Vázquez, 2025 In *Decolonial Environmentalisms* David Vázquez provides material strategies for understanding how Latinx environmental thinking over the past three decades interrogates environmental harm and the ways racial capitalism the idea that racism is a structuring logic of capitalism and colonialism are embedded in some forms of mainstream environmentalism Vázquez critiques the ways that dialogues on

environmental degradation have frequently ignored or minimally engaged with Latinx thought and cultural works on these issues. As he points out, and we frequently see now with climate change, environmental damage does not affect everyone equally. He argues that most ecocriticism when it does engage with Latinx work tends to draw from the same few sources again and again and often misreads their intentions. Decolonial Environmentalisms considers multiple genres and forms: novels, films, visual art, and short stories created by authors from multiple ethnic communities: Chicanx, Puerto Rican, Dominican, Cuban, American, Peruvian, and Central American. This approach makes it possible to shape a more nuanced account of how Latinxs from multiple racial, class, gender, sexual, and other identity positions think about and represent environmental ideas. By doing so, he asks, what do Latinx environmental representations do? How do they convey their imaginaries? And especially, how do Latinx authors and artists imagine a more just and equitable material outcome for the characters and situations they depict.

Civil War High Commands John Eicher, David Eicher, 2002-06-01 Based on nearly five decades of research, this magisterial work is a biographical register and analysis of the people who most directly influenced the course of the Civil War: its high commanders. Numbering 3,396, they include the presidents and their cabinet members, state governors, general officers of the Union and Confederate armies, regular, provisional volunteers, and militia, and admirals and commodores of the two navies. *Civil War High Commands* will become a cornerstone reference work on these personalities and the meaning of their commands, and on the Civil War itself. Errors of fact and interpretation concerning the high commanders are legion in the Civil War literature, in reference works as well as in narrative accounts. The present work brings together for the first time in one volume the most reliable facts available, drawn from more than 1,000 sources and including the most recent research. The biographical entries include complete names, birthplaces, important relatives, education, vocations, publications, military grades, wartime assignments, wounds, captures, exchanges, paroles, honors, and place of death and interment. In addition to its main component, the biographies, the volume also includes a number of essays, tables, and synopses designed to clarify previously obscure matters, such as the definition of grades and ranks, the difference between commissions in regular, provisional volunteer, and militia services, the chronology of military laws and executive decisions before, during, and after the war, and the geographical breakdown of command structures. The book is illustrated with 84 new diagrams of all the insignias used throughout the war, and with 129 portraits of the most important high commanders.

Ethics of Spying: A Reader for the Intelligence Professional Jan Goldman, 2023-11-15 The first volume introduced readers to ethics in intelligence operations. Published when the U.S. was conducting operations in the post-9/11 era, this book represents the first collection of articles to seriously study ethics for and about intelligence professionals. The second volume established the codes of conduct that professionals in the private and public sectors would employ that could be separate from those of their private lives. *Ethics of Spying: A Reader for the Intelligence Professional* Volume 3 combines the best articles from the first two volumes. It is reorganized into 5 parts and it contains new articles that expand and explain

further the meaning and dichotomy of a working professional in the intelligence community and the national security and civil liberties they are entrusted with safeguarding New articles include Ethics of Human Intelligence Operations Tension and Strategy Ethics Phobia Tension and Strategy Sources and Bypassing Strategies Just Intelligence Theory Ethics Intelligence and Preemptive and Preventive Actions Speak No Evil Using Private Corporations to Conduct Intelligence Activities for National Security Purposes and Intelligence Research and Scholarship Organizing Crime in Chinatown Jeffrey Scott McIlwain, 2014-10-01 More than a century ago organized criminals were intrinsically involved with the political social and economic life of the Chinese American community In the face of virulent racism and substantial linguistic and cultural differences they also integrated themselves successfully into the extensive underworlds and corrupt urban politics of the Progressive Era United States The process of organizing crime in Chinese American communities can be attributed in part to the larger politics that created opportunities for professional criminals For example the illegal traffic in women laborers and opium was an unintended consequence of yellow peril laws meant to provide social control over Chinese Americans Despite this hostile climate Chinese professional criminals were able to form extensive multiethnic social networks and purchase protection and some semblance of entrepreneurial equality from corrupt politicians police officers and bureaucrats While other Chinese Americans worked diligently to remove racist laws and regulations Chinatown gangsters saw opportunity for profit and power at the expense of their own community Academics the media and the government have claimed that Chinese organized crime is a new and emerging threat to the United States Focusing on events and personalities and drawing on intensive archival research in newspapers police and court documents district attorney papers and municipal reports as well as from contemporary histories and sociological treatments this study tests that claim against the historical record **Bloodsport** Robert Teitelman, 2016-04-05 The epic battle of the fascinating flawed figures behind America's deal culture and their fight over who controls and who benefits from the immense wealth of American corporations Bloodsport is the story of how the mania for corporate deals and mergers all began The riveting tale of how power lawyers Joe Flom and Marty Lipton major Wall Street players Felix Rohatyn and Bruce Wasserstein prominent jurists and shrewd ideologues in academic garb provided the intellectual firepower creativity and energy that drove the corporate elite into a less cozy Hobbesian world With total dollar volume in the trillions the zeal for the deal continues unabated to this day Underpinning this explosion in mergers and acquisitions including hostile takeovers are four questions that radically disrupted corporate ownership in the 1970s whose force remains undiminished Are shareholders the sole owners of corporations and the legitimate source of power Should control be exercised by autonomous CEOs or is their assumption of power illegitimate and inefficient Is the primary purpose of the corporation to generate jobs and create prosperity for the masses and the nation Or is it simply to maximize the wealth of shareholders This battle of ideas became the bloodsport of American business It set in motion the deal making culture that led to the financialization of the economy

