author and poet 7 best short stories by Hans Christian Andersen Hans Christian Andersen, August Nemo, 2020-05-14
Hans Christian Andersen born in Denmark in 1805 practically invented the writing of eventyrs the adventure fairy tale or fantastic tale Although he wrote a broad range of work including plays travelogues novels and poems it was his fairy tales that became culturally iconic in the Western world His stories have inspired countless plays ballets and movies In this volume the critic August Nemo selected for you seven classic tales that populated the dreams of generations The Little Mermaid Brave Tin Soldier The Princess and the Pea The Goloshes of Fortune The Emperor s New Clothes The Last Dream of Old Oak Little Tiny or Thumbelina **Hans Christian Andersen's Fairy Tales** Hans Christian Andersen, 2018-05-01 Cherished by generations of readers these classic fairy tales will hold a special place on your bookshelf Hans Christian Andersen s fairy tales are known for appealing characters who overcome adversity making the stories accessible to readers of all ages From Thumbelina and The Princess and the Pea to The Little Mermaid and The Traveling Companion these 18 tales are not only entertaining but enlightening too Included are 26 full page color drawings by acclaimed illustrators Arthur Rackham W Heath Robinson and Harry Clarke along with dozens of pen and ink images that add a soft artistic touch to the stories making this volume a treasured keepsake **Stories from Hans Andersen** Hans Christian Andersen, 2016-01-20 When the Brothers Grimm first published their collection of now famous fairy tales Hans Christian Andersen 1805 1875 was just 10 years old But Andersen was destined to become a talented Danish author of fairy tales and children s stories himself writing popular stories like The Little Mermaid and The Ugly Duckling Andersen was extremely popular in his time making friendships with royalty and writers like Charles Dickens while his works were translated into over 100 languages worldwide Ironically the work for which Andersen is best remembered was one of his least popular at first In 1835 Andersen published his Fairy Tales for the first time but they sold poorly even while Andersen s novel Only a Fiddler fared well **Fairy Tales of Hans Christian Andersen (Complete)** Hans Christian Andersen, 1901-01-01 The Hans Andersen Fairy Tales will be read in schools and homes as long as there are children who love to read As a story teller for children the author has no rival in power to enlist the imagination and carry it along natural healthful lines The power of his tales to charm and elevate runs like a living thread through whatever he writes In the two books in which they are here presented they have met the tests and held an undiminishing popularity among the best children s books They are recognized as standards and as juvenile writings come to be more carefully standardized their place in permanent literature will grow wider and more secure A few children s authors will be ranked among the Immortals and Hans Andersen is one of them Denmark and Finland supplied the natural background for the quaint fancies and growing genius of their gifted son who was story teller playwright and poet in one Love of nature love of country fellow feeling with life in everything and a wonderful gift for investing everything with life wrought together to produce in him a character whose spell is in all his writings The Story of My Life is perhaps the most thrilling of all of them Recognized in courts of kings and castles of nobles he recited his little stories with the same simplicity

by which he had made them familiar in cottages of the peasantry and endeared himself alike to all who listened These attributes while they do not account for his genius help us to unravel the charm of it The simplest of the stories meet Ruskin's requirement for a child's story they are sweet and sad From most writers who have contributed largely to children's literature only a few selected gems are likely to gain permanence With Andersen the case is different While there are such gems the greater value lies in taking these stories as a type of literature and living in it a while through the power of cumulative reading It is not too much to say that there is a temper and spirit in Andersen which is all his own a simple philosophy which continuous reading is sure to impart For this reason these are good books for a child to own an occasional re-reading will inspire in him a healthy normal taste in reading Many of the stories are of value to read to very young children They guide an exuberant imagination along natural channels
