Raf Nuclear Deterrent Forces Their Origins Roles And Deployment 1946 1969 A Documentary History:

Ambiguity and Deterrence John Baylis,1995 This text focuses on the disagreements which existed in British political and military circles over nuclear strategy directly after World War II Based on recently released documents it argues that British policy in this important area was much more ambiguous than is commonly supposed The Cambridge History of the Cold War: Volume 1, Origins Melvyn P. Leffler,Odd Arne Westad,2012-01-26 This volume examines the origins and early years of the Cold War In the first comprehensive reexamination of the period a team of leading scholars shows how the conflict evolved from the geopolitical ideological economic and sociopolitical environments of the two world wars and interwar period and discusses how markets ideas and cultural interactions affected political discourse diplomacy and strategy after World War II The chapters focus not only on the United States and the Soviet Union but also on critical regions such as Europe the Balkans and East Asia The authors consider the most influential statesmen of the era and address issues that mattered to people around the globe food nutrition and resource allocation ethnicity race and religion science and technology national autonomy self determination and sovereignty In so doing they illuminate how people worldwide shaped the evolution of the increasingly bipolar conflict and in turn were ensnared by it The RAF Strategic Nuclear Deterrent Forces Humphrey Wynn,1994 This official history previously not available to the general public records the events that led to the RAF handing over responsibility for British strategic nuclear deterrence to the Royal Navy The British Nuclear Experience John Baylis,Kristan Stoddart,2015 Based on a detailed analysis of archives and high level interviews this book looks at the role of beliefs culture and identity in the making of British nuclear policy from 1945 through to the present day This book also examines Britain s nuclear experience by moving away from traditional interpretations of why states develop and maintain nuclear weapons by adopting a more contemporary approach to political theory Traditional mainstream explanations tend to stress the importance of factors such as the maximization of power the pursuit of national security interests and the role of structure in a largely anarchic international system This book does not dismiss these approaches but argues that British experience suggests that focusing on beliefs culture and identity provides a more useful insight and distinctive interpretation into the process of British nuclear decision making than the more traditional approaches **RAF Nuclear Deterrent Forces** Humphrey Wynn,1997 **Reader's Guide to Military History** Charles Messenger,2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations

Nuclear Command and Control Norms Salma Shaheen,2018-09-28 This book offers a new analytical framework for

studying nuclear command and control C2 based on a comparative study of four nuclear weapons states NWS The subject of nuclear operations management has long been shrouded in secrecy and whilst the importance of nuclear C2 cannot be disputed there are few academic studies into how and why states develop these systems This volume includes a comparative study of the development of nuclear C2 by four different NWS Britain China India and Pakistan and demonstrates that despite several differences there is a central set of factors that remain constant The analytical framework used in this study identifies key factors that can potentially shape the evolution and stability of nuclear C2 These factors include geostrategic threat environment international norms leadership and control of nuclear operations civil military control The book also analyses the interaction among different stakeholders within the nuclear C2 enterprise It recognises that politicians the military and scientists all have key but different roles to play and the way these stakeholders have learned to co exist with each other is explored This volume offers a set of dynamics that could form a global norm for nuclear C2 serving as a standard for new entrants into the nuclear club This book will be of much interest to students of nuclear proliferation global governance and International Relations in general

For the Love of the Air Force Norman Ferguson, 2017-09-14 This miscellany brings together the history of the RAF the people the aviation lingo and time honoured traditions of the force we know today Whether you have RAF experience or you're an enthusiastic supporter from the ground this remarkable volume will be your guide to the oldest independent air force in the world Chocks away

Reader's Guide to British History David Loades, 2020-12-17 The Reader's Guide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6-12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication

Defence Intelligence and the Cold War Huw Dylan, 2014-10-30 During the Second World War British intelligence provided politicians and soldiers with invaluable knowledge Britain was determined to maintain this advantage following victory but the wartime machinery was uneconomical unwieldy and unsuitable for peace Drawing on oral testimony international archives and private papers *Defence Intelligence and the Cold War* provides the first history of the hitherto little known organisation designed to preserve and advance British capability in military and military related intelligence for the Cold War the Joint Intelligence Bureau JIB Headed by General Eisenhower's wartime intelligence man Major General Kenneth Strong the JIB was central to the mission to spy on and understand the Soviet Union and the broader Communist world It did so from its creation in 1946 to its end in 1964 when it formed a central component of the new Defence Intelligence Staff This volume reveals hitherto hidden aspects of Britain's mission to map the Soviet Union for nuclear war the struggle to understand and contain the economies of the USSR China and North Korea in peace and during the Korean War and the urgent challenge to understand

the nature and scale of the Soviet bomber and missile threat in the 1950s and 1960s The JIB's dedicated work in these fields won it the support of some politicians and military men but the enmity of others who saw the centralised organisation as a threat to traditional military intelligence The intelligence officers of the JIB waged Cold War not only with Communist adversaries but also in Whitehall

