Renzo Piano Building Workshop Renzo Piano Building Workshop (Genova u.a.), Peter Buchanan, **The Architecture of Full-Scale Mock-Ups** Nick Gelpi, 2020-02-26 The Architecture of Full Scale Mock Ups looks at the theory and contemporary practice of creating full scale architectural mock ups This book serves as an introduction to the various forms of full scale mock ups which occur today To broaden the definition of mock ups Nick Gelpi dives deep into the use of mock ups in seven high profile and global contemporary case studies Instead of the presentation drawings and final building photos the documentation of case studies relies on process photos interviews and moments of tension in the execution of each building With never before published content case studies include buildings from all over the world including the Quincho Tia Coral and Teleton Building Copper House II the Perez Art Museum Miami the Cit de l'Océan et du Surf Museum and more Investigating unique case studies to answer how and when full scale mock ups occur today this book is ideal for professionals and students of architecture studying materials and representation design build and professional practice **Renzo Piano Building Workshop** Peter Buchanan, 1993 On Tour with Renzo Piano Renzo Piano, 2004-12 An intimate tour with Renzo Piano himself around his key buildings **The Architecture of Modern Italy** Terry Kirk, 2005-06-02 Modern Italy may sound like an oxymoron For Western civilization Italian culture represents the classical past and the continuity of canonical tradition while modernity is understood in contrary terms of rupture and rapid innovation Charting the evolution of a culture renowned for its historical past into the 10 modern era challenges our understanding of both the resilience of tradition and the elasticity of modernity We have a tendency when imagining Italy to look to a rather distant and definitely premodern setting The ancient forum medieval cloisters baroque piazzas and papal palaces constitute our ideal itinerary of Italian civilization The Campo of Siena Saint Peter's all of Venice and San Gimignano satisfy us with their seemingly unbroken panoramas onto historical moments untouched by time but elsewhere modern intrusions alter and obstruct the view to the landscapes of our expectations As seasonal tourist or seasoned historian we edit the encroachments time and change have wrought on our image of Italy The learning of history is always a complex task one that in the Italian environment is complicated by the changes wrought everywhere over the past 250 years Culture on the peninsula continues to evolve with characteristic vibrancy Italy is not a museum To think of it as such as a disorganized yet phenomenally rich museum unchanging in its exhibits is to misunderstand the nature of the Italian cultural condition and the writing of history itself Energy Efficient Buildings Dean Hawkes, Wayne Forster, 2002-07-30 At the beginning of the twenty first century the debate on the vulnerability of the global environment has given a new significance to the environmental agenda in architecture Renzo Piano Building Workshop - Volume 3 Peter Buchanan, 1993 Overview of Italian architecture 1937 **Renzo Piano Building Workshop: Complete Works** Peter Buchanan, 2008-09-17 **A Critical History of Contemporary Architecture** Dr Elie G Haddad, Asst Prof David Rifkind, Ms Sarah Deyong, 2014-03-28 This book provides a

comprehensive critical overview of the developments in architecture from 1960 to 2010 The first section provides a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects **Constructions**

Beyeler Werner Blaser,Renzo Piano Building Workshop,1998 The Sound of Architecture Angeliki Sioli,Elisavet Kiourtsoglou,2022-05-18 How sound and its atmospheres transform architecture Acoustic atmospheres can be fleeting elusive or short lived Sometimes they are constant but more often they change from one moment to the next forming distinct

impressions each time we visit certain places Stable or dynamic acoustic atmospheres have a powerful effect on our spatial experience sometimes even more so than architecture itself This book explores the acoustic atmospheres of diverse architectural environments in terms of scale program location or historic period providing an overview of how acoustic atmospheres are created perceived experienced and visualized The contributors explore how sound and its atmospheres transform architecture and space Their essays demonstrate that sound is a tangible element in the design and staging of atmospheres and that it should become a central part of the spatial explorations of architects designers and urban planners The Sound of Architecture will be of interest to architectural historians theorists students and practicing architects who will discover how acoustic atmospheres can be created without complex and specialized engineering It will also be of value to scholars working in the field of history of emotions as it offers evocative descriptions of acoustic atmospheres from diverse cultures and time periods

acciaio 1:1 Michela Toni, 2016-09-22 L'idea del libro quella di pervenire ad elementi critici di riflessione sul progetto e sulla qualità della città a partire dal filo che lega la scelta di un materiale da costruzione con le opere che possono essere realizzate con tale materiale Si scelto l'acciaio perché presenta specificità tali da potere incidere sulla trasformazione della scena urbana in maniera determinante La trama su cui intessuto il tema Torino Nel capoluogo piemontese si possono infatti vedere opere con struttura metallica di rilevante interesse e si può fare esperienza diretta di strategie di progetto sulla città particolarmente illuminanti che possono svilupparsi anche grazie alla realizzazione di tali opere Nello specifico alcuni degli ultimi interventi tengono conto di esigenze di sostenibilità non solo perché risparmiano energia come gli impianti del Museo Egizio o le serre della Torre Intesa Sanpaolo o il fotovoltaico della Nuova Stazione AV ma anche perché stanno cambiando il volto della città e il rapporto delle persone con determinate infrastrutture nuove relazioni tra quartieri rese possibili dalla Nuova Stazione AV servizi crescita culturale al Museo Egizio o al nuovo Museo Nazionale dell'Automobile modi di vivere nello spazio urbano Nel percorso seguito dal libro si ragiona su possibili contraddizioni che si incontrano operando scelte progettuali a diverse scale a partire dalla scelta dei materiali da costruzione specificatamente per l'acciaio che richiede un alto consumo energetico per essere prodotto ma permette di ridurre i tempi di costruzione di realizzare cantieri con minore impatto all'interno del tessuto urbano consolidato ed riciclabile fino a scontrarsi con nodi difficili da sciogliere relativamente a scelte architettoniche e urbane
