Radical Philosophy:

Radical Philosophy, 1996 **Radical Philosophy** Chad Kautzer, 2015 In this concise introduction Chad Kautzer demonstrates the shared emancipatory goals and methods of several radical philosophies from Marxism and feminism to critical race and queer theory Radical Philosophy examines the relations of theory and practice knowledge and power as well as the function of law in creating extralegal forms of domination Through a critical engagement with the history of philosophy Kautzer reconstructs important counter traditions of historical dialectical and reflexive forms of critique relevant to contemporary social struggles The result is an innovative systematic guide to radical theory and critical resistance

Socialism, Feminism and Philosophy Peter Osborne, 2013-02-01 Since 1972 the journal Radical Philosophy has provided a forum for the discussion of radical and critical ideas in philosophy It is the liveliest and probably the most widely read philosophical journal in Britain This anthology reprints some of the best articles to have appeared in the journal during the past five years It covers topics in social and moral philosophy which are central to current controversies on the left focusing on theoretical issues raised by the socialist feminist and environmental movements Topics covered include feminist perspectives on a range of traditional philosophical issues and contemporary problems theoretical questions involved in the rethinking of socialism and Marxism and questions about the relation between humanity and nature raised by environmental debates The pieces included engage with contemporary issues in critical terms and represent the best of recent philosophical work on the left The book is essential reading for anyone interested in the current state of radical thought A Radical Philosophy Agnes Heller, 1984 Radicalism P. McLaughlin, 2012-08-21 Confusion controversy and even fear surrounds the political phenomenon of radicalism This book attempts to make conceptual and historical sense of this phenomenon both as a kind of practice and as a kind of thought before defending it in a traditional if unfashionable form a form that is historically progressive and politically humanistic **Radical Philosophy** Roger S. Gottlieb, 1993 This anthology brings together new essays by leading figures in contemporary philosophy scholars whose work is well known not only to the entire community of academic philosophy but to many in the associated fields of sociology women's studies literary theory and political science Defining for the first time the boundaries and accomplishments of a body of work deeply critical of both the philosophical and the social dimensions of domination the collection draws on diverse traditions and social movements These include feminism critical theory Marxism deconstruction democratic socialism theories of race and ethnicity deep ecology and politicized spirituality The contributors use these resources to comprehend and indict the present social order and to help us imagine a more just liberating and fulfilling society In his lucid Introduction Roger S. Gottlieb describes the formative contexts achievements and dilemmas of radical philosophy Essays in Part I Tradition challenge the pretensions of philosophy in epistemology ethics and the theory of human nature These articles unveil the social oppression hidden behind self-proclaimed attempts at Grand and Unbiased Philosophical Reason In Part II Counter Tradition the contributors engage with

today's dominant critical perspectives and show how multi-faceted, rich, and sometimes confusing these perspectives are. Their topics include issues of exploitation, democracy, and justice; the current status of Marxism; the impact of deep ecology on radical theory; and some dilemmas faced by cultural feminism. Part III, Politics, addresses questions about contemporary North American political and cultural life. The essays examine relations among varying types of oppression, the experience of community and communities, the possibilities of fundamental political change, and the representation of difference in popular culture.

Engaging Agnes Heller Katie Terezakis, 2009-03-16 This collection of essays examines the life and thought of Agnes Heller, who rose to international acclaim as a Marxist dissident in Eastern Europe, then went on to develop one of the most comprehensive oeuvres in contemporary philosophy, putting forward a distinctive ethical theory and analyses of a vast range of topics covering most every philosophical area. Here philosophers, sociologists, journalists, and political scientists contextualize, compare, and assess different elements of Heller's work. The collection as a whole highlights relevant shifts within that work as well as its intrinsic consistency. Essays in the collection address the relationship between philosophy, political practice, and everyday life; Heller's theory of modernity and her ethical theory; her recent scholarship on comedy and the Biblical book of Genesis; her theories of radical needs and radical politics; her aesthetic theory and questions about her relationship to feminist theory. The collection includes Heller's reflections on the collected essays as well as an early essay on her mentor Lukács that exposes her own steadfast engagement with certain practical and philosophical issues throughout her life's work.

