The Emerson Dilemma T. Gregory Garvey, 2001-01-01 This gathering of eleven original essays

with a substantive introduction brings the traditional image of Emerson the Transcendentalist face to face with an emerging image of Emerson the reformer The Emerson Dilemma highlights the conflict between Emerson's philosophical attraction to solitary contemplation and the demands of activism compelled by the logic of his own writings The essays cover Emerson's reform thought and activism from his early career as a Unitarian minister through his reaction to the Civil War In addition to Emerson's antislavery position the collection covers his complex relationship to the early women's rights movement and American Indian removal Individual essays also compare Emerson's reform ethics with those of his wife Lidian Jackson Emerson his aunt Mary Moody Henry David Thoreau John Brown and Margaret Fuller The Emerson who emerges from this volume is one whose Transcendentalism is explicitly politicized thus we see him consciously mediating between the opposing forces of the world he thought and the world in which he lived *Born Losers* Scott A. Sandage, 2006-04-30 This pioneering American cultural history connects everyday attitudes and anxieties about failure to lofty ideals of individualism and salesmanship of self Sandage's storytelling brings to life forgotten individuals who wrestled with The Loser the label and the experience in the days when American capitalism was building a nation of winners *Emerson's Emergence* Mary Kupiec Cayton, 2017-11-01 As the culture of commercial capitalism came to dominate nineteenth century New England it changed people's ideas about how the world functioned the nature of their work their relationships to one another and even the way they conceived of themselves as separate individuals Drawing on the work of the last twenty years in New England social history Mary Cayton argues that Ralph Waldo Emerson's work and career when seen in the context of the momentous changes in the culture and economics of the region reveal many of the tensions and contradictions inherent in the new capitalist social order In exploring the genesis of liberal humanism as a calling in the United States this case study implicitly poses questions about its assumptions its aspirations and its failings Cayton traces the ways in which the social circumstances of Emerson's Boston gave rise to his philosophy of natural organicism his search for an appropriate definition of the intellectual's role within society and his exhortations to individuals to distrust the norms and practices of the mass culture that was emerging She addresses the historical context of Emerson's emergence as a writer and orator and undertakes to describe the Federalism and Unitarianism in which Emerson grew up explaining why he eventually rejected them in favor of romantic transcendentalism Cayton demonstrates how Emerson's thought was affected by the social pressures and ideological constructs that launched the new cultural discourse of individualism A work of intellectual history and American studies this book explores through Emerson's example the ways in which intellectuals both make their cultures and are made by them
