Susan E. Cook

Reproductive Urges Popular Novel Reading Sexuality And The English Nation New Cultural Studies:

Reproductive Urges Anita Levy, 1999-07-08 *Reproductive Urges* challenges traditional and Marxist accounts of the oppositional relationship between production and reproduction by focusing on reproduction as one of the most widely used and highly contested concepts in modern culture. Although it appears to refer only to the most obvious of biological facts, Anita Levy contends that reproduction includes a diverse field of cultural and social practices. Levy looks to the writings of Charlotte Lennox, Jane Austen, Charlotte Brontë, Charles Dickens, Bram Stoker, and Oscar Wilde among others to explain both conceptual changes in notions of reproduction and the acute anxiety about controlling it still dominant in contemporary debates concerning the individual, the family, and sexuality.

Problem Novels Anna Maria Jones, 2007 In *Problem Novels*, Anna Maria Jones argues that far from participating invisibly in disciplinary regimes, many Victorian novels articulate sophisticated theories about the role of the novel in the formation of the self. In fact, it is rare to find a Victorian novel in which questions about the danger or utility of novel reading are not embedded within the narrative. In other words, one of the stories that the Victorian novel tells over and over again is the story of what novels do to readers. This story occurs in moments that call attention to the reader's engagement with the text. In chapters on Wilkie Collins, Anthony Trollope, and George Meredith, Jones examines problem novels that is, novels that both narrate and invite problematic reading as part of their theorizing of cultural production. *Problem Novels* demonstrates that these works posit a culturally embedded, sensorially susceptible reader and at the same time present a methodology for critical engagement with cultural texts. Thus, the novels theorize paradoxically a reader who is both unconsciously interpellated and critically empowered. And Jones argues it is this paradoxical construction of the unconscious critical subject that re-emerges in the theoretical paradigms of Victorian cultural studies scholarship. Indeed, as *Problem Novels* shows, Victorianists' attachments to critical detective work closely resemble the sensational attachments that we assume shaped Victorian novel readers.

BOOK JACKET

Dickens, Sexuality and Gender Lillian Nayder, 2017-03-02 This volume of essays examines Dickens's complex representations of sexuality and gender as well as his use of gender ideologies and sexual and gender differences over the course of his literary career, from his first sketches and early novels to his late works of fiction. The essays approach gender issues in Dickens's writing by focusing on a number of topics: his treatment of gender ideals and transgressions, the intersections and displacements among gender, class, and race, the ties between gender and the body, and among gender, voice, and language, his depiction of the homosocial and the homoerotic, and the relation between gender and the law. The essays provide an introduction to the most recent approaches to Dickens's fiction, in addition to those now considered classic, draw on queer theory, and also feature a variety of methodologies ranging across feminist, historicist, and psychoanalytic methods of interpretation. The collection represents the best of previously published research by Dickens's scholars and illuminates for students and scholars alike the meaning of gender in such novels as *The Pickwick Papers*, *Dombey and Son*, and *Our Mutual*.

Friend Irishness and Womanhood in Nineteenth-century British Writing Thomas J. Tracy, 2009 Using Lady Morgan's *The Wild Irish Girl* as his point of departure Thomas J. Tracy argues that nineteenth century debates over what constitutes British national identity often revolved around representations of Irishness especially Irish womanhood He maps the genealogy of this development in fiction political discourse and the popular press from Edgeworth's *Castle Rackrent* through Trollope's Irish novels focusing on the pivotal period from 1806 through the 1870s **Inventing Maternity** Susan C. Greenfield, Carol Barash, 2021-10-21 Not until the eighteenth century was the image of the tender full time mother invented This image retains its power today *Inventing Maternity* demonstrates that despite its association with an increasingly standardized set of values motherhood remained contested terrain Drawing on feminist cultural and postcolonial theory *Inventing Maternity* surveys a wide range of sources medical texts political tracts religious doctrine poems novels slave narratives conduct books and cookbooks The first half of the volume covering the mid seventeenth to the late eighteenth centuries considers central debates about fetal development pregnancy breastfeeding and childbearing The second half covering the late eighteenth to the mid nineteenth centuries charts a historical shift to the regulation of reproduction as maternity is increasingly associated with infanticide population control poverty and colonial national and racial instability In her introduction Greenfield provides a historical overview of early modern interpretations of maternity She concludes with a consideration of their impact on current debates about reproductive rights and technologies child custody and the cycles of poverty Novel Professions Jennifer Ruth, 2006 **Victorian Negatives** Susan E. Cook, 2019-07-01 *Victorian Negatives* examines the intersection between Victorian photography and literary culture and argues that the development of the photographic negative played an instrumental role in their confluence The negative is a technology that facilitates photographic reproduction by way of image inversion and Susan E. Cook argues that this particular photographic technology influenced the British realist novel and literary celebrity culture as authors grappled with the technology of inversion and reproduction in their lives and works The book analyzes literary works by Charles Dickens Arthur Conan Doyle E. W. Hornung Cyril Bennett Robert Louis Stevenson Oscar Wilde Thomas Hardy and Bram Stoker and puts readings of those works into conversations with distinct photographic forms including the daguerreotype solarization forensic photography common cabinet cards double exposures and postmortem portraiture In addition to literary texts the book analyzes photographic discourses from letters and public writings of photographers and the nineteenth century press as well as discussions and debates surrounding Victorian celebrity authorship The book's focus on the negative both illuminates an oft marginalized part of the history of photography and demonstrates the way in which this history is central to Victorian literary culture *Nineteenth-century Literature*, 1999 Contains articles which focus on a broad spectrum of significant figures in fiction philosophy and criticism such as Austen Carlyle Dickens Thackeray the Brontës Tennyson Browning Arnold Emerson Hawthorne Thoreau Whitman Twain and Henry James **Reading in History** Bonnie Gunzenhauser, 2015-10-06 A collection of essays that offer a methodological

framework for the history of reading Focusing on a specific historical moment it gathers statistics about such issues as literacy rates library subscriptions publication and sales figures and print runs to answer questions about what was being read and by whom in a particular place and time Dracula Scholar's Annotated Edition. actively and importantly in what we have come to look back on as the history of the nineteenth century novel Theater Figures thus offers a new model for thinking about how theater helped produce changes in the nineteenth century literary market While previous critics have considered theater as an enabling foil for the novel either a constitutive opposite or constructively Allen demonstrates how theater figures and tropes were used to negotiate competition among the novels and novelists eagerly seeking their share of the literary limelight
