

RAILWAY BUILDINGS OF WEST YORKSHIRE 1812–1920

GEORGE SHEERAN

Ryburn

Railway Architecture Of West Yorkshire 18121920

Ian Pickup

Railway Architecture Of West Yorkshire 1812-1920:

The Railway Goods Shed and Warehouse in England John Minnis, 2016-09-15 Although goods traffic accounted in many cases for a higher proportion of railway companies revenue than passengers the buildings associated with it have received very little attention in comparison to their passenger counterparts They once played as important a role in distribution as the big sheds near motorway junctions do today The book shows how the basic design of goods sheds evolved early in the history of railways and how the form of goods sheds reflected the function they performed Although goods sheds largely functioned in the same way there was considerable scope for variety of architectural expression in their external design The book brings out how they varied considerably in size from small timber huts to the massive warehouses seen in major cities It also looks at how many railway companies developed standard designs for these buildings towards the end of the 19th century and at how traditional materials such as timber brick and stone gave way to steel and concrete in the 20th This building type is subject to a high level of threat with development pressure in urban and suburban areas for both car parking and housing having already accounted for the demise of many of these buildings Despite this some 600 have been identified as still extant and the book will for the first time provide a comprehensive gazetteer of the surviving examples

Britain's Lost Railways John Minnis, 2018-08-07 The beautifully restored St Pancras Station is a magisterial example of Britain's finest Victorian architecture Like the viaducts at Belah and Crumlin cathedral like stations such as Nottingham Victoria and spectacular railway hotels like Glasgow St Enoch's it stands proud as testament to Britain's architectural heritage In this stunning book John Minnis reveals Britain's finest railway architecture From the most cavernous engine sheds like Old Oak Common through the eccentric country halts on the Tollesbury line and the gantries of the Liverpool Overhead Railway to the soaring viaducts of Belah and Cumlin Britain's Lost Railways offers a sweeping celebration of our railway heritage The selection of images and the removable facsimile memorabilia including tickets posters timetables and maps allows the reader to step into that past serving as a testimony to an age of ingenuity and ambition when the pride we invested in our railways was reflected in the grandeur of the architecture we built for them *A History of North Eastern Railway Architecture: A mature art* Bill Fawcett, 2001 **Architectural Publications Index**, 1996 *The British National Bibliography* Arthur James Wells, 2002 TLLS, the Times Literary Supplement, 1995 Railway Buildings of West Yorkshire 1812-1920 George Sheeran, 1994-01
