Roughing It in the Bush; Or, Life in Canada. by Susanna Moodie, 2016-10-06 *Roughing It in the Bush* Full title *Roughing It in The Bush or Forest Life in Canada* is an account of life as a Canadian settler by Susanna Moodie. Moodie immigrated to Upper Canada soon to become Canada West near modern day Peterborough Ontario during the 1830s. At the suggestion of her editor she wrote a guide to settler life for British subjects considering coming to Canada. *Roughing It in the Bush* was first published in London in 1852 then Toronto in 1871. It was Moodie's most successful literary work. The work is part memoir, part novelization of her experiences and is structured as a chronological series of sketches. Publisher Richard Bentley's foreword to the third edition published in London in 1854 describes the Canadian mania that pervaded the middle ranks of British society in the 1830s. Immigrants paid a hefty fee to ship's agents who took them across the Atlantic and these agents did their best to drum up business by marketing Canada as a British emigrant's utopia. Canada became the great land mark for the rich in hope and poor in purse. Public newspapers and private letters teemed with the unheard of advantages to be derived from a settlement in this highly favoured region.

MOODIE,2018 **Roughing It in the Bush** Susanna Moodie,2015-07-23 *Roughing it in the Bush* is the autobiography of Susanna Moodie who left England hoping to find a better life in the wilds of Canada The infection became general A Canada mania pervaded the middle ranks of British society thousands and tens of thousands for the space of three or four years landed upon these shores A large majority of the higher class were officers of the army and navy with their families a class perfectly unfitted by their previous habits and education for contending with the stern realities of emigrant life *Roughing It in the Bush* was part of a trilogy Moodie wrote to chronicle the immigrant experience in Canada The other works that complete the trilogy are *Flora Lyndsay* 1854 a prequel that describes the initial preparations for immigration and an exploration of Canadian towns and institutions in *Life in the Clearings* 1853 Moodie s publishing background in Canada consisted of short contributions to periodicals She contributed to *The Literary Garland of Montreal* beginning in late 1838 She was one of the principal contributors over the next 12 years publishing serialized novels based on English life several of them expansions of earlier short work poems on Old World and Canadian subjects and most important a series of six Canadian Sketches that formed the nucleus of *Roughing It in the Bush* 3 Moodie s account of the hardships of settler life contrasted sharply against the image conjured by the British advertisers Moodie s tone is frank and her style is vividly descriptive The conduct of many of the settlers who considered themselves gentlemen and would have been very much affronted to have been called otherwise was often more reprehensible than that of the poor Irish emigrants to whom they should have set an example of order and sobriety The behaviour of these young men drew upon them the severe but just censures of the poorer class whom they regarded in every way as their inferiors That blackguard calls himself a gentleman In what respect is he better than us was an observation too frequently made use of at these gatherings To see a bad man in the very worst point of view follow him to a bee he profane licentious quarrelsome or a rogue all his native wickedness will be fully developed there Chapter 7 Our Logging Bee Disorientation in a new environment the dirty and exhausting physical demands of land clearing and house raising and the gossip and friction amongst the new settlers are explored in detail Moodie added touches of humour but there is an underlying irony to such passages emphasizing the disconnect between immigrant illusions and Canadian realities Moodie s treatment of the settler experience differed from the works published by her sister Catharine Parr Traill *The Backwoods of Canada* 1836 by Traill presents a more pragmatic and optimistic account stressing the scientific and the factual examination of settlement realities
