailor stories to corporate and government interests but argues that the ability to manufacture consent from the public in favor of these elite views is far from guaranteed According to DiMaggio citizens often make use of their own personal experiences and prior attitudes to challenge official narratives Experience the Gospel of Mark Andy Klenke,2024-08-06 Help your students experience the storyline of Jesus and the major themes of the book of Mark The book of Mark introduces us to the life and ministry of Jesus and describes what it looks like to be a Christian This beautiful and experiential study inspires students to follow Jesus and instills a lifelong love and appreciation for Scripture Each day a student will read a portion of Scripture and then be challenged to apply its truth to their everyday life Experience

Scripture resources are designed specifically to help readers engage with God's Word through reading and reflection. As they become Biblically fluent, students will be able to apply its principles in everyday life. These resources are rooted in Scripture; this is not a self-help manual but a resource that fosters a life-long habit of reading the Bible. Beautifully designed, contemporary design that appeals to students who appreciate a clean reading experience. Accessible can be completed in one month. Each day includes brief explanation of passage's major themes to quickly understand context. Experiential Scripture is meant to be experienced. This resource provides tangible ways for students to interact with Scripture. This Biblical commentary can be used devotionally with these features and practices provided for each day. Know Before You Go: learn the essential context. Read the Passage: average of about 20 verses per day. After the Passage explains meaning, themes, and the bottom line. Experience engaging questions and interactions. Takeaway and Pray: personal application that lasts.

Loaded Words Marjorie Garber, 2012-06-01 In *Loaded Words*, the inimitable literary and cultural critic Marjorie Garber invites readers to join her in a rigorous and exuberant exploration of language. What links the pieces included in this vibrant new collection is the author's contention that all words are inescapably loaded—that is, highly charged, explosive, substantial, intoxicating, fruitful, and overbrimming—and that such loading is what makes language matter. Garber casts her keen eye on terms from knowledge, belief, madness, interruption, genius, and celebrity to humanities, general education, and academia. Included here are an array of stirring essays from the title piece with its demonstration of the importance of language to our thinking about the world to the superb *Mad Lib* on the concept of madness from *Mad* magazine to debates between Foucault and Derrida to pieces on Shakespeare, the most culturally loaded name of our time and the Renaissance. With its wide range of cultural references and engaging style coupled with fresh intellectual inquiry, *Loaded Words* will draw in and enchant scholars, students, and general readers alike.

Brazil Alfredo Saad-Filho, Lécio Morais, 2017-12-20 Brazil is the world's sixth largest economy, has played a key role as one of the pink wave administrations in Latin America, and was also responsible for wrecking the US-sponsored proposal for a Free Trade Area of the Americas. It is also one of the few large countries where social spending has risen and the distribution of income has improved in the last thirty years. However, as protests during the World Cup in 2014 have shown, the country remains highly unequal, unmet social needs are vast, and its infrastructure is precarious. Alfredo Saad Filho and Lécio Morais review the paradox that is modern-day Brazil. Focusing on the period from 1980 onwards, they analyse the tensions between the two systemic transitions to have dominated the country: the political transition from military rule to democracy and to neoliberalism. The authors show how these transitions had contradictory logics and dynamics yet ultimately became mutually supportive as they unfolded and intertwined.

Pursuing the Spiritual Roots of Protest Gordon Oyer, 2014-02-28 In the fall of 1964, Trappist monk Thomas Merton prepared to host an unprecedented gathering of peace activists. About all we have is a great need for roots, he observed, but to know this is already something. His remark anticipated their agenda: a search for spiritual roots to nurture sound motives for protest. This

event's originality lay in the varied religious commitments present. Convened in an era of well-kept faith boundaries, members of Catholic, lay and clergy, mainline Protestant, historic peace church, and Unitarian traditions participated. Ages also varied, ranging from twenty-three to seventy-nine. Several among the fourteen who gathered are well known today among faith-based peace advocates: the Berrigan brothers, Jim Forest, Tom Cornell, John Howard Yoder, A. J. Muste, and Merton himself. During their three days together, insights and wisdom from these traditions would intersect and nourish each other. By the time they parted, their effort had set down solid roots and modeled interreligious collaboration for peace work that would blossom in coming decades. Here, for the first time, the details of those vital discussions have been reconstructed and made accessible to again inspire and challenge followers of Christ to confront the powers and injustices of today. Beggars of Life Jim Tully, 2004. A young outlaw's adventures surviving the turn of the century underworld.

Reconstruction in a Globalizing World David Prior, 2018-01-02. As one of the most complexly divisive periods in American history, Reconstruction has been the subject of a rich scholarship. Historians have studied the period's racial views, political maneuverings, divisions between labor and capital, debates about woman suffrage, and of course its struggle between freed slaves and their former masters. Yet on each of these fronts, scholarship has attended overwhelmingly to the eastern United States, especially the South, thereby neglecting important transnational linkages. This volume, the first of its kind, will examine Reconstruction's global connections and contexts in ways that, while honoring the field's accomplishments, move it beyond its southern focus. The volume will bring together prominent and emerging scholars to showcase the deepening interplay between scholarships on Reconstruction and on America's place in world history. Through these essays, *Reconstruction in a Globalizing World* will engage two dynamic fields of study to the benefit of them both. By demonstrating that the South and the eastern United States were connected to other parts of the globe in complex and important ways, the volume will challenge scholars of Reconstruction to look outwards. Likewise, examining these same connections will compel transnationally minded scholars to reconsider Reconstruction as a pivotal era in the shaping of the United States' relations with the rest of the world.

Heart of Europe Norman Davies, 2001-05-31. The image of Poland has once again been impressed on European consciousness. Norman Davies provides a key to understanding the modern Polish crisis in this lucid and authoritative description of the nation's history. Beginning with the period since 1945, he travels back in time to highlight the long-term themes and traditions which have influenced present attitudes. His evocative account reveals Poland as the heart of Europe in more than the geographical sense. It is a country where Europe's ideological conflicts are played out in their most acute form, as recent events have emphasized. Poland's fate is of vital concern to European civilization as a whole. This revised and updated edition tackles and analyses the issues arising from the fall of the Eastern Block and looks at Poland's future within a political climate of democracy and free market.

Other Lands Have Dreams Kathy Kelly, 2005. Written by a human rights activist, this extraordinary narrative gives voice to the cries of people afflicted by military and economic warfare.

Radical Priorities Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the ability of words has be much more evident than ever. They have the ability to inspire, provoke, and ignite change. Such could be the essence of the book **Radical Priorities**, a literary masterpiece that delves deep into the significance of words and their affect our lives.
