The Films of Fred Schepisi Brian McFarlane,2021-11-15 Fred Schepisi is one of the crucial names associated with the revival of the Australian film industry in the 1970s The Films of Fred Schepisi traces the lead up to his critical successes in feature filmmaking via his earlier award winning success as a producer in advertising commercials in the 1960s and the setting up of his own company Unlike some directors he derived from this experience a sure sense of the commercial aspects of filmmaking as well as its aesthetic considerations The volume also considers stories of his early education in a Catholic seminary which he drew on in his semiautobiographical film *The Devil s Playground* the success of which launched him as an exciting new feature director The volume expands on Schepisi s success story to chart his development as a director in

demand in other countries notably in the US and the UK as well as continuing to make major films in Australia Brian McFarlane argues that Schepisi's career is symptomatic of Australian directors who have made their presences felt on the international stage Whereas other key directors of the Australian film revival such as Peter Weir and Bruce Beresford have been the subject of book length critical studies Schepisi's career has not to date been so explored McFarlane takes a critical account of Schepisi's film output including such standouts as *The Chant of Jimmie Blacksmith* *Plenty* *Roxanne* *Six Degrees of Separation* *Mr Baseball* and *Last Orders* and he augments analysis with interviews with the director By discussing the production histories and both critical and popular receptions McFarlane's study shines a new light on Schepisi's work and his rise to prominence in the global film industry

Film as Religion John Lyden, 2003-06 Choice Outstanding Academic Title 2003 *Film as Religion* argues that popular films perform a religious function in our culture Like more formal religious institutions films can provide us with ways to view the world and values to confront it Lyden contends that approaches which interpret films only ideologically or theologically miss the mark in understanding their appeal to viewers He develops an alternative method which shows how films can be understood as representing a religious worldview in their own right Lyden surveys the state of the study of religion and film offering an overview of previous methods before presenting his own Rather than seeking to uncover hidden meanings in film detectable only to scholars Lyden emphasizes how film functions for its audiences the beliefs and values it conveys and its ritual power to provide emotional catharsis He includes a number of brief cases studies in which he applies this method to the study of film genres including westerns and action movies children's films and romantic comedies and individual films from *The Godfather* to *E T* showing how films can function religiously

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all inclusive A Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5 000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc., as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

The Europe of 1500-1815 on Film and Television Michael Klossner, 2002 The geographic scope of this work is all of Europe, European Russia, Great Britain, Ireland, Iceland, the Mediterranean Islands such as Sicily and Corsica, the Caucasus area north of Turkey including territory now in the new republics of Armenia, Georgia, and Azerbaijan, and the Balkans and Greece. There are entries for shorts, animation, silents, television series, films both theatrical and made for television releases, miniseries, epics, war films, dramas, literary adaptations, comedies, horrors, mysteries, musical comedies, and operettas. Complete entries provide such particulars as the title, date, alternate titles, black and white, those based on his life are included. Opera and ballet films are omitted, but musical comedy and operetta films are included, as are silent films based on operas. Fairy tales are out, but folkloric works are in. Documentaries are not included. Subject, places, periods, events, and historical figures, and name indexes allow for easy reference.
