exploration of historical accuracy to reveal the films underlying ideological aims As such it makes a distinctive new contribution to the growing body of interdisciplinary work on the British monarchy in general and its cinematic representations in particular It is the first monograph about representational mechanisms of royal identities and British past s in royal films such as Elizabeth The Queen and The King s Speech

Representing the New World J. Hart, 2001-09-15 *Representing the New World* argues for the importance of Spain in the New World as an example of France and England in their efforts to establish colonies and suggests that this example was ambivalent and contradictory as well as surprisingly persistent in the representations of Spain in French and English texts concerning the Americas

Constructing Rhetorical Education Davida Charney, Wilma R. Ebbitt, 1992 In nineteen essays illustrating its many aspects this book offers an argument for what it takes to construct a complete rhetorical education The editors take an approach that is pragmatic and pluralistic based as it is on the assumptions that a rhetorical education is not limited to teaching freshman composition or any specific writing course and that the contexts in which such an education occurs are not limited to classrooms This thought provoking volume stresses that while a rhetorical education results in the growth of writing skills its larger goal is to foster critical thinking

Drama and the Market in the Age of Shakespeare Douglas Bruster, 2005-01-27 Douglas Bruster's provocative study of English Renaissance drama explores its links with Elizabethan and Jacobean economy and society looking at the status of playwrights such as Shakespeare and the establishment of commercial theatres He identifies in the drama a materialist vision which has its origins in the climate of uncertainty engendered by the rapidly expanding economy of London His examples range from the economic importance of cuckoldry to the role of stage props as commodities and the commercial significance of the Troy story in Shakespeare's *Troilus and Cressida* and he offers new ways of reading English Renaissance drama by returning the theatre and the plays performed there to its basis in the material world

Rethinking the university Simon Wortham, 2018-09-30 *Rethinking the university* explores and develops key critical debates in the humanities concerning for example postmodernism New Historicism political criticism cultural studies interdisciplinarity and deconstruction in the context of the various crises widely felt to be facing academic institutions The analysis of the characteristic features of today's university is guided by a close reading of Derrida's work on the question of the academic institution particularly with regard to the motifs of leverage and disorientation This important topic has been the subject of heated debate in recent years and *Rethinking the university* offers clear and concise summaries of current work in the field as well as exploring original and challenging lines of enquiry on a number of issues of contemporary concern In particular Wortham argues that while Derrida's image of a university walking on two feet presents us with a potentially paralysing problem nevertheless it also enables a strong affirmation of the

possibilities of academic life work and effort

Printing and Parenting in Early Modern England Douglas A.

Brooks, 2017-05-15 The relation between procreation and authorship between reproduction and publication has a long history indeed that relationship may well be the very foundation of history itself The essays in this volume bring into focus a remarkably important and complex phase of this long history In this volume some of the most renowned scholars in the field persuasively demonstrate that during the early modern period the awkward incomplete transition from manuscript to print brought on by the invention of the printing press temporarily exposed and disturbed the epistemic foundations of English culture As a result of this cultural upheaval the discursive field of parenting was profoundly transformed Through an examination of the literature of the period this volume illuminates how many important conceptual systems related to gender sexuality human reproduction legitimacy maternity kinship paternity dynasty inheritance and patriarchal authority came to be grounded in a range of anxieties and concerns directly linked to an emergent publishing industry and book trade In exploring a wide spectrum of historical and cultural artifacts produced during the convergence of human and mechanical reproduction of parenting and printing these essays necessarily bring together two of the most vital critical paradigms available to scholars today gender studies and the history of the book Not only does this rare interdisciplinary coupling generate fresh and exciting insights into the literary and cultural production of the early modern period but it also greatly enriches the two critical paradigms themselves