and it is the backstory to ongoing debates over competitiveness job losses inequality stratospheric executive pay and who owns America s corporations *Solaris PC Netlink* Don DeVitt,2000 PLEASE PROVIDE COURSE INFORMATION PLEASE PROVIDE **Project Moonlight** Akira Yuzui,2024-04-14 It is 139 470 A C No water is left anymore in the earth it has changed from 3000 A C No humanity no kindness no belief in others no trust and no love is left Humans are now cyborgs and they think that they are immortal Now only 8 humans are left in the entire world One who rules over the whole universe and his two brothers 2 siblings who are actually god one most powerful human and one human who is also a god and has come to bring the end of the universe and to create a new and lovely world Moonlight Beginning **AUUGN** ,1996 *Oracle 11g R1/R2 Real Application Clusters Essentials* Ben Prusinski,Syed Jaffer Hussain,2011-05-23 Annotation Oracle RAC or Real Application Clusters is a grid computing solution that allows multiple nodes servers in a clustered system to mount and open a single database that resides on shared disk storage Should a single system node fail the database service will still be available on the remaining nodes Oracle RAC is an integral part of the Oracle database setup You have one database with multiple users accessing it in real time This book will enable DBAs to get their finger on the pulse of the Oracle 11g RAC environment quickly and easily This book will cover all areas of the Oracle RAC environment and is indispensable if you are an Oracle DBA who is charged with configuring and implementing Oracle11g R1 with bonus R2 information included This book presents a complete method for the configuration installation and design of Oracle 11g RAC ultimately enabling rapid administration of Oracle 11g RAC environments This practical handbook documents how to administer a complex Oracle 11g RAC environment Packed with real world examples expert tips and troubleshooting advice the book begins by introducing the concept of Oracle RAC and High Availability It then dives deep into the world of RAC configuration installation and design enabling you to support complex RAC environments for real world deployments Chapters cover Oracle RAC and High Availability Oracle 11g RAC Architecture Oracle 11g RAC Installation Automatic Storage Management Troubleshooting Workload Management and much more By following the practical examples in this book you will learn every concept of the RAC environment and how to successfully support complex Oracle 11g R1 and R2 RAC environments for various deployments within real world situations This book is the updated release of our previous Oracle 11g R1 R2 Real Application Clusters Handbook If you already own a copy of that Handbook there is no need to upgrade to this book **Madame Restell** Jennifer Wright,2023-02-28 Discover the true story of a self taught surgeon and trailblazing figure in medical history Madame Restell a revolutionary surgeon who fought for women s rights and healthcare in Gilded Age New York An industrious immigrant who built her business from the ground up Madame Restell was a self taught surgeon on the cutting edge of healthcare in pre Gilded Age New York and her bustling boarding house provided birth control abortions and medical assistance to thousands of women rich and poor alike As her practice expanded her notoriety swelled and Restell established her self as a prime target for tabloids threats and lawsuits galore But far from fading into the background she defiantly flaunted her

wealth parading across the city in designer clothes expensive jewelry and bejeweled carriages rubbing her success in the faces of the many politicians publishers fellow physicians and religious figures determined to bring her down Unfortunately for Madame Restell her rise to the top of her field coincided with the greatest scam you ve never heard about the campaign to curtail women s power by restricting their access to both healthcare and careers of their own Powerful secular men threatened by women s burgeoning independence were eager to declare abortion sinful a position endorsed by newly minted male MDs who longed to edge out their feminine competition and turn medicine into a standardized male only practice By unraveling the misogynistic and misleading lies that put women s lives in jeopardy Wright simultaneously restores Restell to her rightful place in history and obliterates the faulty reasoning underlying the very foundation of what has since been dubbed the pro life movement Thought provoking character driven boldly written and feminist as hell Madame Restell is required reading for anyone and everyone who believes that when it comes to women s rights women s bodies and women s history women should have the last word
