Clarke,1993-12-17 While the role of the laity in the nationalist awakening is commonly recognized their part in the movement for religious renewal is usually minimized Initiative on the part of the laity has been thought to have existed only outside the church where it remained a troubling and at times insurgent force Clarke revises this picture of the role of the laity in church and community He examines the rich associational life of the laity which ranged from nationalist and fraternal associations independent of the church to devotional and philanthropic associations affiliated with the church Associations both inside and outside the church fostered ethnic consciousness in different but complementary ways that resulted in a cultural consensus based on denominational loyalty Through these associations lay men and women developed an institutional base for the activism and initiative that shaped both their church and their community Clarke demonstrates that lay activists played a pivotal role in transforming the religious life of the community     Consent, Coercion and Limit Arthur P. Monahan,2023-08-21 The concepts of popular consent and limit as applied to the exercise of political authority are fundamental features of parliamentary democracy Both these concepts played a role in medieval political theorizing although the meaning and significance of political consent in this thought has not been well understood In a careful scholarly and readable survey of the major political texts from Augustine to Ockham Arthur Monahan analyses the contribution of medieval thought to the development of these two concepts and to the correlative concept of coercion In addition he deals with the development of these concepts in Roman and canon law and in the practices of the emerging states of France and England and the Italian city states as well as considering works in legal and administrative theory and constitutional documents In each case his interpretations are placed in the wider context of developments in law church and administrative reforms The result is the first complete study of these three crucial terms as used in the Middle Ages as well as an excellent summary of work done in a number of specialized fields over the last twenty five years     Pentecostalism, Catholicism, and the Spirit in the World Stan Chu Ilo,2019-10-17 This volume s essays are an
