Jazz Griots Jean-Philippe Marcoux, 2012-06-27 This book studies how four representative African American poets of the 1960s Langston Hughes Umbra s David Henderson and the Black Arts Movement s Sonia Sanchez and Amiri Baraka engage in the tradition of griots in poetic dialogues with aesthetics music politics and Black History In so doing they narrate using jazz as meta language genealogies etymologies cultural legacies and Black hi stories In intersecting and complementary ways Hughes Henderson Sanchez and Baraka fashioned their griotism from theorizations of artistry as political engagement and in turn formulated a Black aesthetic based on jazz performativity on a series of jazz infused iterations that form a complex pattern of literary musical historical and political moments in constant cross fertilizing dialogues with one another This form of poetic call and response becomes a definitional literary template for these poets as it allows both the possibility of intergenerational dialogues between poets and musicians and dialogic potential between song and politics between Africa and Black America between vernacular continuums in their poems

Amiri Baraka Jerry Watts, 2001-08-01 Amiri Baraka formerly known as LeRoi Jones became known as one of the most militant anti white black nationalists of the 1960s Black Power movement An advocate of Black Cultural Nationalism Baraka supported the rejection of all things white and western He helped found and direct the influential Black Arts movement which sought to move black writers away from western aesthetic sensibilities and toward a more complete embrace of the black world Except perhaps for James Baldwin no single figure has had more of an impact on black intellectual and artistic life during the last forty years In this groundbreaking and comprehensive study the first to interweave Baraka s art and political activities Jerry Watts takes us from his early immersion in the New York scene through the most dynamic period in the life and work of this controversial figure Watts situates Baraka within the various worlds through which he travelled including Beat Bohemia Marxist Leninism and Black Nationalism In the process he convincingly demonstrates how the 25 years between Baraka s emergence in 1960 and his continued influence in the mid 1980s can also be read as a general commentary on the condition of black intellectuals during the same time Continually using Baraka as the focal point for a broader analysis Watts illustrates the link between Baraka s life and the lives of other black writers trying to realize their artistic ambitions and contrasts him with other key political intellectuals of the time In a chapter sure to prove controversial Watts links Baraka s famous misogyny to an attempt to bury his own homosexual past A work of extraordinary breadth Amira Baraka is a powerful portrait of one man s lifework and the pivotal time it represents in African American history Informed by a wealth of original research it fills a crucial gap in the lively literature on black thought and history and will continue to be a touchstone work for some time to come

We Are an African People Russell Rickford, 2016-01-14 During the height of the Black Power movement of the late 1960s and 1970s dozens of Pan African nationalist private schools from preschools to post secondary ventures appeared in urban settings across the United States The small independent enterprises were often accused of teaching hate and were routinely harassed by authorities Yet these institutions served as critical mechanisms for transmitting black consciousness Founded by activist intellectuals and other radicalized veterans of the civil rights movement the schools strove not simply to bolster the academic skills and self esteem of inner city African American youth but also to decolonize minds and foster a vigorous and regenerative sense of African identity In We Are An African People historian Russell Rickford traces the intellectual lives of these autonomous black institutions established dedicated to pursuing the self determination that the integrationist civil rights movement had failed to provide Influenced by Third World theorists and anticolonial campaigns organizers of the schools saw formal education as a means of creating a vanguard of young activists devoted to the struggle for black political sovereignty throughout the world Most of the institutions were short lived and they offered only modest numbers of children a genuine alternative to substandard inner city public schools Yet their stories reveal much about Pan Africanism as a social and intellectual movement and as a key part of an indigenous black nationalism Rickford uses this largely forgotten movement to explore a particularly fertile period of political cultural and social revitalization that strove to revolutionize African American life and envision an alternate society Reframing the post civil rights era as a period of innovative organizing he depicts the prelude to the modern Afrocentric movement and contributes to

the ongoing conversation about urban educational reform race and identity *Paracritical Hinge* Nathaniel Mackey, 2018-03-15 *Paracritical Hinge* is a collection of varied yet interrelated pieces highlighting Nathaniel Mackey's multifaceted work as writer and critic. It embraces topics ranging from Walt Whitman's interest in phrenology to the marginalization of African American experimental writing from Kamau Brathwaite's calibanistic language practices to Federico García Lorca's flamenco aesthetic of duende and its continuing repercussions from H.D.'s desert measure and coastal way of knowing to the altered spatial disposition of Miles Davis's trumpet sound from Robert Duncan's serial poetics to diasporic syncretism from the lyric poem's present-day predicaments to gnosticism. Offering illuminating commentary on these and other artists including Amiri Baraka, Mississippi Fred McDowell, Wilson Harris, Jack Spicer, John Coltrane, Jay Wright, and Bob Kaufman, *Paracritical Hinge* also sheds light on Mackey's own work as a poet, fiction writer, and editor. **New Day in Babylon** William L. Van Deburg, 1993-09-01 The most comprehensive account available of the rise and fall of the Black Power Movement and of its dramatic transformation of both African American and larger American culture. With a gift for storytelling and an ear for street talk, William Van Deburg chronicles a decade of deep change from the armed struggles of the Black Panther party to the cultural nationalism of artists and writers creating a new aesthetic. Van Deburg contends that although its tactical gains were sometimes short-lived, the Black Power movement did succeed in making a revolution in culture and consciousness that has changed the context of race in America. *New Day in Babylon* is an extremely intelligent synthesis, a densely textured evocation of one of American history's most revolutionary transformations in ethnic group consciousness. Bob Blauner, *New York Times* Winner of the Gustavus Myers Center Outstanding Book Award 1993.

