Renewal Through Internal Development Esbjörn Segelod, 1995 *Project Cost Overrun* Esbjörn Segelod, 2017-11-23

Cost overrun is common in public and private sector projects. Costs tend to grow, plans fail, and financial problems follow. But how can we approve the right projects if we cannot estimate their true cost? This book, for academics in project management, management accounting, and corporate finance, as well as for managers in the public and private sectors, offers a new way of thinking about the causes and consequences of cost overrun for firms and society. It demonstrates that there is a logic behind cost growth and overrun, identifies projects and situations that are more vulnerable, and examines the effects of increased costs. It further identifies the negative and positive consequences of cost overrun, analyses how and why preconditions for cost overrun differ when the logic governing private firms dominates versus the logic of the political sector, and explains why cost can sometimes be of lesser importance to decision makers.

Strategic Renewal Aybars Tuncdogan, Adam Lindgreen, Henk Volberda, Frans van den Bosch, 2019-03-15

Strategic Renewal is an original research anthology offering insight into a subject area which, although critical for the sustained success of organizations, has received relatively little attention as distinct from the more general phenomenon of strategic change. Firstly, by providing a summary of the literature, this research anthology helps graduate students and new researchers grasp the current state of affairs in the field. Secondly, this research anthology will help update the knowledge base of the existing researchers in the field. By bringing together various studies, the research anthology determines the core concepts of the field and elucidates the key gaps and future research areas. Through contributions building on the knowledge bases of other disciplines, this research anthology develops an interdisciplinary research agenda, giving the reader an in-depth understanding of the mediating, moderating, and antecedent variables concerning strategic renewal. Strategic Renewal aims to provide a state of understanding to the subject, as well as a clear picture of the cross-disciplinary landscape that informs the subject. Thus, this research anthology is essential reading for managers, consultants, and other practitioners, as well as students and scholars of business.
