Sterling and John Michael Kittross is apparent as they lead readers through the development of American electronic mass media from the first electrical communication telegraph and telephone through radio and television to the present convergence of media business entities, programming, and delivery systems, including the Internet. Their presentation is engaging as well as informative, promoting an interest in history and making the connections between the developments of yesterday and the industry of today. Features of this third edition include chronological and topical tables of contents, new material reflecting modern research in the field, a new chapter describing historical developments from 1988 through to the current day, an expanded bibliography including Web site and museum listings, an updated and expanded glossary and chronology, and extensive statistical data of the development of television and radio stations, networks, advertising, programming, audiences, and other aspects of broadcasting.
