 reflection However it has often been confined to particular contexts or theological camps and thus failed to engage with the

 twenty first century demands a dialogical model of theology that enacts progressive change The volume draws on studies of
 the multicultural and multi faith British urban experience and situates these within the wider international context The works
 of influential theologians in the field are examined and the dialogue between theology globalisation post colonialism
 postmodernism and post religious urban culture critically explored The volume is unique in bringing together urban

 theology [A Theology of International Development](#) Thia Cooper, 2020-02-05 Religion and development have been
 intertwined since development's beginnings yet faith based aid and development agencies consistently fail to consider how
 their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge
 the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world's
 poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to
 development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to
 adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the
 entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most
 marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between
 charity and justice and to empower people in the Global South paying particular attention to the intersections of race class
 sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently
 exists and to return faith based organizations to following Christian practices It will be an important read for religion and
 development researchers practitioners and students *Encyclopedia of New Religious Movements* Peter Clarke, 2004-03-01

Post-Colonial Theology Robert S. Heaney, 2019-05-08 Hate is unveiled on our streets Politics is polarized and the cohesion of communities is under stress and threat Religious and theological leaders appear compromised or paralyzed Robert S Heaney grew up in a Northern Ireland where enmity paraded itself and policed the boundaries between segregated identities and aspirations Such conflict with deep historic roots is inextricably linked to religion and colonization The theologizing of colonialism and the ongoing implications of colonialism cannot be ignored by those who wish to understand the most intractable of human conflicts Religious adherents and scholars are increasingly seeking to understand colonialism and decolonization in theological terms The field of post colonial studies across a range of contexts and in a complex network of inter disciplinary analyses has emerged as a major scholarly movement seeking to provide resources for such a task Theologians have increasingly seen the field as a resource and have made their own contributions to its development However depending as it does on a series of theoretical and technical commitments post colonialism remains inaccessible to the uninitiated Beginning with his own particular context of formation in this book Heaney provides an accessible introduction to post colonial theology