Conquest and Union Steven G. Ellis, Sarah Barber, 2014-06-06

The British Isles is a multi national arena but its history has traditionally been studied from a distinctively English often indeed London perspective Now however the interweaving of the distinct but mutually dependent histories of the four nations is at the heart of some of the liveliest historical research today In this major contribution to that research eleven leading scholars consider key aspects of the internal relations of England Scotland Ireland and Wales in the early modern period and the problems of accommodating different and resistant cultures to a single centralizing polity The contributors are Sarah Barber Toby Barnard Ciaran Brady Keith M Brown Jane Dawson Steven G Ellis David Hayton Philip Jenkins Alan Macinnes Michael Mac Craith and John Morrill

Witchcraft in Early Modern Europe Jonathan Barry, Marianne Hester, Gareth

Roberts, 1996 This important collection brings together both established figures and new researchers to offer fresh perspectives on the ever controversial subject of the history of witchcraft Using Keith Thomas's *Religion and the Decline of Magic* as a starting point the contributors explore the changes of the last twenty five years in the understanding of early modern witchcraft and suggest new approaches especially concerning the cultural dimensions of the subject Witchcraft cases must be understood as power struggles over gender and ideology as well as social relationships with a crucial role played by alternative representations Witchcraft was always a contested idea never fully established in early modern culture but much harder to dislodge than has usually been assumed The essays are European in scope with examples from Germany France and the Spanish expansion into the New World as well as a strong core of English material

Imaginary Betrayals Karen

Cunningham,2013-05-29 In 1352 King Edward III had expanded the legal definition of treason to include the act of imagining the death of the king opening up the category of constructive treason in which even a subject's thoughts might become the basis for prosecution By the sixteenth century treason was perceived as an increasingly serious threat and policed with a new urgency Referring to the extensive early modern literature on the subject of treason *Imaginary Betrayals* reveals how and to what extent ideas of proof and grounds for conviction were subject to prosecutorial construction during the Tudor period Karen Cunningham looks at contemporary records of three prominent cases in order to demonstrate the degree to which the imagination was used to prove treason the 1542 attainder of Katherine Howard fifth wife of Henry VIII charged with having had sexual relations with two men before her marriage the 1586 case of Anthony Babington and twelve confederates accused of plotting with the Spanish to invade England and assassinate Elizabeth and the prosecution in the same year of Mary Queen of Scots indicted for conspiring with Babington to engineer her own accession to the throne Linking the inventiveness of the accusations and decisions in these cases to the production of contemporary playtexts by Udall Shakespeare Marlowe and Kyd *Imaginary Betrayals* demonstrates how the emerging flexible discourses of treason participate in defining both individual subjectivity and the legitimate Tudor state Concerned with competing representations of self and nationhood *Imaginary Betrayals* explores the implications of legal and literary representations in which female sexuality male friendship or private letters are converted into the signs of treacherous imaginations

Outlaw Rhetoric Jenny C. Mann,2012-02-17 A central feature of English Renaissance humanism was its reverence for classical Latin as the one true form of eloquent expression Yet sixteenth century writers increasingly came to believe that England needed an equally distinguished vernacular language to serve its burgeoning national community Thus one of the main cultural projects of Renaissance rhetoricians was that of producing a common vernacular eloquence mindful of its classical origins yet self consciously English in character The process of vernacularization began during Henry VIII's reign and continued with fits and starts late into the seventeenth century However as Jenny C Mann shows in *Outlaw Rhetoric* this project was beset with problems and conflicts from the start *Outlaw Rhetoric* examines the substantial and largely unexplored archive of vernacular rhetorical guides produced in England between 1500 and 1700 Writers of these guides drew on classical training as they translated Greek and Latin figures of speech into an everyday English that could serve the ends of literary and national invention In the process however they confronted aspects of rhetoric that run counter to its civilizing impulse For instance Mann finds repeated references to Robin Hood indicating an ongoing concern that vernacular rhetoric is outlaw to the classical tradition because it is common popular and ephemeral As this book shows however such allusions hint at a growing acceptance of the nonclassical along with a new esteem for literary production that can be identified as native to England Working across a range of genres Mann demonstrates the effects of this tension between classical rhetoric and English outlawry in works by Spenser Shakespeare Sidney Jonson and Cavendish In so doing she reveals the political stakes of the vernacular rhetorical project in the age of
