

# INTRODUCTION TO SOCIAL WORK

## MEANING AND DEFINITION

The following definition was approved by the IFSW General Meeting and the IASSW General Assembly in July 2014:

“Social work is a practice-based profession and an academic discipline that promotes social change and development, social cohesion, and the empowerment and liberation of people. Principles of social justice, human rights, collective responsibility and respect for diversities are central to social work. Underpinned by theories of social work, social sciences, humanities and indigenous knowledge, social work engages people and structures to address life challenges and enhance wellbeing. The above definition may be amplified at national and/or regional levels.”

-Global Definition of the Social Work Profession-

## SCOPE OF SOCIAL WORK

The concern of social work's is to help people who are in need so that they develop the capacity *to* deal with their problems by themselves. It is both science and an art. Social is work is science in the sense that the knowledge taken from different disciplines forms the body of knowledge for a social worker and he/she uses this theoretical base for helping people i.e., for practice. What theory postulates has to be put into practice. The required capacity to do it is known as skill. Hence, professional social work with selected knowledge and the set of social work values, has to be transformed into a professional service.

A social worker has to establish a positive relationship with the clients. She should know how to interview and write reports. He/she should be able to diagnose i.e., find out the cause for the problem and finally he/she should work out a treatment plan. An Assessment of the problem, planning for its solution, implementing the plan and evaluating the outcome are the four major steps involved in social work.

contemporary practice has quickly established itself as a leading and uniquely comprehensive introduction to the field. Essential knowledge and skills are examined with authority and depth and key debates approached in an accessible, informative and engaging way. Underpinned by research and advice to make close illustrative links with practice, it stimulates interest and actively engages the reader. Richly supported throughout with examples and real life case scenarios, the text encourages the reader to adopt a critical and reflective approach. Furthermore, believing that social work exists to help people through complex and painful transitions in life, the authors set the relationship at the heart of social work practice. This text is essential reading for social work students on undergraduate and postgraduate training programmes, newly qualified social workers and practitioners in a variety of settings.

[An Introduction to Applying Social Work Theories and Methods 3e](#) Barbra Teater, 2019-12-02

The text is a comprehensive guide to the most commonly used theories and methods in social work practice. The introductory chapter covers the similarities and differences between a theory and a method as well as psychosocial theories and concepts. Each subsequent chapter then explores in detail how to implement theories and methods, their strengths and limitations, alongside case examples, critical thinking questions and suggested further resources.

**Key features:** Illustrative case studies, Exercises, Case examples, Critical thinking questions, Further readings, resources.

Revised content including the addition of genograms and ecomaps. This is a practical and essential guide for all social work students, practitioners and practice educators who are working with students in field placements. The book is an updated third edition to a successful and established series. The clarity with which Teater describes complex concepts for social workers is refreshing. This book will help promote understanding and best practice whilst being firmly grounded in key theories. It is a must have for all social workers wherever they practise.

Dr Jonathan Parker, Professor of Society, Social Welfare, Bournemouth University, UK.

This latest edition of *Theories and Methods* is as solid as its predecessors, academically, with a clear and easy to follow structure that makes it accessible in a way many such books are not. I have used previous editions in many situations, settings and levels, and endorse this latest as a must have for anyone involved with social work.

Explanation is clear and the use of tables, diagrams and cases bring the theory alive and enable users to realistically transfer theory to practice. The use of exercise and questions provide a springboard to deeper learning, as do the handy references and pointers to further reading at the end of each chapter. Inclusion of sections such as the cultural and ethical considerations lend themselves to self-analysis, exploration and ultimately self-development. A dream of a book to work with as an academic, tutor, practice educator and trainer, as well as student.

Michele Winter, Independent Social Worker, Teacher, Trainer, Social Care Training.

I can wholeheartedly recommend this revised and updated edition of Barbra Teater's highly successful book. It remains essential reading for practitioners, undergraduate and postgraduate students of social work. The book provides a compelling and easily accessible analysis of key theories and methods. It challenges both students and practitioners to consider and reconsider how they can apply theories and methods to practice more effectively.

Prof Hugh McLaughlin

Manchester Metropolitan University UK What a great book Barbra Teater and colleagues have managed to bring together a wealth of learning about different theories and methods of social work intervention in a clearly written and accessible format Each chapter is focused on the application of theory to practice and as such helps to act as a bridge from the classroom to direct work with individuals families and groups This new and updated edition is very likely to be one of those books that students have by their side throughout their studies and bring with them into professional practice after graduation Dr John Devaney Centenary Professor of Social Work University of Edinburgh UK *Research in Social Work* Margaret Williams, Leslie M.
