Fighting on Two Fronts James E. Westheider, 1997-04 A very powerful account of a significant aspect of recent American military history Journal of Military History Westheider has researched very thoroughly an effort including extensive interviews with Vietnam veterans and he possesses a rare gift for narrative that makes the result of all this research eminently readable A highly desirable addition for both African American studies and military affairs collections an invaluable history Booklist Highly recommended Library Journal James E Westheider persuasively argues that black soldiers were the key factor in bringing about a more egalitarian military This book significantly advances our understanding of both race relations and armed forces Charles Moskos Northwestern University With this meticulous investigation of how institutional racism operated in the military of the 1960s and 70s James Westheider provides us with a model for making sense of institutional sexism in the Tailhook era military Cynthia Enloe author of *The Morning After Sexual Politics at the End of the Cold War* The racial tensions that have long plagued American society exist to a much lesser extent in the military where the bond of common pursuit and shared experience renders race less relevant Or so conventional wisdom has long held In this dramatic history of race relations during the Vietnam war James E Westheider illustrates how American soldiers in Vietnam grappled with many of the same racial conflicts that were tearing apart their homeland thousands of miles away Over seven years in the making *Fighting on Two Fronts* draws on interviews with dozens of Vietnam veterans black and white and official Pentagon documents to paint the first complete picture of the African American experience in Vietnam Westheider reveals how preconceptions and petty misunderstandings often exacerbated racial anxieties during the conflict Military barbers for instance were often inexperienced with black hair leading black soldiers to cut each other's hair an act perceived as separatist by their white counterparts Similarly black soldiers often greeted one another with a ritualized handshake or dap as a sign of solidarity the unfamiliarity of which threatened many white soldiers and was a source of resentment until it was banned in 1973 Despite ample evidence of institutional racism in the armed forces the military elite responded only when outbreaks of racial violence became disruptive enough to threaten military discipline and attract negative attention from the civilian world A crucial addition to our understanding of Vietnam *Fighting on Two Fronts* is a compelling example of the new military history at its finest James E Westheider is a Lecturer in African American history at Northern Kentucky University He received his Ph D in History from the University of Cincinnati

The Unfinished Politics of Race Les Back,Michael Keith,Kalbir Shukra,John Solomos,2022-12-01 The Unfinished Politics of Race argues that the past few decades have seen important transformations in the politics of race Contending that existing accounts have focused narrowly on the mainstream political sphere this study argues that there is a need to explore the role of race more widely By exploring the mainstream as well as transitional and alternative spheres of political mobilisation the authors stress the need to link the analysis of both local and national processes in order to make sense of the changing contours of racialised politics The underlying concern of this study is to outline both a theoretical frame for an analysis of racial politics and detailed empirical accounts of different arenas of political mobilisation By exploring the unfinished politics of race this study provides a timely reminder that the position of racial and ethnic minorities in political institutions remains deeply contested

movements **Radical Eroticism** Rachel Middleman,2018-01-16 In the 1960s the fascination with erotic art generated a wave of exhibitions and critical discussion on sexual freedom visual pleasure and the nude in contemporary art Radical Eroticism examines the importance of women s contributions in fundamentally reconfiguring representations of sexuality across several areas of advanced art performance pop postminimalism and beyond This study shows that erotic art made by women was integral to the profound changes that took place in American art during the sixties from the crumbling of modernist aesthetics and the expanding field of art practice to the emergence of the feminist art movement Artists Carolee Schneemann Martha Edelheit Marjorie Strider Hannah Wilke and Anita Steckel created works that exemplify these innovative approaches to the erotic exploring female sexual subjectivities and destabilizing assumptions about gender Rachel Middleman reveals these artists radical interventions in both aesthetic conventions and social norms **Radical Theology** Jeffrey W. Robbins,2016-08-08 Radical theology and political theology are terms that have gained a lot of currency among philosophers of religion today In this visionary new book Jeffrey W Robbins explores the contemporary direction of these movements as he charts a course for their future Robbins claims that radical theology is no longer bound by earlier thinking about God and that it must be conceived of as postsecular and postliberal As he engages with themes of liberation gender and race Robbins moves beyond the usual canon of death of God thinkers thinking against them as much as with them He presents revolutionary thinking in the face of changing theological concepts from reformation to transformation transcendence to immanence messianism to metamorphosis and from the proclamation of the death of God to the notion of God s plasticity **Radical and Marxist Theories of Crime** Paul B. Stretesky,2017-03-02 The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior radical and Marxist criminology emphasizes power inequality and structures especially those related to class as key factors in crime law and justice This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional for example governmental behavior highlights neglected crime corporate governmental state corporate and environmental which causes more extensive damage than the street crimes examined by orthodox criminology and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control *Revisiting Russian Radicals* Andrew M. Drozd,Brendan G. Mooney,2024-12-13 Revisiting Russian Radicals is a collection of ten articles that seeks to promote a revisitation of the Russian Radicals who have been somewhat unjustly forgotten in the aftermath of the fall of the Soviet Union Rather than viewing the radicals through the lens of the 1917 October Revolution the authors seek to analyze them on their own terms and explore new aspects of their legacy The chapters provide a fresh look at some well known radicals like Chernyshevsky Dobrolyubov and Pisarev as well as examinations of lesser known figures and offer an interdisciplinary approach to their investigations combining historical and literary analysis A lengthy introduction is

