few powerful families and their green saints Millions of people are imprisoned in teeming cities millions more labour on Pharaonic projects to rebuild ruined ecosystems On the moons of Jupiter and Saturn the Outers descendants of refugees from Earth s repressive regimes have constructed a wild variety of self sufficient cities and settlements scientific utopias crammed with exuberant creations of the genetic arts the last outposts of every kind of democratic tradition The fragile detente between the Outer cities and the dynasties of Earth is threatened by the ambitions of the rising generation of Outers who want to break free of their cosy inward looking pocket paradises colonise the rest of the Solar System and drive human evolution in a hundred new directions On Earth many demand pre emptive action against the Outers before it s too late others want to exploit the talents of their scientists and gene wizards Amid campaigns for peace and reconciliation political machinations crude displays of military might and espionage by cunningly wrought agents the two branches of humanity edge towards war

Love, Death and Beyond Helen Ellwood, 2022-10-13 Every reader will be able to relate to this beautifully written memoir Helen was always almost afraid of living knowing that a dark void of oblivion was waiting for her her family and beloved pets in the end Having rejected religion thinking mediums were fraudulent and with no comforting belief system she often felt terrified Everything changed when she watched Beryl the hamster s soul leave its body in a gentle golden mist After that paranormal experiences came thick and fast Was she going crazy was it all nonsense She began to accept a new reality but was now afraid of what others would think of her Gradually undeniable messages came from animal and human spirits even an encounter with angels She had to accept that she d been wrong her whole life and was able to let go of all her fears Even when she collapsed with heart failure she found herself free to face the danger with hope and courage

The Booklist , 1922 The Quiet War Omnibus Paul McAuley, 2017-07-20 THE QUIET WAR Who decides what it means to be human Twenty third century Earth has been ravaged by climate change and is now dominated by a few powerful families with millions of people in prison and millions more labouring to rebuild ruined ecosystems Meanwhile on Jupiter and Saturn live the Outers They have built a wild variety of scientific utopias crammed with exuberant creations of the genetic arts Now they want to colonise Earth and drive human evolution in a new direction On Earth some want to launch a pre emptive strike against the Outers while others wish to exploit the talents of the gene wizards It is clear that the fragile detente between the two branches of humanity is breaking down and they may be heading

towards war GARDENS OF THE SUN The Quiet War is over A century of enlightenment rational utopianism and exploration of new ways of being human has fallen dark But victory is fragile and riven by vicious internal politics While seeking out and trying to anatomise the strange gardens abandoned in place by Avernus the Outers greatest genius the gene wizard Sri Hong Owen is embroiled in the plots and counterplots of the family that employs her The diplomat Loc Ifrahim soon discovers that profiting from victory isn't as easy as he thought And in Greater Brazil the Outers democratic traditions have infected a population eager to escape the tyranny of the great families who rule them After such a conflict only one thing is clear No one can escape the consequences of war especially the victors
