What Rosetta Stone English Won't Tell You - Learn That Language Now Robertson Kunz, 2013-11 Want to learn the quickest easiest and most efficient way to learn a language to fluency Don t waste any more time and money with classes textbooks audio courses computer programs and other materials until you have read this Coming from 10 years of experience and having already shown thousands of language learners the right way to learn languages Read on to learn the secrets they don t give you in class Life is good for me I am fluent in several languages and conversational in many more I have friends I speak to on a daily basis who don t speak a word of English My language ability has opened career doors and made immediate friends out of strangers Better yet I receive enjoyment out of using my languages daily in meeting people watching movies and reading my favorite books How was I able to learn a foreign language so fluently in such a short period of time Let me give you a hint it s not because I m a genius spend 10 hours a day studying or have some gift for learning languages It s because I developed a METHOD that will allow you to IMMEDIATELY Learn new words and phrases quicker than you ever have before and not worry about forgetting them Speak without a single error Natives will be scratching their heads wondering why you speak so much better than the other foreigners Be able to study the language without getting bored ever No more painful language learning Become fluent quicker than anyone you know I m sure you know of people who have studied a language for a couple or more years Now you can be fluent well within that time Surprisingly the best easiest and quickest way to learn a language is not written in those textbooks audio programs computer programs or other materials In fact most of the time they advocate a painful hard way to get to fluency What I ve learned in the past 10 years is it doesn t have to be painful or long This isn t to say those materials are completely useless but if you want to gain from them as quickly and efficiently as possible you need to incorporate them into a larger plan I wrote this book to stop others from making the same mistakes I did when I started to learn languages I wrote it to show the fastest quickest and most efficient way to learn languages so that you don t waste a single minute or dollar I ve read a lot of material about language learning and used a lot of different methods I ve discovered what works and what doesn t Everything I ve written in my book is the tips secrets and method that I ve found to actually work to get me to fluency in the shortest period of time You won t find any ridiculous ideas here like subliminal learning while you sleep Everything here has been tested by me from scratch and is from real world experience I have personally invested 10 years and thousands of dollars on learning the best most efficient way to learn languages I wish that I could have been able to buy the knowledge and information presented in this book when I first started out It could have saved me a lot of trouble time and money Many people waste thousands of dollars or more on audio

programs textbooks classes and other language learning materials What if this book saved you from wasting money on even one of those If this book saved you even just one hundred hours of studying what would that be worth to you Probably a lot more than the cost of this book A lot of people start out learning a language and then give up somewhere in the middle never reaching fluency and wasting all the energy time and money they spent getting somewhere in the middle Make sure you are not one of those people and invest today to discover what really works and how you can get to fluency quickly and efficiently

The Rosetta Stone. (Revised.) [By Sir E.A.T.W. Budge.] British Museum. Department of Egyptian and Assyrian Antiquities,1950 The Rosetta Stone R. B. Parkinson,2005 The Rosetta Stone contains a decree written three times in Greek Demotic and hieroglyphic that provided the key to the mysterious hieroglyphic script of ancient Egypt and opened up 3 000 years of the country s history and culture This book tells the fascinating story of one of archaeology s icons from its creation in the second century BC to its discovery in 1799 during Napoleon s Egyptian campaign to the subsequent race to decipher its hieroglyphic text Undertaken by two brilliant scholars the Frenchman Jean Francois Champollion and the English physicist Thomas Young it was the former who eventually succeeded in making the crucial breakthrough Today the Rosetta Stone stands in the Museum as an enduring symbol of human understanding and communication through the ages

The Rosetta Stone Sir Ernest Alfred Thompson Wallis Budge,1950-01-01 Finding of the Rosetta Stone The Rosetta Stone is a slab of black basalt which is now preserved in the British Museum Egyptian Gallery No 24 It was found by a French artillery officer called Boussard among the ruins of Fort Saint Julien near the Rosetta mouth of the Nile in 1799 but subsequently came into the possession of the British Government at the capitulation of Alexandria It is inscribed with fragments of 14 lines of hieroglyphics 32 lines of demotic and 54 lines of Greek A portion of the stone has been broken off from the top and the right hand bottom corner has also suffered injury Beneficent acts of Ptolemy V Epiphanes The inscriptions upon the Rosetta Stone set forth that Ptolemy V Epiphanes while king of Egypt consecrated revenues of silver and corn to the temples that he suppressed certain taxes and reduced others that he granted certain privileges to the priests and soldiers and that when in the eighth year of his reign the Nile rose to a great height and flooded all the plains he undertook at great expense the task of damming it in and directing the overflow of its waters into proper channels to the great gain and benefit of the agricultural classes In addition to the remissions of taxes which he made to the people he gave handsome gifts to the temples and subscribed to the various ceremonies which were carried on in them In return for these gracious acts the priesthood assembled at Memphis decreed that a statue of the king should be set up in a conspicuous place in every temple of Egypt and that each should be inscribed with the name and titles of Ptolemy the saviour of Egypt Royal apparel was to be placed on each statue and ceremonies were to be performed before each three times a day It was also decreed that a gilded wooden shrine containing a gilded wooden statue of the king should be placed in each temple and that these were to be carried out with the shrines of the other kings in the great panegyrics It was also decreed Festivals in

honour of Ptolemy Epiphanes that ten golden crowns of a peculiar design should be made and laid upon the royal shrine that the birthday and coronation day of the king should be celebrated each year with great pomp and show that the first five days of the month of Thoth should each year be set apart for the performance of a festival in honour of the king and finally that a copy of this decree engraved upon a tablet of hard stone in hieroglyphic demotic and Greek characters should be set up in each of the temples of the first second and third orders near the statue of the ever living Ptolemy The Greek portion of the inscriptions appears to be the original document and the hieroglyphic and demotic versions merely translations of it Although it is nearly certain that without the aid of the Greek inscription found on the socket of an obelisk at Phil and the hieroglyphic inscription found on the obelisk which belonged to that socket the hieroglyphic alphabet could never have been recovered from the Rosetta Stone Rosetta Stone the base of decipherment of Egyptian hieroglyphics still it is around this wonderful document that all the interest in the decipherment of the Egyptian hieroglyphics clings For many hundreds of years the interest of the learned of all countries has been excited by the hieroglyphic inscriptions of Egypt and the theories propounded as to their contents were legion Speaking broadly the references to this subject by classical authors¹ are not very satisfactory still there are some remarkable exceptions which will be referred to presently Inasmuch as the names of Roman emperors as late as the time of Decius Late use of hieroglyphics were written in hieroglyphics it follows that the knowledge of this subject must have been possessed by some one either Greek or Egyptian in Egypt For a hundred and fifty years after the Ptolemies began to reign the Egyptian hieroglyphics appear to have been commonly used and the Egyptians were not prohibited from making use so far as it seemed requisite according to ritual or otherwise appropriate of the native language and of its time hallowed written signs Little by little however the Greek language displaced the Egyptian and the writing in common use among the people called to day demotic or enchorial and anciently epistolographic completely usurped the place of the hieratic or cursive form of hieroglyphic writing Although the Greeks and Romans appear not to have studied hieroglyphics thoroughly only repeating generally what they were told about certain signs nevertheless writers like Herodotus Diodorus Siculus Strabo Hermapion Chaeremon Clemens Alexandrinus and Horapollo contribute information on this subject of considerable value
