This paper analyzes the benefits from female education who gains and in what ways and the constraints direct and opportunity costs reflecting economics and tradition It then outlines promising approaches for increasing female education The demand for female education can be strengthened gradually through economic and sectoral policies that increase the returns But this paper focuses on education policies many of which could be adopted now to lower the costs improve the quality and increase access to education in ways that will allow more girls to attend school It reports evidence of effectiveness and gives examples particularly from projects involving the World Bank Especially in poor countries projects succeed best when they include a package approach to address what are typically multiple and powerful constraints to female education The paper calls for increased monitoring and testing the cost effectiveness of the kind of innovative packages now being tried in several developing countries

International Handbook on the Economics of Integration

Miroslav N. Jovanović, 2011-01-31 International Handbook of Economic Integration edited by Miroslav Jovanovi provides timely and rich academic contributions to considerations of the widest array of integration related issues European integration has been providing an inspiration to a number of academics and researchers The Handbook is a recognition of the dynamic and strong solidarity of the European integration At the same time the European Union often provided an example for integration schemes throughout the world which spread enormously since the mid 1990s Leading experts from all continents contributed to this Handbook which will be a valuable input into academic and policy making discussions and actions Jos Manuel Barroso President of the European Commission Miroslav Jovanovi s publication represents a rich contribution to the complex issue of regional integration its benefits its shortcomings and its relationship with multilateral trade opening It sheds light over an issue which is the subject of intense discussions in trade circles Pascal Lamy Director General of the WTO Much has been written on trade agreements as a mechanism to integrate the markets of two or more countries often inspired by the European example In recent years attention has increasingly focused on the importance of economic geography as a determinant of industrial location This book combines the two strands of analysis bringing together leading experts in the fields of economic geography and international trade The result is an outstanding compilation of papers that illuminate how policies and economic forces affect the location of economic activity in an integrated Europe Bernard Hoekman Director The World Bank US The open multilateral trading system is a tremendous success of the past half century and has contributed greatly to the world s unprecedented rate of economic growth Over the past two decades however preferential trading arrangements have proliferated raising questions as to how compatible they are with the open

multilateral system and what policies might be adopted to improve outcomes The essays in this volume detail the emergence of PTAS and provide comprehensive and up to date analyses of the state of play of preferential arrangements in all regions of the world The volume will provide a useful reference for all those wanting to understand existing preferential arrangements and their role in the international economy today Anne O Krueger Johns Hopkins University and Stanford University US

Economic integration is a complex and multifaceted giant with a myriad aspects ranging from regional and global concentration and dispersal of economic activity to social and political consequences for individuals and communities in developed and developing countries alike This landmark three volume collection of chapters by leading authors drawn from many fields is a worthy and timely contribution to the analysis of a phenomenon with profound implications for the future world economy and its governance James Zhan Director Investment agriculture and environment and quantitative studies of integration effects A removal of barriers for the mobility of factors in certain integration arrangements among countries has an impact on the mobility of capital firms and individuals within the group Various aspects of this factor mobility are analysed in eight detailed chapters The second theme of the Handbook is devoted to agriculture and environment This is of great global relevance as the Common Agricultural Policy of the EU has been a bone of contention in international relations over several decades Finally seven quantitative studies of the effects of integration attempt to measure various potential benefits of regional integration efforts Contributors to this major reference work include eminent authors some of whom contributed to the creation of economic integration theory from the outset The authors not only survey the literature but also present their own arguments and new ideas in order to offer a new perspective as well as discussing the issues they believe are essential in the field Each of the insightful chapters is approachable not only to graduate students scholars researchers and policymakers but also to advanced undergraduate students

Population and Poverty in the Developing World

Massimo Livi-Bacci, Gustavo De Santis, 1999-04-01 The increasing gap between developed and developing world will be one of the most important themes of the 21st century The contributions contained in this volume take a multidisciplinary approach to the problem offering a comprehensive review of the theoretical issues and empirical findings that relate to the complex and multidirectional link between poverty and demographic behaviours and outcomes in the contemporary developing world The starting point of the volume is an exact definition of poverty The contributors go on to analyse in the detail its causes and effects both at the micro and macro level concentrating on those factors and consequences which relate more directly to the demographic sphere Population growth household structure and labour fertility AIDS urbanization migration and mortality are amongst the areas covered with the major themes discussed and elaborated in an introductory overview chapter

Women's Education in Developing Countries Elizabeth M. King, M. Anne Hill, 1997-07-01 Why do women in most developing countries lag behind men in literacy Why do women get less schooling than men This anthology examines the educational decisions that deprive women of an equal education It assembles the most up to date data organized by region

Each paper links the data with other measures of economic and social development This approach helps explain the effects different levels of education have on women's fertility mortality rates life expectancy and income Also described are the effects of women's education on family welfare The authors look at family size and women's labor status and earnings They examine child and maternal health as well as investments in children's education Their investigation demonstrates that women with a better education enjoy greater economic growth and provide a more nurturing family life It suggests that when a country denies women an equal education the nation's welfare suffers Current strategies used to improve schooling for girls and women are examined in detail The authors suggest an ambitious agenda for educating women It seeks to close the gender gap by the next century Published for The World Bank by The Johns Hopkins University Press **International Handbook on the Economics of Migration** Amelie F. Constant, Klaus F. Zimmermann, 2013-09-30 This is an extremely impressive volume which guides readers into thinking about migration in new ways In its various chapters international experts examine contemporary migration issues through a multitude of lenses ranging from child labor human t

