

A person wearing a dark hoodie is shown from behind, shoveling a large, billowing cloud of bright blue smoke. The scene is set in a narrow alleyway with walls covered in graffiti. The ground is dark and littered with dry leaves. The title 'SHOVELING SMOKE' is overlaid in large, white, rounded letters with blue outlines.

Shoveling Smoke:

Consumption and the Globalization Project E. Comor, 2008-05-29 This book examines commodity consumption both as an ongoing problem for capital and a complex mediator of the post Cold War political economy Comor assesses consumption as a core but contradictory nodal point in contemporary world dis order developments arguing that capitalist consumption facilitates efforts to rule through consent *Toward an Informal Account of Legal Interpretation* Allan C.

Hutchinson, 2016-10-20 *Toward an Informal Account of Legal Interpretation* offers a viable account of law judicial decision making and legal interpretation that is as fresh as it is familiar The author expertly challenges the dominant mode of formalist theorizing and proposes an explanatory account of legal interpretation that can profitably be understood as an informal intervention Such an informal approach has no truck with either the claims of the formalists i e that law is something separate from ideology or those of the anti formalists i e that law is nothing other than ideological posturing Hutchinson insists that when understood properly legal interpretation is an applied exercise in law and ideology it is both constrained and unconstrained in equal measure In developing this informalist account through a sustained application of the no vehicles in the park rule this book is wide ranging in theoretical scope and substance but also accessible and practical in style **The Oxford Handbook of the History of Consumption** Frank Trentmann, 2012-03-22 The Oxford Handbook of the History of Consumption offers a timely overview of how our understanding of consumption in history has changed in the last generation

Domesticity in the Making of Modern Science Donald L. Opitz, Staffan Bergwik, Brigitte Van Tiggelen, 2016-01-26 The history of the modern sciences has long overlooked the significance of domesticity as a physical social and symbolic force in the shaping of knowledge production This book provides a welcome reorientation to our understanding of the making of the modern sciences globally by emphasizing the centrality of domesticity in diverse scientific enterprises **Presidential Campaign Activities of 1972, Senate Resolution 60** United States. Congress.

Senate. Select Committee on Presidential Campaign Activities, 1973 [The Drone Age](#) Michael J. Boyle, 2020 Over the last decade the rapid pace of innovation with drone technology has led to dozens of new and innovative commercial and scientific applications from Amazon drone deliveries to the patrolling of national parks with drones But what is less understood is how the spread of unmanned technology will change the patterns of war and peace in the future Will the use of drones produce a more stable world or will it lead to more conflict Will drones gradually replace humans on the battlefield or will they empower soldiers to act more precisely and humanely in crisis situations How will drones change surveillance around the world and at home The Drone Age traces the rise of unmanned technology and how it is reshaping our world The spread of drones is reordering geopolitical fault lines and providing new ways for states to test the nerves and strategic commitments of their rivals Drones are also allowing terrorist groups like the Islamic State to take to the skies and to level the playing field against their enemies Across the world the low financial cost of drones and the reduced risks faced by pilots is making drone

technology an essential tool for militaries peacekeeping forces and even private companies From large surveillance drones to insect like micro drones unmanned technology is revolutionizing the way that states and non state actors compete with each other and is providing game changing benefits to those who can most rapidly adapt unmanned technology to their own purposes Yet peacekeeping and humanitarian organizations are also utilizing drones too An essential guide to a surprisingly complex disruptive force in world politics The Drone Age shows how the mastery of drone technology will become central to the ways that governments and non state actors seek power and influence in the coming decades

William Mazzarella,Eric L. Santner,Aaron Schuster,2024-05-31 What does the name Trump stand for If branding now rules over the production of value as the coauthors of Sovereignty Inc argue then Trump assumes the status of a master brand whose primary activity is the compulsive work of self branding such is the new sovereignty business in which whether one belongs to his base or not we are all incorporated Drawing on anthropology political theory philosophy psychoanalysis and theater William Mazzarella Eric L. Santner and Aaron Schuster show how politics in the age of Trump functions by mobilizing a contradictory and convoluted enjoyment an explosive mixture of drives and fantasies that eludes existing portraits of our era The current political moment turns out to be not so much exceptional as exceptionally revealing of the constitutive tension between enjoyment and economy that has always been a key component of the social order Santner analyzes the collective dream work that sustains a new sort of authoritarian charisma or mana a mana facturing process that keeps us riveted to an excessively carnal incorporation of sovereignty Mazzarella examines the contemporary merger of consumer brand and

political brand and the cross contamination of politics and economics warning against all too easy laments about the corruption of politics by marketing Schuster focusing on the extreme theatricality and self satirical comedy of the present shows how authority reasserts itself at the very moment of distrust and disillusionment in the system profiting off its supposed decline A dazzling diagnostic of our present Sovereignty Inc forces us to come to terms with our complicity in Trump s political presence and will immediately take its place in discussions of contemporary politics *The Book of Agreement* Stewart Levine,2002-11-10 Crafting agreements with others is a fundamental life skill Unfortunately we were never taught how to do it The agreements most people make are incomplete and ineffective they usually focus on protecting against what might go wrong instead of figuring out how to make things go right The Book of Agreement offers a new approach Stewart Levine demonstrates the superiority of agreements for results versus agreements for protection and outlines ten principles for creating agreements that explicitly articulate desired outcomes and provide a roadmap to achieving them He includes over thirty specific templates that can be used to create this new type of agreement for results in a variety of organizational and personal contexts **Brotherhood of Locomotive Firemen and Enginemen's Magazine**,1918 Decision Making in the U.S. Courts of Appeals Frank B. The Ecopolitics of Consumption H. Louise Davis, Karyn Pilgrim, Madhudaya Sinha, 2015-12-16 Today s highly industrialized and technologically controlled global food systems dominate our lives shaping our access and attitudes towards food and deeply influencing and defining our identities At the same time these food systems are profoundly and destructively impacting the health of the environment and threatening all of us human and nonhuman who must subsist in ecological conditions of increasing fragility and scarcity This collection examines and exposes the myriad ways that the food systems driven by global commodity capitalism and its imperative of growth at any cost increasingly controls us and conforms us to our roles as consumers and producers This collection covers a range of topics from the excess of consumers in the post industrial world and the often unacknowledged yet intrinsic connection of their consumption to the growing ecological and health crises in developing nations to topics of surveillance and control of human and nonhuman bodies through food to the deep linkages of cultural values and norms toward food to the myriad crises we face on a global scale

A Taste for Home Toufoul Abou-Hodeib, 2017-04-04 The home is a quintessentially quotidian topic yet one at the center of global concerns Consumption habits aesthetic preferences international trade and state authority all influence the domestic sphere For middle class residents of late nineteenth and early twentieth century Beirut these debates took on critical importance As Beirut was reshaped into a modern city legal codes and urban projects pressed at the home from without and imported commodities and new consumption habits transformed it from within Drawing from rich archives in Arabic Ottoman French and English from advertisements and catalogues to previously unstudied government documents A

Taste for Home places the middle class home at the intersection of local and global transformations Middle class domesticity took form between changing urbanity politicization of domesticity and changing consumption patterns Transcending class based aesthetic theories and static notions of Westernization alike this book illuminates the self representations and the material realities of an emerging middle class Toufoul Abou Hodeib offers a cultural history of late Ottoman Beirut that is at once global in the widest sense of the term and local enough to enter the most private of spaces Moral Materialism