included for those who are non Slavists and for the newer generation of Slavists who may not be as familiar with these figures

Critical Theories, Radical Pedagogies, and Global Conflicts Gustavo Fischman, 2005 We are living in a time of resurgent global conflicts and imperialistic tensions a time in which many children are being left behind by school systems that appear more concerned with developing accountability schemes and standardized models of testing than with defending the right of every child to have access to a good education The efforts of countless teachers activists and families working and living in poor areas around the world are labeled as failures entirely discredited on the basis of their expendability in relation to capital gains or simply ignored In response to these oppressive and challenging conditions this book's contributors a group of committed educators and activists working in an ethos of solidarity across geopolitical and geographical borders have advanced arguments and strategies that link educational transformation to the larger struggle to transform oppressive social relations In a clear attempt to move beyond both nostalgia and romanticism *Critical Theories Radical Pedagogies and Global Conflicts* draws from a range of viewpoints conceptual and thematic transnational and crosscultural First World and Third World to articulate new directions for teachers and activists working to demonstrate that another education and indeed another world is possible

Radical childhoods Jessica Gerrard, 2016-05-16 At a time when education appears to be simply reproducing social class relations *Radical childhoods* offers a timely consideration of how children's and young people's education can confront and challenge social inequality Presenting detailed analysis of archival material and oral testimony the book examines the experiences of students and educators in two schooling initiatives that were connected to two of the most significant social movements in Britain Socialist Sunday Schools est 1892 and Black Saturday Supplementary Schools est 1967 Analysing across time the author explores the ways in which these two very different schooling movements incorporated large numbers of women challenged class and race inequality and attempted to create spaces of emancipatory education independent to the state It argues that despite appearing to be on the margins of the public sphere these schools were important if contested and complex sites of political struggle

Radicalism at the Crossroads Dayo F. Gore, 2012-10-01 With the exception of a few iconic moments such as Rosa Parks's 1955 refusal to move to the back of a Montgomery bus we hear little about what black women activists did prior to 1960 Perhaps this gap is due to the severe repression that radicals of any color in America faced as early as the 1930s and into the Red Scare of the 1950s To be radical and black and a woman was to be forced to the margins and consequently these women's stories have been deeply buried and all but forgotten by the general public and historians alike In this exciting work of historical recovery Dayo F. Gore unearths and examines a dynamic extended network of black radical women during the early Cold War including established Communist Party activists such as Claudia Jones artists and writers such as Beulah Richardson and lesser known organizers such as Vicki Garvin and Thelma Dale These women were part of a black left that laid much of the groundwork for both the Civil Rights Movement of the 1960s and later strains of black radicalism *Radicalism at the Crossroads* offers a sustained and in depth analysis of the

political thought and activism of black women radicals during the Cold War period and adds a new dimension to our understanding of this tumultuous time in United States history **Three Radical Women Writers** Nora Ruth Roberts, 2013-07-04 Combining biography history and literary theory this work looks at three of the most significant women writers to emerge from American radicalism of the 1930s Le Sueur Olsen and Herbst were influenced by the Communist movement of the time but each also forged an independent vision of feminist socialist literary milieu Drawing on Marxist and post Marxist theory and addressing the challenge of such new feminist theorists as Jean Bethke Elshtain Roberts takes a theoretical approach that encompasses the social vision and feminist practice of the writers and places them in their historical cultural and social contexts The study covers their lives from the turn of the century to the 1970s with an emphasis on the 1930s examines their views of the Cold War links the three to the Progressive tradition and analyzes their key literary works Resources for analysis include historical and contemporary theory excerpts from the radical press of the 1920s and 1930s and primary materials from the writers themselves including journals notes and unpublished archival materials
