**The Oxford History of Life Writing: Volume 2. Early Modern** Alan Stewart,2018-05-04 The Oxford History of Life Writing Volume2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways While classical and medieval models continued to exercise considerable influence new forms began to challenge them The English Reformation banished the saints lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption The volume doesn t intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography Instead it portrays early modern England as a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it mean to write a life

Ovidian Bibliofictions and the Tudor Book Dr Lindsay Ann Reid,2014-08-28 Ovidian Bibliofictions and the Tudor Book examines the historical and the fictionalized reception of Ovid s poetry in the literature and books of Tudor England It does so through the study of a particular set of Ovidian narratives namely those concerning the protean heroines of the Heroides and Metamorphoses In the late medieval and Renaissance eras Ovid s poetry stimulated the vernacular imaginations of authors ranging from Geoffrey Chaucer and John Gower to Isabella Whitney William Shakespeare and Michael Drayton Ovid s English prot g s replicated and expanded upon the Roman poet s distinctive and frequently remarked bookishness in their own adaptations of his works Focusing on the postclassical discourses that Ovid s poetry stimulated Ovidian Bibliofictions and the Tudor Book engages with vibrant current debates about the book as material object as it explores the Ovidian inspired mythologies and bibliographical aetiologies that informed the sixteenth century creation reproduction and representation of books Further author Lindsay Ann Reid s discussions of Ovidianism provide alternative models for thinking about the dynamics of reception adaptation and imitatio While there is a sizeable body of published work on Ovid and Chaucer as well as on the ubiquitous Ovidianism of the 1590s there has been comparatively little scholarship on Ovid s reception between these two eras Ovidian Bibliofictions and the Tudor Book begins to fill this gap between the ages of Chaucer and Shakespeare by dedicating attention to the literature of the early Tudor era In so doing this book also contributes to current discussions surrounding medieval Renaissance periodization

**Mary Wroth and Shakespeare** Paul Salzman,Marion Wynne-Davies,2014-10-10 Over the last twenty five years scholarship on Early Modern women writers has produced editions and criticisms both on various groups and individual authors The work on Mary Wroth has been particularly impressive at integrating her poetry prose and drama into the canon This in turn has led to comparative studies that link Wroth to a number of male and female writers including of course William Shakespeare At the same time no single volume has attempted a comprehensive comparative analysis This book sets out to explore the ways in which Wroth negotiated the discourses that are embedded in the Shakespearean canon in order to develop an understanding of her oeuvre based not on influence and imitation but on difference originality and innovation

**Redefining Female Religious Life** Laurence Lux-Sterritt,2019-06-04 This short study offers a contribution to the flourishing debate on post Reformation female piety In an effort to avoid excessive polarization condemning conventual life as restrictive or hailing it as a privileged path towards spiritual perfection it analyses the reasons which led early modern women to found new congregations with active vocations Were these novel communities born out of their founders rejection of the conventual model Through the comparative analysis of two congregations which became in seventeenth century France and England the embodiment of women s efforts to become actively involved in the Catholic Reformation this book offers a nuanced interpretation of female religious life and particularly of the relationship between cloistered tradition and apostolic vocations Despite the differences in their national political and religious backgrounds both the French Ursulines and the Institute of English Ladies shared the same aim to revitalise the links between the Catholic faith and the people reaching out of the cloister and into the world by educating girls who would later become wives and mothers This study suggests that these pioneering Catholic women though in breach of Tridentine decrees did not turn their backs on contemplative piety although both the French Ursulines and the English Ladies undertook work which had hitherto been the preserve religious men they were motivated by their desire to help the Church rather than by a wish to liberate women from what eighteenth century writers later perceived as the shackles of conventual obedience It is argued that the founders of new uncloistered congregations were embracing vocations which they construed as personals sacrifices they followed the arduous path mixed life in an act of self abnegation and chose apostolic work as their early modern reinterpretation of medieval asceticism

**Royalist Women Writers, 1650-1689** Hero Chalmers, 2004-10-14 Royalist Women Writers aims to put women back on the map of seventeenth century royalist literature from which they have habitually been marginalised Looking in detail at the work of Margaret Cavendish Katherine Philips and Aphra Behn it argues that their writings inaugurate a more assertive model of the Englishwoman as literary author which is crucially enabled by their royalist affiliations Chalmers reveals new political sub texts in the three writers work and shows how these inflect their representations of gender In this way both their texts and manner of presenting themselves as authors emerges as freshly pertinent to their male and female royalist contemporaries for whom supporting them could be an act of political self definition

**The Oxford Handbook of Early Modern English Literature and Religion** Andrew Hiscock, Helen Wilcox, 2017-06-22 This pioneering Handbook offers a comprehensive consideration of the dynamic relationship between English literature and religion in the early modern period The sixteenth and seventeenth centuries were the most turbulent times in the history of the British church and perhaps as a result produced some of the greatest devotional poetry sermons polemics and epics of literature in English The early modern interaction of rhetoric and faith is addressed in thirty nine chapters of original research divided into five sections The first analyses the changes within the church from the Reformation to the establishment of the Church of England the phenomenon of puritanism and the rise of non conformity The second section discusses ten genres in which faith was explored including poetry prophecy drama sermons satire and autobiographical writings The middle section focuses on selected individual authors among them Thomas More Christopher Marlowe John Donne Lucy Hutchinson and John Milton Since authors never write in isolation the fourth section examines a range of communities in which writers interpreted their faith lay and religious households sectarian groups including the Quakers clusters of religious exiles Jewish and Islamic communities and those who settled in the new world Finally the fifth section considers some key topics and debates in early modern religious literature ranging from ideas

of authority and the relationship of body and soul to death judgment and eternity The Handbook is framed by a succinct introduction a chronology of religious and literary landmarks a guide for new researchers in this field and a full bibliography of primary and secondary texts relating to early modern English literature and religion     *Devil Theatre* Jan Frans van Dijkhuizen, 2007 The so called Devil Theatre is here set against its context of non dramatic texts on possession and exorcism providing many new insights Representations of demonic possession and exorcism rituals abound in English Renaissance drama an area which this book seeks to illuminate by comparison with non dramatic works The author investigates stage images of possession in relation to a range of early modern demonological theological and medical prose texts on the subject looking specifically at how the theatre responded to these texts He argues that the stage appropriated debates over demonic possession to explore the competing roles of the inner life and the body in early modern definitions of selfhood The theatre also employed the contemporary controversy over possession and exorcism to investigate the politics of religion and to consider the nature of monarchic power Moreover because demonic possession cases and exorcism rituals were frequently dismissed by conformist writers as a piece of theatre they offered an opportunity to reflect on the nature of drama and role playing JAN FRANS VAN DIJKHUIZEN is lecturer and research fellow at the University of Leiden
