## **Reopening The Western Frontier from High Country News:**

**Shaping the Sierra** Timothy P. Duane, 1999 Timothy P Duane documents the impact of rapid population growth on the culture economy and ecology of the Sierra Nevada since the late 1960s He also recommends innovative policies for mitigating the negative effects of future population growth in this spectacular but threatened region as well as throughout the rural West

**The Western Range Revisited** Debra L. Donahue, 1999 Livestock grazing is the most widespread commercial use of federal public lands The image of a herd grazing on Bureau of Land Management or U S Forest Service lands is so traditional that many view this use as central to the history and culture of the West Yet the grazing program costs far more to administer than it generates in revenues and grazing affects all other uses of public lands causing potentially irreversible damage to native wildlife and vegetation The Western Range Revisited proposes a landscape level strategy for conserving native biological diversity on federal rangelands a strategy based chiefly on removing livestock from large tracts of arid BLM lands in ten western states Arizona California Colorado Idaho Nevada New Mexico Oregon Utah Washington Wyoming Drawing from range ecology conservation biology law and economics Debra L Donahue examines the history of federal grazing policy and the current debate on federal multiple use sustained yield policies and changing priorities for our public lands Donahue a lawyer and wildlife biologist uses existing laws and regulations historical documents economic statistics and current scientific thinking to make a strong case for a land management strategy that has been until now unthinkable A groundbreaking interdisciplinary work The Western Range Revisited demonstrates that conserving biodiversity by eliminating or reducing livestock grazing makes economic sense is ecologically expedient and can be achieved under current law

*Fighting Toxics* Barry National Toxics Campaign, 2013-04-16 Fighting Toxics is a step by step guide illustrating how to investigate the toxic hazards that may exist in your community how to determine the risks they pose to your health and how to launch an effective campaign to eliminate them

**When Indians Became Cowboys** Peter Iverson, 1994 Focusing on the northern plains and the Southwest Iverson traces the rise and fall of individual and tribal cattle industries against the backdrop of changing federal Indian policies He describes the Indian Bureau's inability to recognize that most nineteenth century reservations were better suited to ranching than farming Even though allotment and leasing stifled ranching livestock became symbols and ranching a new means of resisting adapting and living for remaining Native

Committee on Energy and Natural Resources,1993     **Western Wildlands** ,1990     *The Poisoned Well* Sierra Club Legal Defense Fund,1989-09 A guide showing concerned citizens how to take on an aggressive role in fighting water pollution     *Utah in the Twentieth Century* Brian Q. Cannon,Jessie L. Embry,2009-06-15 The twentieth century could easily be Utah s most interesting and complex Utah in the Twentieth Century chronicles the social and cultural transitions of the time offering a well rounded perspective on the development and change the Beehive State went through during this period It was an era complicated by the push of economic development and pull of traditional culture demand for natural resources from a fragile and scenic environment questions of who governs and how who gets a vote and who controls what on contested public lands during which outside trade and a tourist economy increasingly challenged and fed an insular society Activists left and right declaimed constitutional liberties while Utah s Native Americans become the last enfranchised in the nation Proud contributions to national wars contrasted with denial of deep dependence on federal money the skepticism of provocative writers boosters eager for growth and reflexive patriotism somehow bonded to ingrained distrust of federal government A valuable resource for students and teachers this work is also fruitful reading for anyone who desires to know more about key themes of Utah s history in the twentieth century     **Watershed Management** Robert J. Naiman,1992 Conceptual separation of humans and natural ecosystems is reflected in the thinking of most natural resource management professions including for estry wildlife management fisheries range management and watershed management Burch 1971 Such thinking can deny the reality of the human element in local regional and global ecosystems Bonnicksen and Lee 1982 Klausner 1971 Vayda 1977 As complex organisms with highly developed cultural abilities to modify their environment humans directly or indirectly affect almost all terrestrial and aquatic ecosystems Bennett 1976 Consequently information for managing watershed ecosystems is incomplete without consideration of human institutions and activities Sociologists have studied the relationships between human societies and the land base or ecosystems on which they depend for over 60 years Field and Burch 1990 These studies are distinguished by 1 a holistic perspective that sees people and their environments as interacting systems 2 flexible approaches that permit either the environment or human society to be treated as the independent variable in analyzing of society environment relations and 3 accumulation of a substantial body of knowledge about how the future welfare of a society is influenced by its uses or misuses of land and water Firey 1990     *Break It Up* Richard Kreitner,2020-08-18 From journalist and historian Richard Kreitner a powerful revisionist account of the most persistent idea in American history these supposedly United States should be broken up Eric Foner The novel and fiery thesis of Break It Up is simple The United States has never lived up to its name and never will The disunionist impulse may have found its greatest expression in the Civil War but as Break It Up shows the seduction of secession wasn t limited to the South or the nineteenth century It was

there at our founding and has never gone away With a scholar's command and a journalist's curiosity Richard Kreitner takes readers on a revolutionary journey through American history revealing the power and persistence of disunion movements in every era and region Each New England town after Plymouth was a secession from another the thirteen colonies viewed their Union as a means to the end of securing independence not an end in itself George Washington feared separatism west of the Alleghenies Aaron Burr schemed to set up a new empire John Quincy Adams brought a Massachusetts town's petition for dissolving the United States to the floor of Congress and abolitionist William Lloyd Garrison denounced the Constitution as a pro slavery pact with the devil From the cold civil war that pits partisans against one another to the modern secession movements in California and Texas the divisions that threaten to tear America apart today have centuries old roots in the earliest days of our Republic Richly researched and persuasively argued *Break It Up* will help readers make fresh sense of our fractured age     Rocky Mountain Environmental Directory ,1992     *The Workbook* ,1990     **The Rough Guide to Southwest USA** Greg Ward,2003 From in depth coverage of ten great national parks to the high rolling pace of Las Vegas and the laid back charm of Santa Fe this new Rough Guide leaves no canyon desert or town unexplored of color maps and photos     Western Public Lands And Environmental Politics Charles Davis,2018-05-04 First Published in 2018 An explanation of changes in US Congress policies that affect the management of rangeland timber energy mineral and wilderness resources in the West of the country The contributors examine policy decisions within the context of political economic and demographic forces     **Wyoming History Journal** ,1990     **Wetland Creation and Restoration** Jon A. Kusler,Mary E. Kentula,1990 This is a preliminary evaluation of the status of the science of wetland creation and restoration in the United States It contains a series of regional reviews Each review summarizes wetland creation and restoration experiences in broadly defined wetland regions e g Pacific coastal wetlands wooded wetlands of the Southeast It also includes a series of theme papers covering a wide range of topics of general application to wetland creation and restoration hydrology management techniques planning     **The Many Faces of New Perspectives** ,1993     *Forthcoming Books* Rose Army,1989-09
