Research On Professional Development Sch:

The Principal as Professional Development Leader Phyllis H. Lindstrom, Marsha Speck, 2004-02-20 At last we have a book that realistically empathically and interestingly describes leadership and the professional development work that needs to accompany it for principals. It is all here: readings, web sites, theory, practice, helpful forms to use, vignettes of principals. Lindstrom and Speck are both insiders and outsiders, teaching us in the best of ways how to both think about and act on our new knowledge. Ann Lieberman, Senior Scholar, Carnegie Foundation for the Advancement of Teaching. This is the book to read. I will recommend it to my colleagues the minute it is off the press. The authors should be very proud of their work and contribution to a pivotal need in the field. Bottom line: It will help improve what we do for children, our ultimate purpose. Becky J. Cooke, Principal, Evergreen Elementary School, Spokane, WA. Raise student achievement by developing leadership, teamwork skills, and knowledge in teachers. Authors Phyllis H. Lindstrom and Marsha Speck simplify and focus the function of the principal as professional development leader by providing scenarios, processes, context, and content that principals can use to create an integrated collaborative learning environment. Aligned with National Staff Development Council standards, this user-friendly resource includes rubrics, worksheets, and surveys. Professional development planners. Sample forms for classroom visits and observations. Calendars of professional development activities. Recommended readings and reflective questions. In order to improve learning for all students, this unique text provides the strategies, skills, and tools necessary to build the capacity of professional development within the school. The authors supply practical techniques for analyzing student achievement data, evaluating professional development plans, and achieving a culture of sustained improvement.

Professional Development for School Improvement Stephen P. Gordon, 2004 This book integrates knowledge from professional development and school improvement to describe

frameworks that can increase the capacity of individuals teams and organizations to grow and develop The text argues that both professional development and school improvement should have as their primary purpose the improvement of teaching and learning Eleven frameworks for professional development are presented along with strategies for integrating multiple frameworks in comprehensive programs School leader development is addressed as a prerequisite for professional and school development *A Professional Development School Partnership* Renee W. Campoy,2000-05-30 The professional development school PDS is a unique educational reform initiative that attempts the simultaneous reform of education at the school and the university By conducting reform at both levels of education the PDS is a solution to the piecemeal reforms of the past from Dewey s Progressivism to the Sputnik reforms to New Math to Whole Language which have targeted educational change in the public schools but most have overlooked the preparation of new teachers The PDS addresses the professional development of experienced teachers in the field the preparation of new teachers and improvement of the programs of K 12 schools at the same time and at the same place the school site In this way reform goals are agreed upon and implemented by both new and experienced teachers so that reform efforts are seamlessly supported by all parties involved Nevertheless most educators engaged in PDS reform agree that PDSs are a high stakes reform effort and are fraught with difficulties This case study provides an annotated road map of one PDS partnership so that others interested in partnership work are provided general principles to guide their work **Professional Development Schools and**

Professional Development School on Professional Development in the Partner School District Doris Grove,2016
ABSTRACTOver the last several decades those engaged in enhancing educational quality have recognized the increasing importance of the role of professional development in enhancing educator performance and student learning During that same time period professional development school partnerships between school districts and institutions of higher learning have been seen as a vehicle for transforming or renewing both basic and higher education It is reasonable to expect that the establishment of a professional development school partnership would exert a significant impact on the professional