The Sword and the Shield Kristan Stoddart, 2014-04-29 Kristan Stoddart reveals for the first time discussions that took place between the British, French and US governments for nuclear cooperation in the early to mid 1970s In doing so it sets the scene for the upgrade to Britain's Polaris force codenamed Chevaline and how this could have brought down Harold Wilson's Labour government of 1974-1976

The Oxford Handbook of Names and Naming Carole Hough, 2016-05-03 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought The investigation of name origins is more recent as is the study of names in literature Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them

Weapons of Mass Destruction Britannica Educational Publishing, 2011-11-01 With their potential to wreak massive or total devastation nuclear chemical and biological weapons have dramatically escalated the stakes of war As stockpiles of such weapons continue to grow around the world especially in the years since the Second World War countries have recognized the need to check their powers This detailed volume examines various weapons of mass destruction and the science behind them their effects on conflict and the various arms control treaties and agreements that have been introduced to help curb the possibility of overwhelming loss

Keeping the Peace in the Cyprus Crisis of 1963-64 A. James, 2001-11-28 During the Cold War the small state of Cyprus was of great strategic importance to the West Britain the United States and Nato all had valuable installations there and any armed conflict between Greek and Turkish Cypriots could easily suck two nearby Nato members Greece and Turkey into war When therefore intercommunal fighting broke out in Cyprus in December 1963 the West was deeply embarrassed This book examines the consequential efforts of first Britain and then the UN to keep the

peace James Callaghan Kevin Hickson, Jasper Miles, 2020-11-03 In November 1980 James Callaghan retired as leader of the Labour Party He had been on the front line of British politics for many years and was the only person to hold all of the four great offices of state However his premiership is seen as a failure the last gasp of Keynesian social democracy being smothered by the oncoming advent of Thatcherism This book offers a timely reappraisal of Jim Callaghan's premiership and time as Leader of the Opposition in 1979-80 *Dangerous Energy* Wayne D. Cocroft, 2014-06-15 This book comprises a national study of the explosives industry and provides a framework for identification of its industrial archaeology and social history Few monuments of gunpowder manufacture survive in Britain from the Middle Ages although its existence is documented Late 17th century water powered works are identifiable but sparse In the later 18th century however the industry was transformed by state acquisition of key factories notably at Faversham and at Waltham Abbey In the mid 19th century developments in Britain paralleled those in continental Europe and in America namely a shift to production on an industrial scale related to advances in armaments technology The urgency and large scale demands of the two world wars brought state directed or state led solutions to explosives production in the 20th century The book's concluding section looks at planning preservation conservation and presentation in relation to prospective future uses of these sites *Tedder* Vincent Orange, 2012-10-12 Arthur Tedder became one of the most eminent figures of the Second World War first as head of Anglo American air forces in the Middle East the Mediterranean and North Africa then as Deputy Supreme Commander to General Eisenhower for the Allied campaign that began in Normandy and ended in Berlin During those anxious exhilarating years he was as *The Times* of London wrote the most unstuffy of great commanders who could be found sitting cross legged jacketless pipe smoldering answering questions on a desert airstrip After the war promoted to five star rank and elevated to the peerage as Lord Tedder he was made Chief of the Air Staff holding this appointment for longer than anyone since his time four critical years from 1946 to 1949 that saw the tragic start of the Cold War and the inspiring achievement of the Berlin Airlift In 1950 he became Britain's NATO representative in Washington a year that saw the start of a hot war in Korea that threatened to spread around the globe This book provides the first comprehensive account of a great commander's public career and uses hundreds of family letters to portray a private life both joyful and tragic *Official Military Historical Offices and Sources: Europe, Africa, the Middle East, and India* Robin Higham, 2000 *Air Power History*, 1993 **Journal of the British Interplanetary Society** British Interplanetary Society, 1997
