serve the interests of Africans it is imperative that the structures and the underlying rationale of the colonial economy are radically reoriented if economic activities in Africa are to benefit the majority of Africans Drawing from the Zambian experience the book shows that the transformation of the colonial economy in Africa is urgently needed Whilst this has proved to be difficult over the past six decades it can be done The book outlines a specific type of industrial policy Frontier Industrial Policy as a key instrument for transforming the structure of African economies At a time when economic growth across Africa is under considerable pressure due to COVID 19 the insights in this book will be of interest to researchers across Economics Development Postcolonial Studies and African Studies *Growth and Development in the Global Political Economy* Phillip O'Hara, 2004-03-01 Recent institutional changes have seen the increasing dominance of globalization and neoliberalism in the world economy As markets have been deregulated privatization and unproductive government spending have been promoted Yet the greater volatility of capitals the emergence of many financial crises a decline in trust and environmental problems have cast doubt on the effectiveness of neoliberal globalization This book studies the impact of neoliberal globalization on growth and development in the world economy It scrutinizes whether new social structures of accumulation or modes of regulation have emerged to promote long term socioeconomic performance in the global economy during the early years of the twenty first century Special reference is given to the specific performance of neoliberal governance transnational corporations global institutions of money trade and production international relations of war and terrorism financial institutions and the family community environment It is a comprehensive analysis of the degree to which institutional development has managed to promote socioeconomic performance in the global economy It also presents a thorough policy program of action for long wave upswing in the world economy It will be especially useful for those scholars and students concerned with issues of governance global political economy institutions and macroeconomics
