When individuals make decisions, their rationality is limited by the information they have, the cognitive limitations of their minds, and the finite time they have to make a decision.

Reality And Rationality:

Relativism and Reality Robert Kirk, 2012-10-12 Our thoughts about the world are clearly influenced by such things as point of view temperament past experience and culture However some thinkers go much further and argue that everything that exists depends on us arguing that even reality is relative Can we accept such a claim in the face of events such as floods and other natural disasters or events seemingly beyond our control Realists argue that reality is independent of our thinking Relativists disagree arguing that what there is depends on our point of view Which is right Robert Kirk provides a crystal clear account of this debate from the Greek philosophers to Wittgenstein and Rorty Along the way he unpacks some of the more complicated issues surrounding ideas of objectivity subjectivity pragmatism and realism essential for those beginning any study of philosophy

Reality and Evangelical Theology Thomas F. Torrance, 2003-03-03 T F Torrance is widely recognized as one of our most important twentieth century theologians And scholars of Torrance suggest *Reality and Scientific Theology* is one of his most accessible works Torrance's insights on Christian epistemology are remarkably relevant in light of recent discussions on realism and antirealism in philosophy and theology Torrance brilliantly sets forth not naive or even critical realism but rather an evangelical realism knowledge grounded in the revelation of God in Jesus Christ He not only constructively argues the case for an evangelical realism but compares and contrasts theological knowledge with natural scientific knowledge and shows how the Bible can function authoritatively in a fragmented church This edition of *Reality and Evangelical Theology* includes an in depth foreword that contextualizes Torrance's seminal theological work in light of recent debates over postmodern and postcritical hermeneutics to Scripture It will handsomely repay engagement or reengagement by theologians philosophers students and thoughtful pastors

Contact with Reality Esther Lightcap Meek, 2017-05-05 Is knowledge discovered or just invented Can we ever get outside ourselves to know how reality is in itself independent of us Philosophical realism raises the question whether in our knowing we connect with an independent reality or only connect with our own mental constructs Far from being a silly parlor game the question impacts our lives concretely and deeply Modern Western culture has been infected with antirealism and the doubt skepticism subjectivism relativism and atheism that attends it not to mention distrust and arbitrary mis use of reality Premier scientist turned philosopher Michael Polanyi stepped aside from research to offer an innovative account of knowing that takes its cue from how discovery actually happens Polanyi defied the antirealism of the twentieth century sounding a ringing note of hope in his repeated claim that in discovery we know we have made contact with reality because we have a sense of the possibility of indeterminate future manifestations And that sense marks contact with reality because it is the way reality is abundant generous and fraught with as yet unnameable possibilities This book examines that distinctive claim

contrasting it to the wider philosophical discussions regarding realism and antirealism in the recent decades It shows why Polanyi's outlook is superior and why that matters not just to scientific discoverers but to us all *Cultural Reality* Florian Znaniecki, 1919 Heroic Egoism Darin Penzera, 2012-08-17 Heroic Egoism explains the great moral art the sculpting of moral character showing you how to sculpt your soul into the form of greatness The purpose of this book is to provide an ethical training system for creating ideal human beings This book will provide you with a step by step guide on how to practice a rational code of morality in your everyday life When you exercise in the steps of moral training outlined in these pages consistently and sincerely they will produce in you true strength of character *Existentialist Background* William Leon McBride, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's *A Comedy of Errors* Miola's edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play's debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time **Facing Reality** Joseph Grcic, Ph D Joseph Grcic, 2009-10-01 Facing Reality is an introduction to philosophy which examines central issues in philosophy from an interdisciplinary multicultural and applied manner It covers the traditional areas of philosophy such as the nature of knowledge ethics free will the existence of God life after death the nature of science and political philosophy In addition it covers topics usually not found in introductory texts such as obstacles to rationality theories of happiness world religions and the meaning of life Each chapter has a summary questions for review recommended films suggested readings and dilemmas for discussion There are also sections entitled Philosophy in Life where philosophical ideas are applied to current issues and debates **Women, Knowledge, and Reality** Ann Garry, Marilyn Pearsall, 1996 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company Religion, Reality, and a Good Life Eberhard Herrmann, 2004 Do we have access to reality as it is conceptualized by us Against metaphysical realism and postmodern relativism Eberhard Herrmann develops a pragmatic realism It stresses reality as conceptualized reality while at the same time not ruling out objectivity Contents include The Nature of the Enquiry The Philosophical Problem Formulated Religion and Philosophy Philosophy Reasons for and Against Metaphysical Realism Critique of Semantic Realism Pragmatic Realism Realism from an Internal Perspective Religious Metaphysical Realism Religious Metaphysical Anti Realism Religious Statements as Purported Assertions Christian Theism The Character of Religious Utterances Pragmatic Realism The Function of Religion Two Material Definitions of Truth Perspectives on Views of Life The Role of the Emotions in Our Conception of

