10 Short Stories Volume 1 Martin Lundqvist, 2021-02-16 This Anthology contains the following short stories The Dinner at Darkwood Mansion Keila halts the Terran drug smugglers in the year 2869 Daydreaming in the shoe shop The Escargot Conspiracy How I met your mother and almost got arrested for murder The Snailkeeper at Lupusserra The Cathedral Date The Clinic Murders The Golden Duck Dinner The Escape from the Tang Emperor **Telling the Untold Story** Steve Weinberg, 1992 Author of his own controversial unauthorized biography of Armand Hammer Steve Weinberg here shows how a new generation of biographers is revealing the lives of powerful individuals in dramatic and important new ways Trained as investigative journalists today's writers have entered a domain once dominated by university scholars Unlike their more academic predecessors who often wrote nonjudgmental books on the public lives of long dead individuals these new biographers are willing to tackle such powerful living subjects as Nancy Reagan Henry Kissinger Hugh Hefner Pete Rose and Fidel Castro Few of these books are adoring Without cooperation from their subjects and sometimes under threat of lawsuit these writers are probing into private lives and enabling readers to make up their own minds about public figures Tracing the evolution of the craft of biography up to the present day Weinberg draws on interviews with some of today's best biographers as well as his own experience with the Hammer biography to highlight the careers of some of the writers whose work exploded the boundaries of traditional biography When Robert Caro became the first journalist to win a Pulitzer Prize for Biography for his book on Robert Moses it marked the dawn of a new approach to the craft Weinberg also explores the techniques of Philadelphia Inquirer journalists Donald Barlett and James Steele whose jointly authored biographies of Howard Hughes and Nelson Rockefeller mark another sign of how far the genre of biography has come The book is enriched by samples of investigative biography at its best including a scathingly honest profile of the reigning queen of unauthorized biography Kitty Kelley and Calvin Trillin's fascinating New Yorker profile of the Miami Herald's inimitable police reporter Edna Buchanan The living of a life is more difficult than the chronicling of it but the chronicling is certainly no simple task writes Weinberg Telling somebody else's life fully fairly and compellingly is probably an impossible task But it is important to keep pushing the limits of the possible For writers reviewers publishers and general readers Telling the Untold Story is a fascinating look at how a new kind of biographer has forever changed our expectations of the genre and continues to push biography to exciting new limits Radioactive Clouds of Death over Utah Dr. Daniel W. Miles, 2013-10-01 RADIOACTIVE CLOUDS OF DEATH OVER UTAH From 1950 to the 1958 moratorium on atmospheric testing the Atomic Energy Commission detonated over 100 atomic bombs at the Nevada Test Site The inhabitants of St George Utah the so called downwinders were repeatedly in the fly zone of these toxic windblown clouds so much so that St George became known nationwide as Fallout City USA In the fall of 1979 Stewart Udall along with a team of lawyers came to St George to announce plans for a class action lawsuit against the United States because the local people were struggling with tragedies inflicted by a cancer

epidemic foisted on them by the Atomic Energy Commission After interviewing 125 people during a four day period the Washington lawyer said that cancer rates in the area were three or four times greater than normal Many people in southwestern Utah believe that thousands of citizens throughout the West are still dying from radiation exposure inflicted on them by fallout from the Nevada Test Site during the 1950s The author has spent decades investigating the Test Site issues He was living in St George Utah during the atmospheric testing period in the 1950s He knows the people He has read every local paper from the period counted the tombstones tracked the anecdotes to ground and studied the dozens of scientific studies on the impact of fallout on the health of the local people This book is the result of that investigation The author Dr Daniel W Miles Professor Emeritus Dixie State College received his Ph D from the University of Utah in 1967 He taught upper division physics including radiation physics at Westminster College from 1968 to 1985 and continued his teaching career at Dixie State College He is the author or coauthor of fortytwo publications in peer reviewed scientific journals
