Who is your Future Self That question may seem trite But it s literally the answer to all of your life s questions It s the answer to what you re going to do today It s the answer to how motivated you are and how you feel about yourself It s the answer to whether you ll distract yourself on social media for hours whether you ll eat junk food and what time you get up in the morning Your imagined Future Self is the driver of your current reality It is up to you to develop the ability to imagine better and more expansive visions of your Future Self Your current view of your Future Self is very limited If you seek learning growth and new experiences you ll be able to imagine a different and better Future Self than you currently can It s not only useful to see your Future Self as a different person from who you are today but it is also completely accurate Your Future Self will not be the same person you are today They will see the world differently They ll have had experiences challenges and growth you currently don t have They ll have different goals and priorities They ll have different habits They ll also be in a different world a world with different cultural values different technologies and different challenges