Experiencing Identity Ian Craib, 1998-07-08 I recommend this book to all readers interested in thinking about the self. I am sure that anyone who reads it will come away with some new ideas. **Therapeutic Communities** This critical and comprehensive examination of the relation of theory and identity discusses definitions of identity in classical social theory, modern social theory, and psychoanalysis. The introduction is a critique of existing sociological accounts of identity, arguing that these are incurably cognitive, treating the people that they study as incapable of experiencing an internal life or internal space. The book then considers the implications of this in social theory and human practice.

Marxism And The Moral Point Of View Kai Nielsen, 2021-11-28 Marxism and the Moral Point of View attempts to say what consistent Marxists working within the parameters of the canonical conceptions of Marxism should say about morality. This includes what they should say about the function of morality in society, about the extent of moral comment they can justifiably make, and about freedom, equality, and justice, including the justice of whole social formations. Karl Marx, and most Marxists follow him, was opposed.

The Roots of American Communism Victor W. Turner, 2018-04-17 In this definitive history of the evolution of the Communist Party in America from its early background through its founding in 1919 to its emergence as a legal entity in the 1920s, Theodore Draper traces the native and foreign strains that comprised the party. He emphasizes its shifting policies and secrets as well as its open activities. He makes clear how the party in its infancy was transformed from a new expression of American radicalism to the American appendage of a Russian revolutionary power, a fact that Draper develops in his

succeeding volume *American Communism and Soviet Russia* In his special prescient way Theodore Draper himself had the final words on American Communism It is like a museum of radical politics In its various stages it has virtually been all things to all men There are many ways of trying to understand such a movement but the first task is historical In some respects there is no other way to understand it or at least to avoid seriously misunderstanding it Every other approach tends to be static one sided or unbalanced Draper correctly notes that the formative period of the American Communist movement has remained a largely untold and even unknown story In part the reasons for this are that the Communist movement although a child of the West grew to power in the Soviet East But Draper rescues this chapter with deep appreciation for the fact that communism was not something that happened just in Russia but also in the United States This is a must read for scholars and laypersons alike This volume is conceived as an independent and self contained study of the American Communist movement Draper correctly notes that the formative period is largely untold and even unknown In part the reasons for this are that the Communist movement although a child of the West grew to power in the Soviet East Draper appreciates the fact that communism was not something that happened only in Russia but also took place in the United States That experience is the focus of this volume

Defending Objectivity Margaret Archer, William Outhwaite, 2004-07-31 Andrew Collier is the boldest defender of objectivity in science knowledge thought action politics morality and religion The diverse contributions range from social and political thought to philosophy

Ecology and Revolution Charles Reitz, 2018-10-11 A timely addition to Henry Giroux's Critical Interventions series *Ecology and Revolution* is grounded in the Frankfurt School critical theory of Herbert Marcuse Its task is to understand the economic architecture of wealth extraction that undergirds today's intensifying inequalities of class race and gender within a revolutionary ecological frame Relying on newly discovered texts from the Frankfurt Marcuse Archive this book builds theory and practice for an alternate world system Ecology and radical political economy as critical forms of systems analysis show that an alternative world system is essential both possible and feasible despite political forces against it Our rights to a commonwealth economy politics and culture reside in our commonworks as we express ourselves as artisans of the common good It is in this context that Charles Reitz develops a GreenCommonWealth Counter Offensive a strategy for revolutionary ecological liberation with core features of racial equality women's equality liberation of labor restoration of nature leisure abundance and peace

The Making of a Marxist Philosopher Sean Sayers, 2024-07-31 *The Making of a Marxist Philosopher* is a revealing and beautifully written memoir and family history from renowned Marxist philosopher Sean Sayers His father was the son of a Jewish Irish businessman who was a friend of Michael Collins and other leaders in the Irish struggle for independence He became a writer who was given his first job by T S Eliot shared a flat with George Orwell went to America and was blacklisted under McCarthyism Sean's mother was the American born daughter of a world famous Italian American anarchist She became a communist and lived and worked in China Sean was born in New York and grew up in London He studied philosophy in Cambridge and Oxford

