Research Advances In Alcohol And Drug Problems Vol:

Research Advances in Alcohol and Drug Problems Reginald G. Smart, Howard D. Cappell, Frederick B Glaser, Yedy Israel, Harold Kalant, Robert E. Popham, Wolfgang Schmidt, Edward M. Sellers, 2013-03-13 This volume is the eighth in the Research Advances Series and the fifth published by Plenum Press The purpose of the series is to review new work in rapidly changing fields We do not expect reviews to cover the whole field of work on alcoholism and addiction Nor do we expect that they will be like annual reviews covering all work in a delimited field Our reviews are designed to explore only the most exciting parts of the total field and to focus on conclusions that can be made about them The series publishes one volume each year Volume 8 is an omnibus rather than a theme volume in that a wide range of topics is covered including research on alcohol opiates and tobacco As usual the greater emphasis is on alcohol research reflecting the importance of the problem and the volume of work to be reviewed With Volume 8 come some changes in the Editorial Board It will be the last volume in the series for Robert E Popham who has resigned from the Board He has been with the series since its inception and has contributed a great deal to its development The members of the Board are grateful for his help We are adding two new members Dr Howard Cappell whose field is experimental psychology and Dr Edward M Sellers in clinical medicine and pharmacology

Alcoholism and Other Drug Problems James E. Royce, 1996

Research Advances in Alcohol and Drug Problems Reginald Smart, 2013-11-22 This book continues the series of reviews of research advances first published in 1974 The editors aim here is to present critical and integrative reviews by internationally recognized scholars of areas in which there has been much recent research In this task we have been greatly helped by the staff of Plenum Press and the Advisory Panel listed at the front of this volume Several members of the Panel have retired Dr W M D Paton Dr K Bruun Dr K F Killam and Dr J R Seeley Dr Klaus Makela has accepted our invitation to join the Panel Unfortunately one member of the Panel Professor William McGlothlin died as a result of a tragic accident He was a gifted and sensitive researcher His work over many years was well known to those studying alcohol and drug problems We want to acknowledge his contributions to the Research Advances Series and to the field in general The editors wish to acknowledge the help of Julliana Newell Ayoub in preparation of this volume This volume contains three papers by H Fingarette R Room and B Kissin on The Disease Concept They were originally prepared for an earlier volume but could not be included because of scheduling problems The editors and not the authors are responsible for this delay Because they are primarily philosophical and theoretical in nature they are not diminished in value by the lesser number of references to recent research

Recent Developments in Alcoholism Marc Galanter, 2012-12-06 From the President of the Research Society on Alcoholism This annual book series is a valuable resource for the alcoholism field because it provides critical and timely reviews of selected areas that have interest to both practitioners and researchers It tries to achieve a balance between psy chosocial and biomedical topics and between research and patient care activ ities Such a mix is offered in Volume 6 The

Research Society on Alcoholism whose membership embraces researchers from all disciplines that study the etiology treatment and prevention of alcoholism and alcohol related disabilities regards the support and sponsorship of this book series as one of its major missions Ting Kai Li M D President Research Society on Alcoholism From the President of the American Medical Society on Alcoholism and Other Drug Dependencies The broadening scope of clinical and scientific interest in alcohol dependence is reflected in this sixth volume of Recent Developments in Alcoholism It offers valuable reviews on important current issues in the field namely the inter twining of nature and nurture a continuing search for predictors and indicators of the disease and the social impact of alcoholism on the job and in special populations This material should pique the interest of clinicians from all disciplines Medical social and political planners also need to turn to the expanding body of knowledge in the field of chemical dependence reflected here The volume is therefore of value to a contemporary readership and to those who will turn to it in future years *A Guide for Physician Training in Substance Abuse* United States. Veterans Administration. Office of Academic Affairs,1983 **Assessing Alcohol Problems** John P. Allen,Megan Columbus,2003 A revision of the landmark study by D J Lettieri Alcoholism Treatment Assessment Research Instruments Assists in locating examining and selecting instruments appropriate for use in all stages of the assessment process Includes state of the art reviews of and recommendations for assessment procedures Written with the clinician and the less experienced researcher in mind Includes screening diagnosis assessment of drinking behavior treatment planning treatment and process assessment and outcome evaluation Also Fact Sheets and Sample Instruments **Controlling Legal Addictions** David Robinson,Alan Maynard,Robert Chester,1989-10-01 This book the proceedings of the twenty fifth annual symposium of the Eugenics Society looks into the complex alcohol and tobacco markets and how they are influenced by international factors such as EEC harmonization **Alcoholism and Substance Abuse** Gary G. Economics and Alcohol Marcus Grant,Martin Plant,Alan Williams,2023-12-01 During the 1950s 1960s and 1970s general levels of alcohol consumption had risen considerably in all parts of the world In association with this there was a proliferation of alcohol related problems such as liver disease drunkenness offences marital disharmony and employment difficulties Many factors influence the probability of alcohol addiction and the habits of drinking they include age sex race occupation and income Economic aspects of the use and misuse of alcohol had been attracting increasing attention during the early 1980s Politicians and scholars alike had drawn attention to the benefits of a vigorous alcohol industry on the one hand and on the other the costs of providing medical social and educational services for those suffering from alcohol related problems Originally published in 1983 the real nature of the relationship between economics and alcohol is explored in detail for the first time in this book It argues for increased participation by economists in the processes of social policy decision making and considers the key issues of cost benefit analyses control policies taxation and programme efficiency No easy solutions are provided but a host of unjustified assumptions about this subject are clarified This book paved the way for substantial future collaboration between economists and those involved in alcohol studies *Alcoholism* Griffith Edwards,Marcus Grant,2023-12-01 Originally published in 1977 alcoholism was acknowledged to be a seriously growing problem in many parts of the world It is a complex disorder with psychiatric physical psychological and social aspects having far reaching harmful effects on the family and society as well as on physical and mental health of the alcoholic themselves At the time of original publication it had been estimated that in England and Wales 11 out of every 1 000 in the adult population had a serious drink problem and alcoholism was a major cause of admission to psychiatric and general hospitals Alcoholism was a medico social problem of such magnitude that this comprehensive volume embodying advances in knowledge of causation treatment and prevention filled an urgent need at the time Still a major concern today this reissue can be read in its historical context *Women and Alcohol* ,1986
