## **Representing Resistance The Media Civil Disobedience And The Global Justice Movement:**

**Representing Resistance** Andy Opel,Donnalyn Pompper,2003-09-30 From the food we eat to the clothes we wear to the values that shape our realities Globalization has affected nearly every aspect of modern life on this planet Contributors to this book suggest that globalization is supplanting Cold War ideology and they critique mainstream news media coverage of civil disobedience They further explore the new activism of social movement groups who use performance and media to appeal directly to the people in promoting their causes fundraising and recruitment *Grounding Global Justice* Eric D. Larson,2023-09-19 Globalization The rise of Trumpism has once again galvanized public debate about this highly charged term This book looks at the last time the concept spurred wide ranging and unruly agitation the late twentieth century In offering a transnational history of the explosive emergence of antiglobalization movements in the United States and Mexico it considers how farmers workers and Indigenous peoples struggled to change the direction of the world economy They did so by grounding their efforts to confront free market economic reforms in frontline struggles for economic and racial justice The story revolves around three popular organizations and their paths allow us to reinterpret some of the crucial moments messages and movements of the era including the Mexican roots of the idea of food sovereignty racism and whiteness at the momentous Battle of Seattle protests outside the 1999 World Trade Organization meetings and the rise of dramatic street demonstrations around the globe **Social Movements and Their Technologies** Stefania Milan,2013-11-06 Now in paperback for the first time Social Movements and their Technologies explores the interplay between social movements and their liberated technologies It analyzes the rise of low power radio stations and radical internet projects emancipatory communication practices as a political subject focusing on the sociological and cultural processes at play It provides an overview of the relationship between social movements and technology and investigates what is behind the communication infrastructure that made possible the main protest events of the past fifteen years In doing so Stefania Milan illustrates how contemporary social movements organize in order to create autonomous alternatives to communication systems and networks and how they contribute to change the way people communicate in daily life as well as try to change communication policy from the grassroots She situates these efforts in a historical context in order to show the origins of contemporary communication activism and its linkages to media reform campaigns and policy advocacy **Shaping the Network Society** Douglas Schuler,Peter Day,2003-01-01 How computer professionals and communities can work together to shape sociotechnical systems that will meet society s challenges Information and computer technologies are used every day by real people with real needs The authors contributing to Shaping the Network Society describe how technology can be used effectively by communities activists and citizens to meet society s challenges In their vision computer professionals are concerned less with bits bytes and algorithms and more with productive partnerships that engage both researchers and community activists These collaborations are producing important sociotechnical work that will affect the future of the

network society Traditionally academic research on real world users of technology has been neglected or even discouraged The authors contributing to this book are working to fill this gap their theoretical and practical discussions illustrate a new orientation research that works with people in their natural social environments uses common language rather than rarefied academic discourse and takes a pragmatic perspective The topics they consider are key to democratization and social change They include human rights in the global billboard society public computing in Toledo Ohio public digital culture in Amsterdam civil networking in the former Yugoslavia information technology and the international public sphere historical archaeologies of community networks technobiographical reflections on the future libraries as information commons and globalization and media democracy as illustrated by Indymedia a global collective of independent media organizations

*Environmental Communication and the Public Sphere* Robert Cox, 2010 *Environmental Communication and the Public Sphere* is the first comprehensive undergraduate textbook in the growing field of environmental communication It takes as its theme the role of communication in influencing the ways in which we perceive the environment as well as what actions we and others take in our relations to the natural world The text blends scholarship and hands on experiences to provide a theory based and coherent description of the concrete communication practices and sites in the debates over environment protection Additional theory and vocabulary are introduced as are case studies and examples for closer examination of the principal sites and practices of environmental communication including forums for public participation advocacy campaigns media coverage of environmental stories risk communication and models of dispute settlement This accessible book Summarizes current scholarship in the area and makes accessible many of the practices of media corporations and advocacy groups that are not readily available in public sources Gives students insight into the practical ways to participate publicly in influencing the decisions of governmental agencies that affect the environment Offers a comprehensible treatment of the complexity and range of issues sites and practices in environmental communication Includes Act Locally exercises which provide opportunities for students to apply their knowledge of the principles of environmental communication

**The Coming Swarm** Molly Sauter, 2014-10-23 What is Hacktivism In *The Coming Swarm* rising star Molly Sauter examines the history development theory and practice of distributed denial of service actions as a tactic of political activism The internet is a vital arena of communication self expression and interpersonal organizing When there is a message to convey words to get out or people to unify many will turn to the internet as a theater for that activity As familiar and widely accepted activist tools petitions fundraisers mass letter writing call in campaigns and others find equivalent practices in the online space is there also room for the tactics of disruption and civil disobedience that are equally familiar from the realm of street marches occupations and sit ins With a historically grounded analysis and a focus on early deployments of activist DDOS as well as modern instances to trace its development over time *The Coming Swarm* uses activist DDOS actions as the foundation of a larger analysis of the practice of disruptive civil disobedience on the internet

