Danaro and Fred Mackey had cheered for the club; then you go against them. "Go on, I don't want your support."

Fred and Lou fell between the two groups and therefore had to face this problem of divided allegiance. Doc's position on the corner was so definitely established that no one even considered the possibility of his choosing to bowl for the Community Club against the Nortons.

This was the only match between the two teams that ever took place. The corner boys were satisfied with their victory, and the club did not seek a return match. Tony Cardio objected to the way in which the Nortons had tried to upset the concentration of his team and said it was no fun to bowl against such poor sports. There were, however, clashes with individual members of the club. One night in November, Doc, Frank Boelli, Joe Dodge, and I were bowling when Chick Morelli and Lou Danaro came in together. We agreed to have two three-man teams, and Chick and Doc chose sides. Chick chose Lou and me. The match was fairly even at first, but Doc put his team far ahead with a brilliant third string. Toward the end of this string, Chick was sitting next to Joe Dodge and mumbling to him, "You're aousy, you're aousy. You're a no good bowler."

Representation In Ethnography:

Approaches to Ethnography Colin Jerolmack, Shamus Khan, 2017-10-23 No ethnographer can record and analyze everything that she encounters in the field We must make choices about what to look at and how to look at it which means privileging some aspects of social life while bracketing others Approaches to Ethnography enumerates the key analytic strategies which Jerolmack and Khan call approaches that ethnographers deploy to tame the buzzing confusion of the social world The book identifies eight approaches that typify ethnography which it groups and compares along four axes 1 Micro organizational and macro 2 people and places and mechanisms 3 dispositions and situations and 4 reflexivity Each approach it is shown enables the illumination of a distinct dimension of the social world Every chapter is written by a seasoned ethnographer who enumerates one of the approaches and reflects on how that approach shapes their field site selection observations and analysis Taken as a whole the chapters show how these approaches which operate more like sensitizing devices than theoretical mandates can play a greater role in guiding the kinds of questions that get asked and answered in the field than whether one adopts an inductive or deductive stance toward theory Engaging accessible and often inspiring Approaches to Ethnography offers a practical and novel way to teach evaluate and conceptualize ethnographic research

Representation in Ethnography John Van Maanen, 1995-01-18 Contributing to the self analysis of a discipline that no longer claims to describe cultures objectively nine essays explore the representational challenges facing ethnography from such perspectives as fieldnotes description narrative humor acknowledgements relationships to other forms of writing and presenting ethnographic work in media

The Ethnographic Self Amanda Coffey, 1999-03-10 What are the relationships between the self and fieldwork How do personal emotional and identity issues impact upon working in the field This book argues that ethnographers and others involved in fieldwork should be aware of

how fieldwork research and ethnographic writing construct reproduce and implicate selves relationships and personal identities All too often research methods texts remain relatively silent about the ways in which fieldwork affects us and we affect the field The book attempts to synthesize accounts of the personal experience of ethnography In doing so the author makes sense of the process of fieldwork research as a set of practical intellectual and emotional accomplishments The book is thematically arranged and illustrated with a wide range of empirical material

Representing Ethnography: Writing and representation Paul Atkinson, Sara Delamont, 2008

society PowerPoints to accompany this text are available on an instructor site Doing Visual Ethnography Sarah Pink, 2006-11-15 Those already proficient in ethnographic methods will find *Doing Visual Ethnography* a foray into what should be an increasingly normative terrain and what is certainly a much needed addition to the literature. They will be challenged to simultaneously take on new methodological conceits and their application beyond traditional boundaries. Library Information Science Research Following on from the success of *Doing Visual Ethnography*, this fully revised and updated second edition explores the use and potential of photography, video and hypermedia in ethnographic and social research. It offers a reflexive approach to theoretical, methodological, practical and ethical issues of using these media now that they are increasingly being incorporated into field research. Sarah Pink adopts the viewpoint that visual research methods should be rooted in a critical understanding of local and academic visual cultures, the visual media and technologies being used and the ethical issues they raise. The book demonstrates that these new challenges that shape ethnographic knowledge can be met by understanding the reflexivity and experience through which visual and ethnographic materials are produced and interpreted. New to the Second Edition: General updating of figures, terminology and literature to bring the book up to date with recent innovations in theory, practice and technology. Annotated reading lists added to each chapter to guide the reader to further literature. Completely rewritten chapter on digital technology to ensure the text is in line with the latest developments in technology and methodological thinking. Drawing from her own experiences of using photography, video and hypermedia in research as well as the work of others, the author follows the research process from project design, planning and implementing and practising fieldwork to analysis and representation, suggesting how visual images and technologies can be combined to form an integrated process throughout the different stages of research. The Second Edition of *Doing Visual Ethnography* is an excellent resource for students of sociology, anthropology, cultural studies, media studies and those doing ethnographic and qualitative research. It also provides valuable reading for researchers and postgraduates.

Chiefs, Scribes, and Ethnographers James Howe, 2010-01-01 The Kuna of Panama today, one of the best known indigenous peoples of Latin America, moved over the course of the twentieth century from orality and isolation towards literacy and an active engagement with the nation and the world. Recognizing the fascination their culture has held for many outsiders, Kuna intellectuals and villagers have collaborated actively with foreign anthropologists to counter anti-Indian prejudice with positive accounts of their people, thus becoming the agents as well as subjects of ethnography. One team of chiefs and secretaries, in particular, independently produced a series of historical and cultural texts later published in Sweden that today still constitute the foundation of Kuna ethnography. As a study of the political uses of literacy of western representation and indigenous counter-representation and of the ambivalent inter-cultural dialogue at the heart of ethnography, *Chiefs, Scribes, and Ethnographers* addresses key issues in contemporary anthropology. It is the story of an extended ethnographic encounter, one involving hundreds of active participants on both sides and continuing today. **Postmodern Representations** Richard