development program of the district However this may not be the case In fact Levine 1997 argued school districts with some important exceptions continue to ignore the potential impact that professional development schools can have in terms of professional development recruitment and new teacher induction p 6 The purpose of this study was to address empirically the question of the impact of a PDS partnership on a districts professional development program The central research question framing this study was What has been the impact of an elementary professional development school partnership on the professional development program of the school district at the elementary level In order to answer this central research question the following sub questions guided the study 1 As individuals in a variety of roles and contexts perceive it has the elementary professional development program in the school district changed as a result of the PDS partnership 2 If changes in professional development have occurred at the elementary level in what areas have the changes occurred a Assumptions underlying professional development b Goals for professional development c Delivery of professional development d Role of the teacher in professional development e Outcomes of professional development 3 What factors explain the changes that have occurred The study employed a qualitative case study approach In depth interviews using an interview protocol adapted from Seidman were conducted with 25 participants from three distinct categories 1 central office administrators including curriculum coordinators 2 principals and 3 teachers using Seidmans interview protocol Data were analyzed using the constant comparative method Glasser Strauss 1967 As revealed from the data collected during this study all of the participant groups with the exception of the low involvement teacher participants perceived that the professional development school partnership offered and supported multiple opportunities for professional development including enhanced teacher leadership possibilities generating a culture of inquiry and empowerment through teacher generated and teacher led professional development The findings of the study indicate multiple opportunities for future research studies in regards to professional development school university partnerships and teacher leadership and principal leadership in a PDS partnership

Visions from Professional Development School Partners Michael Cosenza, Merilyn Buchanan, 2018-01-01 Rich clinical preparation combined with progressive experiences in professional development school PDS settings are proposed to bring about systemic and impactful transformation of educator preparation and professional growth in order to improve and enhance P 12 student learning In this book diverse authors describe their efforts to forge PDS partnerships to develop and deliver high quality training and practical experiences for candidates and simultaneously provide professional development for experienced practitioners in ways that mirror recommendations found in authoritative reports and literature The authors collective wisdom is vividly captured in the multi voiced chapters that are collaborations between cooperating teachers school administrators county and district level administrators university supervisors and instructional faculty The contexts authors write about are recognizable and the accomplishments they experienced and challenges faced will resonate with institutions courageously undertaking change or renewal The book will be invaluable to school and university faculty and

administrators as they transition to a partnering model of clinical preparation for teacher candidates it will help stakeholders decide if their schools and institutions are ready to commit to a partnership and highlight the benefits they stand to gain but realistically address challenges that may be faced by administrators and faculties as well as teacher candidates in the PDS enterprise Why Can't We Get It Right? Marsha Speck,Caroll Knipe,2005-02-01 How can we use professional development to provide the best teaching and learning opportunities for all students Teachers who know their content and strategies can open a virtual toolbox and take out what they need to help all students become successful This revised and updated edition explains how educational leaders can design deliver and evaluate collaborative standards based professional development and contains Essential questions about high quality professional development Information on creating the culture for a learning community Conditions and processes for professional development Suggestions on designing your own model Tools for evaluating and rethinking professional development and learning Strategies for deepening a leader s impact on a standards based system

Professional Development Schools Rick Breault,Donna Adair Breault,2012 Professional Development Schools Researching Lessons from the Field provides a comprehensive analysis of PDS research that can aid PDS stakeholders in designing and sustaining meaningful research in their partnerships Breault and Breault used an extensive qualitative meta synthesis to examine the research over the past 20 years Their comprehensive review of 300 studies provides a deep understanding of the challenges and potential within PDSs The authors offer analysis regarding key elements of PDSs and highlight strong studies including a large scale multi site study and studies using mixed methods and action research effectively They also highlight exemplary studies showing how pilot studies are effective ways to research new partnerships how theory can lead to greater abstraction and how metaphor can clarify complex relationships This book is an essential resource for all stakeholders involved in professional development schools Reach the Highest Standard in Professional Learning: Learning Designs Eleanor Drago-Severson,Patricia Roy,Valerie von Frank,2014-11-06 The right learning design can support professional growth Learning Forward is a leader in understanding and advancing professional learning that leads to student success This series explores Learning Forward s seven Standards for Professional Learning which outline the characteristics of effective professional learning that collectively advance teaching and learning In this volume you ll get original essays an inspirational case study and detailed guidance on implementing the Design standard Deepen your knowledge of standards with An original essay by Eleanor Drago Severson that offers a fresh take on designs for professional learning that is grounded in adult developmental theory Practical tools that assist readers in selecting appropriate learning designs that promote educator growth Examples of powerful designs for professional learning that are job embedded promote active engagement and support implementation With this book educators will reach new heights of professional growth and students will reap the benefits Handbook of Research on the Education of School Leaders ,