Personal Reality, Volume 1 Daniel Paksi,2019-05-02 Western civilization was built on the concept of God Today modern science based on the critical method and so called objective facts denies even the existence of our soul There is only matter atoms molecules and DNA sequences There is no freedom there are no well grounded beliefs The decline of Western civilization is not the simple consequence of decadence hedonism and malevolence Modern critical science has liberated us from the old dogmas but failed to establish our freedoms values and beliefs However human knowledge is not objective but personal We are the children of evolution Everybody sees the world from his own personal point of view anchored into his her body We use our billions of years old evolutionary skills and thousands of years old cultural heritage to recognize and acknowledge the personal facts of our reality freedom and most important natural beliefs respect and speak the truth In reality even science itself is based on our personal knowledge Only our false conceptual dichotomies paralyze our thinking God or matter there is a third choice the emergence of life and human persons This is the only way to defend our freedoms and the Christian moral dynamism of free Western societies **Marx, Durkheim, Weber** Ken Morrison,2006-08-11 This Second Edition is a thoroughly revised expanded version of the bestselling student text in classical social theory Author Kenneth Morrison provides an authoritative accessible undergraduate guide to the three pivotal figures in the classical tradition Readable and stimulating the Second Edition of Marx Durkheim Weber Formations of Modern Social Thought explains the key ideas of these thinkers and situates them in their historical and philosophical contexts Reality and Rationality the late Wesley C. Salmon,2005-06-09 This volume of articles most published some new is a follow up to the late Wesley C Salmon s widely read collection Causality And Explanation OUP 1998 It contains both published and unpublished articles and focuses on two related areas of inquiry First is science a rational enterprise Secondly does science yield objective information about our world even the aspects that we cannot observe directly Salmon s own take is that objective knowledge of the world is possible and his work in these articles centers around proving that this can be so Salmon s influential standing in the field ensures that this volume will be of interest to both undergraduates and professional philosophers primarily in the philosophy of science On Faith, Rationality, and the Other in the Late Middle Ages Gergely Tibor Bakos,2011-01-01 On Faith Rationality and the Other in the Late Middle Ages is an investigation of Nicholas of Cusa that seeks a deeper understanding of this important medieval intellectual and his importance for us today One of Gergely Bakos s primary aims in

this study is to understand Nicholas of Cusa's important and underexamined dimensions of his approach to dialogue with Islam. The framework and the methodology that informs this investigation was inspired by the late Professor Jos Decorte (1954-2001), a Flemish philosopher and mediaevalist at the Catholic University of Leuven in Belgium. Bakos carefully exposit his method of approaching medieval thought. Part One and then applies and tests this method in practice. Part Two: The most extensive part of this study offers a sketch of the historical background of Nicholas's dialogue with Islam and investigates what possibilities this approach offers. All of this is placed in dialogue with two other mediaeval approaches to Islam: Thomas Aquinas and Ramon Lull. The final chapters discuss Nicholas of Cusa's project from a perspective offered by his mystical theology. The book culminates in an exploration of the possibilities of Nicholas of Cusa's approach by testing the framework of the study. Finally, the author evaluates the application of his own approach. Part Three: The study ultimately has two purposes: to contribute to a better understanding of Nicholas of Cusa's thought on the one hand and on the other to test a particular methodology and interpretative framework for the understanding of mediaeval culture.

The Problem of Social Reality A. Schutz, 1972-12-31. Le present volume rassemble plusieurs etudes qu'Alfred Schutz avait consacrees a diverses questions qui gravitent autour d'un probleme philosophique majeur: celui de la socialite. La plupart de ces etudes ont ete publiees ailleurs mais elles etaient dispersees et d'un acces parfois difficile. Tel quel, l'ouvrage que nous presentons n'est que la premiere partie d'un ensemble dans lequel l'auteur se proposait de faire reunir par son disciple et ami Maurice Natanson les nombreux essais qu'il avait ecrits depuis son arrivee aux Etats Unis au debut de la demiere guerre. La mort l'empecha de voir realiser ce projet. Il nous semble que la publication successive de cet ensemble dans la fidelite aux indications laissees par l'auteur etait le plus bel hommage que nous pouvions rendre a ce penseur qui fut notre ami et meritait sans nul doute de tenir dans le courant phenomenologique une place de premier plan que faillirent lui refuser les circonstances dramatiques de sa vie jointes a sa trop grande modestie personnelle. Il me faudrait ici parler de l'homme, evoker sa finesse d'esprit, son ironie penetrante, sa serenite et son courage dans l'exil, l'eventail tres vaste de ses preoccupations, le don de jeu, la finesse et de sympathie gracieuse auquel il entreprit a quarante ans d'assimiler avec bonheur une culture nouvelle pour y exceller.
