Rainbook Resources For Appropriate Technology:

Getting Loose Sam Binkley, 2007-04-27 Examines the changing character of American consumer culture in the 1960s 70s and late 20th century generally driven by changing forms of identity notably a loosening of the self by which Binkley means to evoke a wide range of identity pr Field Guide to Appropriate Technology Barrett Hazeltine, Christopher Bull, 2003-04-09 Field Guide to Appropriate Technology is an all in one hands on guide for nontechnical and technical people working in less developed communities It has been developed and designed with a prestigious team of authors each of whom has worked extensively in developing societies throughout the world This field guide includes Step by step instructions and illustrations showing how to build and maintain a vast array of appropriate technology systems and devices Unique coverage on healthcare basic business and project management principles of design promotion scheduling training microlending and more Teachers doctors construction workers forest and agricultural specialists scientists and healthcare workers and religious and government representatives will find this book a first source for advice Step by step instructions and illustrations showing how to build and maintain a vast array of appropriate technology systems and devices Unique coverage on healthcare basic business and project management principles of design promotion scheduling training microlending and more Teachers doctors construction workers forest and agricultural specialists scientists and healthcare workers and religious and government representatives will find this book a first source for advice Old-House Journal, 1977-12 Old House Journal is the original magazine devoted to restoring and preserving old houses For more than 35 years our mission has been to help old house owners repair restore update and decorate buildings of every age and architectural style Each issue explores hands on restoration techniques practical architectural guidelines historical overviews and homeowner stories all in a trusted authoritative voice Rainbook, 1977 Appropriate Technology Sourcebook Ken Darrow, Kent Keller, Rick Pam, 1981 **VISTA Currents**, 1979 **Counterculture Green** Andrew G. Kirk, 2007-11-19 For those who eagerly awaited its periodic appearance it was more than a publication it was a way of life The Whole Earth Catalog billed itself as Access to Tools and it grew from a Bay Area blip to a national phenomenon catering to hippies do it yourselfers and anyone interested in self sufficiency independent of mainstream America In recovering the history of the Catalog s unique brand of environmentalism Andrew Kirk recounts how San Francisco s Stewart Brand and his counterculture cohorts in the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement human ingenuity and sustainable living By piecing together the social cultural material environmental and technological history of that philosophy s incarnation in the Catalog Kirk reveals the driving forces behind it tells the story of the appropriate technology movement it espoused and assesses its fate This book takes a fresh look at the many individuals and organizations who worked in the 1950s 1960s and 1970s to construct this philosophy of pragmatic environmentalism At a time when many of these ideas were seen as heretical to a predominantly wilderness based movement Whole Earth became a critical forum

for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way. It also enabled later environmental advocates like Al Gore to explain our current inconvenient truth and the actions of Brand's Point Foundation demonstrated that the epistemology of Whole Earth could be put into action in meaningful ways that might foster an environmental optimism distinctly different from the jeremiads that became the stock in trade of American environmentalism. Kirk shows us that Whole Earth was more than a mere counterculture fad. In an era of political protest it suggested that staying home and modifying your toilet or installing a solar collector could make a more significant contribution than taking to the streets to shout down establishment misdeeds. Given its visible legacy in the current views of Al Gore and others the subtle environmental heresies of Whole Earth continue to resonate today which makes Kirk's lucid and lively tale an extremely timely one as well.

Architecture and Identity Chris Abel, Norman Foster, 2012-10-02. Instead of tuning the consumer to the machine we can now tune the machine to the consumer. This edited collection of essays now in its second edition brings together the author's key writings on the cultural technological and theoretical developments reshaping Modern architecture into a responsive and diverse movement for the twenty first century. Chris Abel approaches his subject from a wide range of knowledge including cybernetics philosophy new human science and development planning as well as his experience as a teacher and critic on four continents. The result is a unique global perspective on the changing nature of Modern architecture at the turn of the millennium. Including two new chapters this revised and expanded second edition offers radical insights into such topics as the impact of information technology on customized architecture production the relations between tradition and innovation prospects for a global eco culture and the local and global forces shaping the architecture and cities of Asia. Chris Abel is an architectural writer and educator based in Malta. He has taught at major universities in the UK North and South America Southeast Asia and the Middle East and is a contributor to numerous international journals and other publications. He currently holds visiting appointments at the University of Malta and the University of the Philippines.

Turn On, Tune In, Drift Off Victor Szabo, 2023. Turn On Tune In Drift Off Ambient Music's Psychedelic Past rethinks the history and socioaesthetics of ambient music as a popular genre with roots in the psychedelic countercultures of the late twentieth century. Victor Szabo reveals how anglophone audio producers and DJs between the mid 1960s and century's end commodified drone and loop based records as ambient audio slow spare spacious audio sold as artful personal media for creating atmosphere fostering contemplation transforming awareness and stilling the body. The book takes a trip through landmark ambient audio productions and related discourses including marketing rhetoric artist manifestos and interviews and music criticism that during this time plotted the conventions of what became known as ambient music. These productions include nature sounds records experimental avant garde pieces space music radio psychedelic and cosmic rock albums electronic dance music compilations and of course explicitly ambient music all of which

popularized ambient audio through vivid atmospheric concepts In paying special attention to the sound of ambient audio to ambient audio s relationship with the psychedelic New Age and rave countercultures of the US and UK and to the coincident evolution of therapeutic audio and head music across alternative media and independent music markets this history resituates ambient music as a hip highbrow framing and stylization of ongoing practices in crafting audio to alter consciousness comportment and mood In so doing Turn On Tune In Drift Off illuminates the social and aesthetic rifts and alliances informing one of today s most popular musical experimentalisms A Companion to American Environmental History Douglas Cazaux Sackman,2010-02-12 A Companion to American Environmental History gatherstogether a comprehensive collection of over 30 essays that examinethe evolving and diverse field of American environmental history Provides a complete historiography of American environmentalhistory Brings the field up to date to reflect the latest trends andencourages new directions for the field Includes the work of path breaking environmental historians from the founders of the field to contributions frominnovative young scholars Takes stock of the discipline through five topically themedparts with essays ranging from American Indian EnvironmentalRelations to Cities and Suburbs **Peace Corps Times** ,1984
