**European Developments in Corporate Criminal Liability** James Gobert, Ana-Maria Pascal, 2011-06-10 When corporations carry on their business in a grossly negligent manner or take a cavalier approach to risk management the consequences can be catastrophic The harm may be financial as occurred when such well regarded companies as Enron Lehman Brothers Worldcom and Barings collapsed or it may be environmental as illustrated most recently by the Gulf oil spill Sometimes deaths and serious injuries on a mass scale occur as in the Bhopal gas disaster the Chernobyl nuclear explosion the Paris crash of the Concorde the capsizing of the Herald of Free Enterprise and rail crashes at Southall Paddington and Hatfield in England What role can the law play in preventing such debacles and in punishing the corporate offenders This collection of thematic papers and European country reports addresses these questions at both a theoretical and empirical level The thematic papers analyse corporate criminal liability from a range of academic disciplines including law sociology criminology economics philosophy and environmental studies whilst the country reports look at the laws of corporate crime throughout Europe highlighting both common features and irreconcilable differences between the various jurisdictions

*Central Banking and Monetary Policy in the Asia-Pacific* Akhand Akhtar Hossain, 2009-01-01 The strength of this book is that it summarises a vast amount of the modern literature in monetary economics the book provides detailed and clear descriptions of monetary models This comprehensive volume is a useful compendium of the monetary economics literature of the second half of the 20th century which has to a certain extent been overtaken by events Paul Wachtel Asian Pacific Economic Literature This well researched and finely crafted book is a valuable addition to the literature on monetary policy in developing countries It explains the concepts and tools of monetary policy in a simple manner and discusses how monetary policy works in developing Asia in a historical context within the framework of an outward oriented development strategy I am not aware of any other book that covers the organisational and institutional aspects of major central banks in developing Asia Prema chandra Athukorala Australian National University This book elaborates the key concepts principles and models of inflation and monetary policy and explains how they remain relevant and useful to the design and conduct of monetary policy in developing Asia In this rapidly growing region price stability remains important and therefore monetary policy has gained increasing importance Even while emphasising the importance of the classical approach the book discusses alternative frameworks and points out areas where a consensus is emerging The review of the literature is extensive and careful Along with developing this theme the book reviews the structure and governance of most central banks in the Asia Pacific and discusses how they conduct monetary policy to achieve price stability under different monetary policy frameworks The book fills a gap in the central banking and monetary policy literature and has no close competitors It should be useful to both students and policymakers in developing Asia Salim Rashid

University of Illinois US The 1997 East Asia crisis exposed many economic policy weaknesses in the Asia Pacific region In his latest book Dr Hossain provides students with a refreshing up to date reference text on the concepts and principles of money banking and finance in developing countries which differ in many ways to monetary institutions and practices in developed countries which conventional monetary textbooks focus on I thoroughly recommend it A P Thirlwall University of Kent UK This timely book reviews the modern literature on inflation and monetary policy and highlights contemporary issues in the design and conduct of monetary policy for price stability in developing Asia Akhand Akhtar Hossain surveys the evolution of central banking and provides an introduction to the structure function and governance of central banks in selected countries in the Asia Pacific The author also examines the major theories models and approaches to inflation and monetary policy and evaluates monetary policy regimes in selected countries in the Asia Pacific in a historical context This eloquent and comprehensible book will prove to be invaluable to undergraduate students on monetary theory and policy as well as banking and financial courses Researchers exploring monetary policy concepts principles and case studies will warmly welcome this book as will policy makers who have an interest in macroeconomics monetary and financial policies **Scientific and Technical Aerospace Reports** ,1994 Risk Management and Public Service Reform Iniobong Enang,2023-04-28 School education reform is a dynamic process It takes place in the context of changing institutional structures including society economy politics legislation and technology Yet there can be poor awareness of risk particularly social risk and its management during this process and more widely during public service reform PSR This book aims to promote new PSR understanding about social risk management It utilizes in depth case studies comprising two anonymous Scottish councils responsible for providing and reforming school education services Drawing mainly on risk management and structuration theories with elements of complexity leadership and institutional theories the book explains contextual issues around the reform of Scottish school education services SSES It illustrates that social risks associated with reform can be used to explain emerging threats Furthermore it demonstrates that agent structure duality may be instrumental to the production and management of social risks The book also shows how the concept of social risk can be used to improve policy making and implementation Targeted at practitioners researchers policymakers and students this book will be of interest to those in the fields of public administration public service management and risk management more generally The Resilience of New Public Management Irvine Lapsley,Peter Miller,2024-01-12 The Resilience of New Public Management examines the role and significance of New Public Management NPM in contemporary society and explores its emergence and resilience Eminent scholars have said that NPM only existed from 1980 2000 and that we now live in a post NPM world This book tells a very different story Evidence is presented in this book of 40 years of continuous NPM in public services including government agencies universities and health care NPM has diffused across sectors and globally since the 1980s and in the process mutated to become modernization It also coexists with alternative models of managing public services including models such

as digital era governance and network governance which were considered replacements for NPM The capacity of NPM to mutate has caught many of its critics by surprise This capacity for NPM to reinvent itself includes the adoption of Lean Management the Toyota Production System Early NPM adopter countries engaged with the use of Lean Management techniques but late NPM adopters did not The most recent alternative to NPM is Trust based management which has made significant advances in Scandinavian countries However Trust based management is closely linked to proto NPM and NPM practices and it has itself mutated to present itself as a friendlier and more supportive version of NPM which at the very least deserves close scrutiny The above trends are indicative of the resilience of NPM and its intuitive appeal for policymakers Its advocates argue that NPM has the capacity to deliver policy outcomes but this book shows that such claims and aspirations are not always matched by the evidence of NPM in action

New Multinational Enterprises from Korea and Taiwan Roger van Hoesel, 2013-01-11 This volume represents the first substantive study of emerging multinationals MNEs from Asian economies drawing on the unique experiences of South Korea and Taiwan Combining an econometric investigation with detailed case studies of leading Korean and Taiwanese electronics companies it aims to demystify the nature and theoretical implications of these dynamic economic regions The author argues that many of these new multinationals do not possess the characteristics typically ascribed to MNEs such as technological leadership strong marketing positions or advanced managerial capabilities This is highlighted by documentation of recent developments in outward investment from Korea and Taiwan at both micro and macro level The implications of the recent Asian crisis for the internationalization of Korean and Taiwanese firms are also explored

**Transaction Cost Economics and Beyond** Michael Dietrich, 2008-01-28 In recent years transaction cost economics have come to dominate the discussion of the nature and organization of firms In *Transaction Costs Economics and Beyond* Michael Dietrich offers a critical exploration of transaction costs He argues that whilst they have much to offer they are still an inadequate basis for a general theory of the firm Drawing on theories of organizational behaviour as well as economics he concludes by offering a theory of the firm that allows for both hierarchical and creative decision making