Handbook of Population and Family Economics Mark Richard Rosenzweig, Oded Stark, 1997 The collection of chapters in the Handbook of Population and Family Economics and their organization reflect the most recent developments in economics pertaining to population issues and the family The rationale contents and organization of the Handbook evolve from three premises First the family is the main arena in which population outcomes are forged Second there are important interactions and significant causal links across all demographic phenomena Third the study of the size composition and growth of a population can benefit from the application of economic methodology and tools The diversity and depth of the work reviewed and presented in the Handbook conveys both the progress that has been made by economists in understanding the forces shaping population processes including the behavior of families and the many questions empirical and theoretical that still remain For more information on the Handbooks in Economics series please see our home page on <http://www.elsevier.nl/locate/hes> Publications of the National Bureau of Economic Research, Incorporated ,1926 Seven Decades of Econometrics and Beyond Badi H. Baltagi, László Mátyás, 2025-05-17 This volume honors the life and legacy of renowned economist and econometrician Marc Nerlove who passed away in July 2024 His influential contributions to the field have left a lasting impact on econometrics and the broader economics profession The book features high quality original research across various domains of theoretical and applied econometrics reflecting Nerlove's broad range of interests It includes survey chapters that provide valuable insights into key areas of econometrics enhancing readers understanding of important topics Where relevant personal tributes and reflections on Marc Nerlove's work are thoughtfully interwoven into the chapters This volume offers cutting edge findings in panel data analysis agricultural population and spatial economics income inequality and more The diversity of topics discussed highlights the profound and far reaching influence of Marc Nerlove's career on the field of economics **Strengthening the Bank's Population Work in the Nineties** Steven W.

Sinding,1991 These recommendations for the nineties focus on changing Bank strategies not Bank policy **The Elgar Companion to Feminist Economics** Janice Peterson,Margaret Lewis,2001-01-01 Comprehensive reference work introducing readers to the field of feminist economics It addresses key concepts as well as feminist economic critiques and reconstructions of major economic theories and policy debates *Bibliography of Population Literature in the Arab World: Non-Arabic literature* ,1993 *National Saving and Economic Performance* John B. Shoven,B. Douglas Bernheim,2009-02-15

The past decade has witnessed a decline in saving throughout the developed world the United States has the dubious distinction of leading the way The consequences can be serious For individuals their own economic security and that of their families is jeopardized For society inadequate rates of saving have been blamed for a variety of ills decreasing the competitive abilities of American industry slowing capital accumulation increasing our trade deficit and forcing the sale of capital stock to foreign investors at bargain prices Restoring acceptable rates of saving in the United States poses a major challenge to those who formulate national economic policy especially since economists and policymakers alike still understand little about what motivates people to save In *National Saving and Economic Performance* edited by B Douglas Bernheim and John B Shoven that task is addressed by offering the results of new research with recommendations for policies aimed to improve saving Leading experts in diverse fields of economics debate the need for more accurate measurement of official saving data examine how corporate decisions to retain or distribute earnings affect household level consumption and saving and investigate the effects of taxation on saving behavior correlations between national saving and international investment over time and the influence of economic growth on saving Presenting the most comprehensive and up to date research on saving this volume will benefit both academic and government economists *Economics of Agricultural Development* George W. Norton,Jeffrey Alwang,William A. Masters,2014-09-25

Economics of Agricultural Development examines the causes severity and effects of poverty population growth and malnutrition in developing countries It discusses potential solutions to these problems progress made in many countries in recent years and the implications of globalization for agriculture poverty and the environment Topics covered in the book include Means for utilizing agricultural surpluses to further overall economic development The sustainability of the natural resource environment Gender issues in relation to agriculture and resource use The contribution of agricultural technologies The importance of agricultural and macroeconomic policies as related to development and trade and the successes and failures of such policies Actions to encourage more rapid agricultural and economic development The globalization of trade in goods services and capital has been fundamental to changes being experienced in the agricultural and rural sectors of developing countries It has major implications for the fight against poverty and food insecurity and for environmental sustainability Recently agriculture has returned to a position of center stage in the development dialog as food price volatility has increased along with water scarcity and concerns grow over the effects of climate change on food supply and food security This new edition of the

essential textbook in the field builds on the 2010 edition and reflects the following developments Growth in foreign demand for land and other natural resources Significant progress in agricultural and economic development in some low income countries while others are being left behind Continued growth in demand for higher valued farm products This book is essential reading for undergraduate students seeking to understand the economics of agricultural development and the world food system including environmental and human consequences international trade and capital flows

Economic Growth and Fiscal Planning in New York William Duncombe, 2017-09-08 In an era of federal deficits and struggling municipalities states have emerged as the most significant governmental actors But state governments face the major challenge of fiscal planning in the midst of economic change Roy Bahl and William Duncombe tackle this challenge head on Using New York as a case study they identify looming dangers for state revenue and expenditure planning Bahl and Duncombe begin with the premise that one cannot separate an evaluation of fiscal performance from an evaluation of economic performance Accordingly they describe and analyze the patterns of population employment and personal income growth Following this is a study of state and local government finances in New York since 1970 and a recounting of the fiscal adjustments that were taken in the face of slower and then faster growth in the economy The authors conclude that based on current conditions the state and its local governments are in for fiscal belt tightening They note that the state should take a comprehensive view in planning the development and retrenchment of its government sector The book is thought provoking exhaustively researched and sensibly written Its lessons are applicable everywhere and should be read by all those seeking a route through the tangled thicket of government policy for economic growth