**The Routledge Companion to British**

**Media History** Martin Conboy, John Steel, 2014-09-15 The Routledge Companion to British Media History provides a comprehensive exploration of how different media have evolved within social regional and national contexts The 50 chapters in this volume written by an outstanding team of internationally respected scholars bring together current debates and issues within media history in this era of rapid change and also provide students and researchers with an essential collection of comparable media histories The Routledge Companion to British Media History provides an essential guide to key ideas issues concepts and debates in the field Chapter 40 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license <https://www.routledgehandbooks.com/doi/10.4324/9781315756202.ch40>

**Encyclopedia of Social Movement Media** John D. H. Downing, John Derek Hall Downing, 2011 The entries are designed to be relatively brief with clear accessible and current information **Urban Mobilizations and New Media in Contemporary China** Lisheng Dong, Hanspeter Kriesi, 2016-03-09 Popular protests are on the rise in China However since protesters rely on existing channels of participation and on patronage by elite backers the state has been able to stymie attempts to generalize resistance and no large scale political movements have significantly challenged party rule Yet the Chinese state is not monolithic Decentralization has increased the power of local authorities creating space for policy innovations and opening up the political opportunity structure Popular protest in China particularly in urban realm not only benefits from the political fragmentation of the state but also from the political communications revolution The question of how and to what extent the internet can be used for mobilizing popular resistance in China is hotly debated The government virtual social organizations and individual netizens both cooperate and compete with each other on the web New media both increases the scope of the mobilizers and the mobilized thereby creating new social capital and provides the government with new means of social control thereby limiting the political impact of the growing social capital This volume is the first of its kind to assess the ways new media influence the mobilization of popular resistance and its possible effects in China today

**Civic Engagement in Changing Contexts** Kerry J. Kennedy, 2022-01-07 This book addresses contemporary issues on civic and citizenship education challenging not just schools but society as a whole It highlights emerging social influences on civic engagement and democracy in the third decade of the 21st century and analyzes the interaction between these influences and their impact on society It demonstrates that changes are so complex and the challenges so new that an entirely revised agenda is needed for civic and citizenship education The book takes society and the changes occurring within it as the starting point and assesses the implications of these changes for schools

*Network Journalism* Ansgard Heinrich, 2011-04-26 Drawing on current theoretical debates in journalism studies and grounded in empirical research Heinrich here analyzes the interplay between journalistic practice and processes of globalization and digitalization She argues that a new kind of journalism is emerging characterized by an increasingly global flow of news as well as a growing number of news deliverers Within this transformed news sphere the roles of journalistic

outlets change They become nodes arranged in a dense net of information gatherers producers and disseminators The interactive connections among these news providers constitute what Heinrich calls the sphere of network journalism

**Social Media, Politics and the State** Daniel Trottier,Christian Fuchs,2014-07-17 This book is the essential guide for understanding how state power and politics are contested and exercised on social media It brings together contributions by social media scholars who explore the connection of social media with revolutions uprising protests power and counter power hacktivism the state policing and surveillance It shows how collective action and state power are related and conflict as two dialectical sides of social media power and how power and counter power are distributed in this dialectic Theoretically focused and empirically rigorous research considers the two sided contradictory nature of power in relation to social media and politics Chapters cover social media in the context of phenomena such as contemporary revolutions in Egypt and other countries populism 20 anti austerity protests the fascist movement in Greece s crisis Anonymous and police surveillance

*Complexity and Social Movements* Graeme Chesters,Ian Welsh,2006-11-22 Making use of complexity theory concepts from the natural and social sciences this informative book provides a framework for understanding mobilization identity formation and information flows in global social movements

Digital Humanities in Latin America Héctor Fernández L'Hoeste,Juan Carlos Rodríguez,2023-05-02 A hemispheric view of the practice of digital humanities in the Spanish and Portuguese speaking Americas As digital media and technologies transform the study of the humanities around the world this volume provides the first hemispheric view of the practice of digital humanities in the Spanish and Portuguese speaking Americas These essays examine how participation and research in new media have helped configure identities and collectivities in the region Featuring case studies from throughout Latin America including the United States Latinx community contributors analyze documentary films television series and social media to show how digital technologies create hybrid virtual spaces and facilitate connections across borders They investigate how Latinx bloggers and online activists navigate governmental restrictions in order to connect with the global online community These essays also incorporate perspectives of race gender and class that challenge the assumption that technology is a democratizing force Digital Humanities in Latin America illuminates the cultural political and social implications of the ways Latinx communities engage with new technologies In doing so it connects digital humanities research taking place in Latin America with that of the Anglophone world Contributors Paul Alonso Morgan Ames Eduard Arriaga Anita Say Chan Ricardo Dominguez Orlando Luis Pardo Lazo Héctor Fernández L'Hoeste Jennifer M Lozano Ana Lúcia Silva Medeiros Gimena del Río Riande Juan Carlos Rodríguez Isabel Galina Russell Angharad Valdivia Anastasia Valecce Cristina Venegas A volume in the series Reframing Media Technology and Culture in Latin America edited by Héctor Fernández L'Hoeste and Juan Carlos Rodríguez

