Radio The Media:

Sound Business Michael Stamm, 2011-05-03 American newspapers have faced competition from new media for over ninety years Today digital media challenge the printed word In the 1920s broadcast radio was the threatening upstart At the time newspaper publishers of all sizes turned threat into opportunity by establishing their own stations Many such as the Chicago Tribune s WGN are still in operation By 1940 newspapers owned 30 percent of America s radio stations This new type of enterprise the multimedia corporation troubled those who feared its power to control the flow of news and information In *Sound Business* historian Michael Stamm traces how these corporations and their critics reshaped the ways Americans received the news Stamm is attuned to a neglected aspect of U S media history the role newspaper owners played in communications from the dawn of radio to the rise of television Drawing on a wide array of primary sources he recounts the controversies surrounding joint newspaper and radio operations These companies capitalized on synergies between print and broadcast production As their advertising revenue grew so did concern over their concentrated influence Federal policymakers especially during the New Deal responded to widespread concerns about the consequences of media consolidation by seeking to limit and even ban cross ownership The debates between corporations policymakers and critics over how to regulate these new kinds of media businesses ultimately structured the channels of information distribution in the United States and determined who would control the institutions undergirding American society and politics *Sound Business* is a timely examination of the connections between media ownership content and distribution one that both expands our understanding of mid twentieth century America and offers lessons for the digital age

Media at War Gwenyth L. Jackaway, 1995-11-20 Fought when radio was first introduced the Press Radio war was an attempt on the part of print journalists to block the emergence of radio news For nearly a decade the newspapers of America fought to keep broadcast journalism off the air exerting various forms of economic regulatory and legal pressure against new competitors This study traces the stages and forms of institutional self defense utilized by the press Far more than mere battles to protect profits media wars are fights to preserve the institutional power that derives from controlling the channels of communication

Rainforest Radio Georgia Ennis, 2025-04-22 Napo Kichwa communities in the Upper Ecuadorian Amazon find themselves doubly marginalized by settler colonialism and well intentioned language revitalization projects In *Rainforest Radio* Georgia C Ennis provides a comprehensive ethnographic exploration of Amazonian Kichwa community media offering a unique look at how Indigenous broadcast and performance media facilitate linguistic and cultural reclamation in the Ecuadorian Amazon This work offers a critical analysis of how standardized language revitalization efforts like the imposition of Unified Kichwa can inadvertently perpetuate linguistic oppression Ennis follows producers performers and consumers to understand the role of media in language reclamation Through extensive fieldwork she provides vivid portrayals of community efforts to sustain the language and cultural practices of their elders amid environmental and social upheaval Meticulously researched and

beautifully written *Rainforest Radio* is an essential work for anthropologists linguists and social scientists interested in language revitalization Indigenous media and environmental justice This book showcases the transformative potential of community driven media initiatives highlighting the innovative responses of Napo Kichwa activists to the unique challenges they face It serves as a powerful model for those working on similar issues worldwide demonstrating the critical role of community media in language reclamation and cultural sustainability

ICEMSS 2018 Poppy Febriana, Mochammad Tanzil Multazam , Fika Megawati, Robbi Rahim, 2019-03-01 New media and development of gender roles law social and economic perspective This theme was raised as an effort to observe the

development of new technology that has greatly affected people's lives. Formerly to seek information people can get it through conventional radio, media, newspapers and television. But now only use the smartphone we can get very much information that can be obtained by accessing the online media portal or sharing and socializing through social media. For decades it has been stated that the media has the power to shape public opinion. Media not only can form a worldview of society but also able to create awareness and individual belief in reality, a reality that has been defined by the media. Media has a powerful and direct effect to the audience market. Including how then the media formed an opinion in the community about gender roles through the content provided by the new media. Of course it will be interesting to study media related to the law, social and economic perspective.

Human Rights and Media Diana Papademas, 2011-10-17. Volume VI on Human Rights and Media introduces and analyzes the significant relationship and discourse of human rights and media. As agenda setters, framers and integral actors in human rights movements, various forms of media are analyzed by the contributing authors.

Global Radio Shaheed Nick Mohammed, 2019-09-25. *Global Radio: From Shortwave to Streaming* chronicles the development of radio as a global medium. In this book, Shaheed Nick Mohammed examines the evolution of radio from its early uses as little more than a novelty into a set of powerful systems for international exchanges of news, culture and political influence. In doing so, the book follows the development of radio as a wireless form of the telegraph, its evolution into a medium for sound transmission across the air, and its adaptation to digital networked audio and transmissions technologies. Mohammed also outlines the myriad changes in the radio industry in numerous contexts around the globe and over time, including the early development of commercial and non-commercial broadcasting in the United States, Europe, India and China, and the evolution of so-called international broadcasters. As radio played a part in colonial politics, it also figured prominently in the politics of the post-colonial. Within the broader context of global radio, this book examines several former colonies and the transformation of radio from a tool of empire into an instrument of national development. It also focuses on instances in which developing nations have used radio to bridge the gap between rural audiences and digital networked technologies connecting them to the global information superstructure. Scholars of media studies, communication, radio studies, international relations and political science will find this book particularly useful.
