**Medico-Legal Aspects of Reproduction and Parenthood** J.K.

Mason, 2017-07-05 Those involved in family and sexual relationships today face a bewildering variety of medico legal dilemmas These are encountered from as early as the preconception state of the embryo and continue throughout the period of child raising until the status of the mature minor is achieved This book dissects a wide range of legal medical and ethical issues surrounding reproduction and the parental relationship with the resultant child Questions posed in the various sections include what constitutes sexual intercourse what are the implications of contraception and sterilization is the abortion issues dead Is there a right to reproduce and if so how is this applied to the modern methods of assisted reproduction Is surrogate motherhood acceptable or workable The concept of fetal rights is explored and specific attention is given to the management of defective neonates in the light of recent judicial decisions Other chapters look at the parent child relationship in respect of medical treatment and the book concludes with a review of the interfamilial protection of young

children under both the civil and the criminal law Many of the views expressed are novel in that they represent those of a medical doctor exploring the legal field It is neither a conventional book on family law nor one on medical law rather it draws on both to examine a specific area which affects both in a particularly significant way Both statute and case law have been extensively updated since the publication of the first edition      **Human Tissue and Embryos (Draft) Bill** Great Britain: Parliament: Joint Committee on the Human Tissue and Embryos (Draft) Bill,2007-08-08 The draft Bill was published in May 2007 as Command paper Cm 7087 ISBN 9780101708722 Vol 1 of this report is also available ISBN 9780104011348

Family Law Frances Burton,2003-02-15 First published in 2003 Routledge is an imprint of Taylor Francis an informa company      *Human Reproductive Technologies and the Law* Great Britain. Parliament. House of Commons. Science and Technology Committee,2005 Approximately 1% of births in the UK were conceived using IVF At present IVF and embryo research are controlled by the Human Fertilisation and Embryology Authority which was formed by a 1990 Act since then scientific progress has been rapid and the Department of Health has announced a review of that Act This extensive inquiry will inform that review It covers regulation of assisted reproduction problems with HFE Act the operation of the Act provision of infertility services review of the Act legislative and regulatory models It makes recommendations on issues such as choosing the sex of babies the need for a separate review of abortion the regulatory bodies required and a legislative framework that balances the freedom of the individual with the interests of the state so that any intervention has a sound ethical base      *The Oxford Handbook of Law, Regulation and Technology* Roger Brownsword,Eloise Scotford,Karen Yeung,2017-07-24 The variety pace and power of technological innovations that have emerged in the 21st Century have been breathtaking These technological developments which include advances in networked information and communications biotechnology neurotechnology nanotechnology robotics and environmental engineering technology have raised a number of vital and complex questions Although these technologies have the potential to generate positive transformation and help address grand societal challenges the novelty associated with technological innovation has also been accompanied by anxieties about their risks and destabilizing effects Is there a potential harm to human health or the environment What are the ethical implications Do this innovations erode or antagonize values such as human dignity privacy democracy or other norms underpinning existing bodies of law and regulation These technological developments have therefore spawned a nascent but growing body of law and technology scholarship broadly concerned with exploring the legal social and ethical dimensions of technological innovation This handbook collates the many and varied strands of this scholarship focusing broadly across a range of new and emerging technology and a vast array of social and policy sectors through which leading scholars in the field interrogate the interfaces between law emerging technology and regulation Structured in five parts the handbook I establishes the collection of essays within existing scholarship concerned with law and technology as well as regulatory governance II explores the relationship between technology development by focusing on core concepts and values

which technological developments implicate III studies the challenges for law in responding to the emergence of new technologies examining how legal norms doctrine and institutions have been shaped challenged and destabilized by technology and even how technologies have been shaped by legal regimes IV provides a critical exploration of the implications of technological innovation examining the ways in which technological innovation has generated challenges for regulators in the governance of technological development and the implications of employing new technologies as an instrument of regulatory governance V explores various interfaces between law regulatory governance and new technologies across a range of key social domains

### **The Regulation of Cosmetic Procedures** Melanie Latham, Jean

McHale, 2020-04-30 This book examines the legal ethical and regulatory debates surrounding the rise of the cosmetic procedures industry In the past cosmetic procedures were often seen as limited to a small number of wealthy older women Today such procedures have gone mainstream partly facilitated by the rise of non invasive techniques such as the use of Botox and Dermal Fillers While still a business dominated by the female consumer there is also an increasing number of males undertaking cosmetic procedures as social expectations around appearance and ageing are challenged At the same time the rapid expansion of this business and the incoherent diverse approach to its regulation have given rise to concern It has been seen as a Wild West If cosmetic procedures go wrong such procedures give rise to real risks of harm This book examines the historical backdrop current practice and risks associated with cosmetic procedures It discusses the ethical and regulatory challenges for this area It also examines the current legal frameworks concerning people practitioners and products in the UK The book also draws lessons from regulatory approaches in other jurisdictions with particular reference to the United States Brazil and France It then sets out a legal and regulatory framework that might better protect and empower the cosmetic consumer now and in the future The book is likely to be of particular interest to those working in the areas of health and medical law socio legal studies and political science