Shaping the Digital Dissertation Virginia Kuhn, Anke Finger, 2021-05-04 This volume is a timely intervention that not only helps demystify the idea of a digital dissertation for students and their advisors but will be broadly applicable to the work of librarians, administrators, and anyone else concerned with the future of graduate study in the humanities and digital scholarly publishing. Roxanne Shirazi, *The City University of New York*. Digital dissertations have been a part of academic research for years now, yet there are still many questions surrounding their processes. Are interactive dissertations significantly different from their paper-based counterparts? What are the effects of digital projects on doctoral education? How does one choose and defend a digital dissertation? This book explores the wider implications of digital scholarship across institutional, geographic, and disciplinary divides. The volume is arranged in two sections: the first, written by senior scholars, addresses conceptual concerns regarding the direction and assessment of digital dissertations in the broader context of doctoral education; the second section consists of case studies by PhD students whose research resulted in a natively digital dissertation that they have successfully defended. These early-career researchers have been selected to represent a range of disciplines and institutions. Despite the profound effect of incorporated digital tools on dissertations, the literature concerning them is limited. This volume aims to provide a fresh, up-to-date view on the digital dissertation, considering the newest technological advances.

It is especially relevant in the European context where digital dissertations mostly in arts based research are more popular. Shaping the Digital Dissertation aims to provide insights, precedents and best practices to graduate students, doctoral advisors, institutional agents and dissertation committees. As digital dissertations have a potential impact on the state of research as a whole, this edited collection will be a useful resource for the wider academic community and anyone interested in the future of doctoral studies.

Amiri Baraka and the Congress of African People M. Simanga, 2015-02-11 This important look at CAP combines historical research and analysis with the author's first hand experience with the organization, providing the first historical narrative of a consequential player in the Black Power Movement.

Waiting 'Til the Midnight Hour Peniel E. Joseph, 2007-07-10 A history of the Black Power movement in the United States traces the origins and evolution of the influential movement and examines the ways in which Black Power redefined racial identity and culture. With the rallying cry of Black Power in 1966, a group of black activists including Stokely Carmichael and Huey P. Newton turned their backs on Martin Luther King's pacifism and building on Malcolm X's legacy, pioneered a radical new approach to the fight for equality. This book is a history of the Black Power movement, that storied group of men and women who would become American icons of the struggle for racial equality. In the book, the author traces the history of the men and women of the movement, many of them famous or infamous, others forgotten. It begins in Harlem in the 1950s where, despite the Cold War's hostile climate, black writers, artists and activists built a new urban militancy that was the movement's earliest incarnation. In a series of character-driven chapters, we witness the rise of Black Power groups such as the Student Nonviolent Coordinating Committee and the Black Panthers, and with them, on both coasts of the country, a fundamental change in the way Americans understood the unfinished business of racial equality and integration. The book invokes the way in which Black Power redefined black identity and culture and in the process redrew the landscape of American race relations.

Afro-American Poetics Houston A. Baker (Jr.), 1988 Baker envisages the mission of black culture since the 1920s as Afro-American spirit work. In the blues, the post-modernist chant poem, the oratory of Malcolm X and the political plays of Amiri Baraka, Baker notes the unfolding creation of a racial epic in which black Americans may discover their place in U.S. society and find their ancestral roots. He analyzes Jean Toomer's stream of consciousness protest novel *Cane*, ponders why apolitical poet Countee Cullen became a voice of the people and pays tribute to critic poet Larry Neal and to Hoyt Fuller, the editor of *Negro Digest* who allied himself with the Black Arts movement. He also traces his own shift from guerrilla theater revolutionary to embattled theoretician. ISBN 0 299 11500 3 22 50 For use only in the library.

Black Nationalism in American Politics and Thought Dean E. Robinson, 2001-09-03 Revisits the arguments supporting separate black statehood from the mid-nineteenth century to the present.

Black World/Negro Digest, 1972-02 Founded in 1943, *Negro Digest* later *Black World* was the publication that launched Johnson Publishing.