Democracy, Participation and Contestation Emmanuelle Avril,Johann N Neem,2014-08-07 The establishment of democracy on both sides of the Atlantic has not been a smooth evolution towards an idealized presumed endpoint Far from it democratization has

been marked by setbacks and victories a process often referred to as contested democracy In view of recent mobilizations such as the Arab Spring and the Occupy movement in which new technologies have played a key role there is a need for a renewed analysis of the long term evolution of US and UK political systems Using new areas of research this book argues that the ideals and the practices of Anglo American democracy can be best understood by studying diverse forms of participation which go beyond classical expressions of contestation and dissent such as voting The authors analyze political parties social movements communications and social media governance cultural diversity identity politics public private actors and social cohesion to illustrate how the structure and context of popular participation play a significant role in whether and when citizens efforts have any meaningful impact on those who exercise political power In doing so the authors take crucial steps towards understanding how a vigorous public sphere and popular sovereignty can be made to work in today s global environment This book will be of interest to students and scholars of political science British and US history democracy political participation governance social movements and politics

### **Theorizing Surveillance** David

Lyon,2006-08-01 This book is about explaining surveillance processes and practises in contemporary society Surveillance studies is a relatively new multi disciplinary enterprise the aims to understand who watches who how the watched participate in and sometimes question their surveillance why surveillance occurs and with what effects This book brings together some of the world s leading surveillance scholars to discuss the why question The field has been dominated since the groundbreaking work of Michel Foucault by the idea of panopticon and this book explores why this metaphor has been central in discussions of surveillance what is fruitful in the panoptic approach and what are the possible approaches can throw better light on the phenomena in question Since the advent of networked computer databases and especially since 9 11 questions of surveillance have come increasingly to the forefront of democratic political and policy debates in the global north and to an extent in the global South Civil liberties democratic participation and privacy are some of the issues that are raised by these developments But little progress can be made in responding to these issues without an adequate understanding of how how well and whether or not surveillance works This book explores the theoretical questions in a way that is grounded in and attuned to empirical realities

### *Transgression as a Mode of Resistance* Christina R.

Foust,2010-06-22 Since industrialization two major theoretical perspectives have accompanied the vibrant practice of social change The first hegemony emerged as a less deterministic route to revolution from Marxist theory and forms the common sense of social movement today Within hegemonic resistance rhetoric links issues ideas and identities to form a recognizable collective agent whose aim is to transform the status quo into its vision of the world The second major mode of resistance transgression grows from anarchist and autonomous resistance to capitalism Transgression attempts to free individuals uniqueness and creative power by deconstructing authority and explicating the body in resistance Transgression as a Mode of Resistance Rethinking Social Movement in an Era of Corporate Globalization provides the conceptual mapping for scholars

students and practitioners to participate in the growing debate between these rich and powerful forces of social change Through a broad perspective on philosophy and history Christina R Foust demonstrates that hegemony and transgression are sometimes conflicting oftentimes inter related practices She responds to critics who believe that without a social change agent resistance appears baseless and na ve without a representational economy to cohere and express common interests social movement is impossible Through alternative social relationships and political performances transgressive resisters may reinvent daily life

**The Empire of Mind** Michael Strangelove, 2005-12-15 Where many critics see the Internet as an instrument of corporate hegemony Michael Strangelove sees something else an alternative space inhabited by communities dedicated to anarchic freedom culture jamming alternative journalism and resistance to authoritarian forms of consumer capitalism and globalization In *The Empire of Mind* Dr Strangelove the scholar Canadian Business referred to as the acknowledged dean of Internet entrepreneurs and *Wired* called the Canadian guru of Internet advertising presents the compelling argument that the Internet and new digital communication technology actually undermine the power of capital producing an alternative symbolic economy Strangelove contends that the Internet breaks with the capitalist logic of commodification and that while television produces a passive consumer audience Internet audiences are more active creative and subversive Writers activists and artists on the Internet undermine commercial media and its management of consumer behaviour a behaviour that is challenged by the Web s tendency toward the disintegration of intellectual property rights Case studies describe the invention of new meaning given to cultural and consumer icons like Barbie and McDonald s and explore how novel modes of online news production alter the representation of the world as it is produced by the mainstream corporate press In the course of exploring new media *The Empire of Mind* also makes apparent that digital piracy will not be eliminated The Internet community effectively converts private property into public thereby presenting serious obstacles for the management of consumer behaviour and significantly eroding brand value Much to the dismay of the corporate sector online communities are disinterested in the ethics of private property In fact the entire philosophical framework on which capitalism is based is threatened by these alternative means of cultural production

*Citizens' Media Against Armed Conflict* Clemencia Rodríguez, Citizens media countering armed conflict and rebuilding community in Colombia
