Rethinking Autism with Dolto Kathleen Saint-Onge, 2024-03-04 Rethinking Autism with Dolto takes up a principal legacy of Françoise Dolto's immense project her conviction that autism is a regression to the archaic Dolto theorizes that the infant in utero deep in dreams is receptive to the audition of phonemes during the pre-conscious archaic stage of psychosexual maturation That dream work on words an idiosyncratic prehistory at the onset of mental and emotional life secures the unconscious circulation of affect and the ontogeny of thought long prior to speech seeding associative thinking and facilitating self-regulation Kathleen Saint-Onge uses the written work of four nonverbal autistic authors in seeking corroboration for Dolto's formulations finding thoughtful self-reflections that relate the experience of living in silence with relentless anxiety while relying on regression as a defence Dolto's unprecedented insights into the infant's earliest learning carry formidable implications for autism interventions and for primary language and literacy At issue is an enduring susceptibility to archaic echoes the haphazard securing return of pre-invested phonemes in communicative exchanges including reading and writing Rethinking Autism with Dolto considers unconscious processes as inherently reparative heralding the responsibility education holds for human health and supports a rethinking of autism that presumes competence Readers are invited to new conversations in psychoanalysis child development education and linguistics through an exploration of the unconscious concomitants of first language acquisition *Génération Dolto* Didier Pleux, 2008-10-02

Pourquoi les parents se sentent-ils souvent débordés par leurs enfants Pourquoi quand ils veulent les cadrer n'y parviennent-ils guère La psychanalyste Françoise Dolto a ouvert les yeux de plusieurs générations sur le potentiel de l'enfant elle a aidé à branler l'autoritarisme d'antan Mais n'est-elle pas aussi l'origine de nos difficultés N'a-t-elle pas dissuadé les parents de jouer pleinement leur rôle d'éducateurs N'a-t-elle pas contribué à imposer des principes qui ne répondent plus aux besoins de l'enfant d'aujourd'hui Didier Pleux dans ce nouveau livre apporte une réflexion moderne et réaliste pour aider enfin les parents à aimer et à élever nos enfants ne suffit plus Pour bien les élever il nous faut réapprendre notre rôle C'est ce prix que nous rendrons nos enfants plus forts et plus heureux Le livre d'éducation qui ose remettre en cause l'héritage de Françoise Dolto Didier Pleux est docteur en psychologie du développement psychologue clinicien psychothérapeute Il dirige l'Institut français de thérapie cognitive Il est l'auteur de plusieurs très grands succès *De l'enfant roi à l'enfant tyran* Manuel d'éducation à l'usage des parents d'aujourd'hui et Peut mieux faire **Perpetual Children** Jonathyne Briggs, 2024-12-03 Perpetual Children is a narrative

history of debates over the definition and appropriate treatment of autism in France since 1950 noting the French divergence from psychological norms in the rest of the world Examining the works of psychoanalysts the activities of parents associations and the efforts of autistic self advocates the book argues that the consistent framing of autism as a form of childhood psychosis marginalized autists and emphasized the voices of parents and professionals This framing also justified the continued use of psychoanalysis as an intervention due to the placement of autism within the family dynamic Even as research in the United States pointed to biological and neurological conceptions of autism the French continued to support a psychogenic origin for the disorder impacting state policy and medical norms for decades This position energized conflict between professionals and parents concerning expertise leading to political and legal changes at the end of the twentieth century By the twenty first century French autists entered the debate to transform its parameters and assert their own position as experts on autism reconceiving the disorder outside of childhood to a limited degree Perpetual Children reveals the international dimension of the story of autism and how the French context provides a different perspective on its history

