Blackface Nation Brian Roberts, 2024-05-31 As the United States transitioned from a rural nation to an urbanized industrial giant between the War of 1812 and the early twentieth century ordinary people struggled over the question of what it meant to be American As Brian Roberts shows in *Blackface Nation* this struggle is especially evident in popular culture and the interplay between two specific strains of music middle class folk and blackface minstrelsy The Hutchinson Family Singers the Northeast's most popular middle class singing group during the mid nineteenth century is perhaps the best example of the first strain of music The group's songs expressed an American identity rooted in communal values with lyrics focusing on abolition women's rights and socialism Blackface minstrelsy on the other hand emerged out of an audience based coalition of Northern business elites Southern slaveholders and young white working class men for whom blackface expressed an identity rooted in individual self expression anti intellectualism and white superiority Its performers embodied the love crime version of racism in which vast swaths of the white public adored African Americans who fit blackface stereotypes even as they used those stereotypes to rationalize white supremacy By the early twentieth century the blackface version of the American identity had become a part of America's consumer culture while the Hutchinsons songs were increasingly regarded as old fashioned *Blackface Nation* elucidates the central irony in America's musical history much of the music that has been interpreted as black authentic and expressive was invented performed and enjoyed by people who believed strongly in white superiority At the same time the music often depicted as white repressed and boringly bourgeois was often socially and racially inclusive committed to reform and devoted to challenging the immoralities at the heart of America's capitalist order

P. Tewari, 1987 *A History of Classical Greek Literature: pt. 1. The prose writers from Herodotus to Plato* John Pentland Mahaffy, 1890 Punishing the Black Body Dawn P. Harris, 2017-12 Punishing the Black Body examines the punitive and disciplinary technologies and ideologies embraced by ruling white elites in nineteenth century Barbados and Jamaica Among studies of the Caribbean on similar topics this is the first to look at the meanings inscribed on the raced gendered and classed bodies on the receiving end of punishment Dawn P Harris uses theories of the body to detail the ways colonial states and their agents appropriated physicality to debase the black body assert the

inviolability of the white body and demarcate the social boundaries between them Noting marked demographic and geographic differences between Jamaica and Barbados as well as any number of changes within the separate economic political and social trajectories of each island Harris still finds that societal infractions by the subaltern populations of both islands brought on draconian forms of punishments aimed at maintaining the socio racial hierarchy Her investigation ranges across such topics as hair cropping the 1836 Emigration Act of Barbados and other punitive legislation the state reprisals following the 1865 Morant Bay Rebellion in Jamaica the use of the whip and the treadmill in jails and houses of correction and methods of surveillance policing and limiting free movement By focusing on meanings ascribed to the disciplined and punished body Harris reminds us that the transitions between slavery apprenticeship and post emancipation were not just a series of abstract phenomena signaling shifts in the prevailing order of things For a large part of these islands populations these times of dramatic change were physically felt Pictorial Atlas Illustrating the Spanish-American War Le Roy Armstrong,1899 **Catalogue of the Library of the Royal Geographical Society. Containing the Titles of All Works Up to December 1893. Compiled by Hugh Robert Mill** Hugh Robert Mill,1895 *pt. I. The poets [epic and lyric] with an appendix on Homer by Prof. Sayce* John Pentland Mahaffy,1890 American Genre Painting Elizabeth Johns,1991-01-01 American genre painting flourished in the thirty years before the Civil War a period of rapid social change that followed the election of President Andrew Jackson It has long been assumed that these paintings of farmers western boatmen and trappers blacks both slave and free middle class women urban urchins and other everyday folk served as records of an innocent age reflecting a Jacksonian optimism and faith in the common man In this enlightening book Elizabeth Johns presents a different interpretation arguing that genre paintings had a social function that related in a more significant and less idealistic way to the political and cultural life of the time Analyzing works by William Sidney Mount George Caleb Bingham David Gilmore Blythe Lilly Martin Spencer and others Johns reveals the humor and cynicism in the paintings and places them in the context of stories about the American character that appeared in sources ranging from almanacs and newspapers to joke books and political caricature She compares the productions of American painters with those of earlier Dutch English and French genre artists showing the distinctive interests of American viewers Arguing that art is socially constructed to meet the interests of its patrons and viewers she demonstrates that the audience for American genre paintings consisted of New Yorkers with a highly developed ambition for political and social leadership who enjoyed setting up citizens of the new democracy as targets of satire or condescension to satisfy their need for superiority It was this network of social hierarchies and prejudices and not a blissful celebration of American democracy that informed the look and the richly ambiguous content of genre painting The "Immortal Six Hundred" and the Failure of the Civil War POW Exchange Process John F. Schmutz,2024-11-14 Compounding the devastating tragedy of the Civil War was the failure of the warring parties to maintain a system for exchange of prisoners of war rather than imprisoning combatants for the duration

This failure added at least 56 000 deaths to those accumulating on the battlefield and caused the untold suffering of many thousands more This book focuses on 600 Confederate officers made prisoners of war who were dispatched to Charleston Harbor to act as human shields and were subsequently imprisoned elsewhere and deliberately starved nearly to death These actions were the result of the breakdown of the exchange cartel as well as the retaliation policies promoted by the Secretary of War and the Lincoln administration *Bibliotheca Lindesiana ...* James Ludovic Lindsay Earl of Crawford,1910 **The Review of Reviews** William Thomas Stead,1891 **Alphabetical Catalogue of the Navy Department Library** United States. Library,1891 **The Illustrated London News** ,1858