Universities in the 1960s and has become an internationally known Marxist philosopher As one of the founders of the journal *Radical Philosophy* and the creator of the *Marx and Philosophy Review of Books* Sayers has been at the centre of the development of philosophy on the left in the English speaking world during the past fifty years Reflecting on the fate of Marxism in an engaging thoughtful way *The Making of a Marxist Philosopher* is filled with revealing family photographs which Sayers uses to craft an original must read on left wing thought and politics **Journey Into the Mind of an Islamic Terrorist** Mark A. Gabriel,2005 Raised as a devout Muslim but holding a Ph D in Christian education Gabriel uses his unique background to share real life stories of Christians living in Muslim countries lists the top ten terrorists explains the value of religious education for Muslim children and discusses why the history of Islam has been a bloodbath *The Antipodean Philosopher* Graham Robert Oppy,Graham Oppy,Nick Trakakis,2011-01-01 This volume presents an accessible and engaging collection of essays by prominent Australasian philosophers covering a wide array of topics and drawn from a series of public lectures on Philosophy in Australia and Zealand convened over a period of four years The essays explore the rich philosophical past of Australasia while also illustrating why philosophy in Australasia ranks highly in influence and esteem

The Politics of Time Peter Osborne,2020-05-05 If Aristotle sought to understand time through change might we not reverse the procedure and seek to understand change through time Once we do this argues Peter Osborne it soon becomes clear that ideas such as avant garde modern postmodern and tradition which are usually only treated as markers for empirically discrete periods movements or styles are best understood as categories of historical totalization More specifically Osborne claims such ideas involve distinct temporalizations of history giving rise to conflicting politics of time His book begins with a consideration of the main aspects of modernity and develops through a series of critical engagements with the major twentieth century positions in the philosophy of history He concludes with a fascinating history of the avant garde intervention into the temporality of everyday life in surrealism the situationists and the work of Henri Lefebvre *Out of This World* Peter Hallward,2006-08-17 A controversial critique of an iconic philosopher **Architecture Against the Post-Political** Nadir Lahiji,2014-05-23 Written by a team of renowned contributors and carefully edited to address the themes laid out by the editors in their introduction the book includes theoretical issues concerning the questions of aesthetics and politics and addresses city and urban strategies within the general critique of the post political By focusing on specific case studies from Warsaw Barcelona Dubai Tokyo and many more the book consolidates the contributions of a diverse group of academics architects and critics from Europe the Middle East and America This collection fills the gap in the existing literature on the relation between politics and aesthetics and its implications for the theoretical discourse of architecture today In summary this book provides a response to the predominant de politicization in academic discourse and is an attempt to re claim the abandoned critical project in architecture **History Made Conscious** Geoff Eley,2023-08-22 How History has changed in the half century since the 1960s During the last fifty years the writing of history underwent two

massive transformations First powered by Marxism and other materialist sociologies the great social history wave instated the value of social explanation Then responding to new theoretical debates the cultural turn upset many of those freshly earned certainties Each challenge was profoundly informed by politics from issues of class gender and race to those of identity empire and the postcolonial The resulting controversies brought historians radically changed possibilities expanding subject matters unfamiliar approaches greater openness to theory and other disciplines a new place in the public culture History Made Conscious offers snapshots of a discipline continuously rethinking its charge How might we understand the social and the cultural together How do we collaborate most fruitfully across disciplines If we take theory seriously how does that change what historians do How should we think differently about politics After Poststructuralism Rosi Braidotti, 2014-09-11 The end of the Cold War revitalised continental philosophy and more particularly interest in it from outside philosophy After Poststructuralism Transitions and Transformations analyses the main developments in continental philosophy between 1980 1995 a time of great upheaval and profound social change The volume ranges across the birth of postmodernism the differing traditions of France Germany and Italy third generation critical theory radical democracy postcolonial philosophy the turn to ethics feminist philosophies the increasing engagement with religion and the rise of performativity and post analytic philosophy Analyses of the major figures are integrated within the discussion After Poststructuralism reveals how continental philosophy fuelled by an intense ethical and political desire to reflect changing social and political conditions responded to the changing world and to the key issues of the time notably globalisation technology and ethnicity