Discovering Françoise Dolto Kathleen Saint-Onge, 2019-05-22 This psychobiographical study of the renowned French pediatrician and psychoanalyst Fran oise Dolto introduces both her theories of child development and her unique insights into language and identity A friend of Jacques Lacan s Dolto believed that we are all humanized through language and that the words we use carry unconscious traces of our early histories of love suffering and desire Suggesting that infants unconsciously symbolize and that a continuous circulation of unconscious affects the transference prevails in all language based relations her findings challenge assumptions about autism autobiography linguistics literacy pedagogy and therapy Dolto s own corpus a rich archive blending the personal and professional demonstrates this with echoes between Dolto s constructs about the child and her own challenging childhood This fascinating book will not only introduce the work of Fran oise Dolto to many readers but will be a valuable resource for all psychoanalytic researchers and theorists interested in childhood language and identity

Theory and Practice in Child Psychoanalysis Guy Hall,Francoise Hivernel,Sian Morgan,2018-05-08 During her lifetime Francoise Dolto revolutionized the psychoanalytic understanding of childhood As an early pioneer she emphasized that the child is to be recognized from birth as a person As a gifted and innovative clinician Dolto developed her ideas about the unconscious image of the body An image that is unique to each individual and linked to both a person s history and narcissism rather than their physicality It is the symbolic incarnation of a person s desires Dolto began her career as a member of the IPA was admired by Winnicott close to Lacan and influenced by Morgenstern Her life witnessed an extraordinary evolution from the conservatism of her parents through the second World War to the turbulence of Paris in the 1950s and 60s In the succeeding years Dolto made a number of original contributions to the understanding of psychosis neonatology female sexuality education and religion Although controversial she was able to write both for the general public and for professional colleagues **Detention and Development** Carol van Nijnatten,1998 **Pratiques psychomotrices** Jean Le Camus,1984 Synth se des connaissances et des recherches sur les p dagogies et les th rapies utilisant la psychomotricit Importance accord e ce qui se fait en France Belief after Freud Carlos Domínguez-Morano,2020-07-16 Belief after Freud confronts the psychoanalytic experience and the experience of faith A purified vision of faith so many times disfigured by infantile or neurotic dynamics can emerge through the crucible of psychoanalysis The work contributes to the dialogue between psychoanalysis and faith based on the respective lived experiences rather than from theoretical positions only The book is divided into three parts Part I centres on Freud s position on religion After an introductory chapter assessing Freud s present validity the following chapters critically examine Freud s position and interpretation of religion Part II examines how people of faith experience psychoanalysis including the role played by unconscious feelings of guilt and

the ideas of sin and salvation Part III explores ideas of sexuality power and obedience including the unconscious and pathological roots of the relation with money and the sense of evangelical poverty Now in its fifth edition in Spain Belief after Freud has also been published in Argentina and Brazil Many readers say the book has opened a new form of belief for them The book has also been of great interest to non believing psychologists Special Educational Needs and Inclusive Practices Fabio Dovigo,2017-01-28 Today school is becoming a rapidly changing learning environment Thinking about students as a homogeneous population is no longer allowed as diversity in terms of culture language gender family organisation learning styles and so on has emerged as a key challenge for education today The debate on Special Educational Needs largely reflects this challenge as working in school implies careful reconsideration of what we mean by normal and special Current educational intervention is generally based on a deficit and within child model of facing SEN whereas very little attention is given to the role of learning environments The focus is on the child more than on the whole class and on cognition and technical provisions more than on affective sociocultural and community dimensions of learning Conversely regarding students and their needs as hidden voices allows us to adopt a transformative approach which sees diversity as a stimulus for the development of educational practices that might benefit all children and help school to become an inclusive and moving organisation The aim of the book is twofold on the one hand it offers a systematic overview of the inclusive education state of the art in six countries Germany Italy Norway Sweden UK and USA based on the contributions by well known scholars such as Christy Ashby Barbara Brokamp Fabio Dovigo Kari Nes Mara Westling Allodi Tony Booth and Beth Ferri on the other hand the book analyses five cases of good practices of inclusion related to different subjects and school levels *L'Individu incertain* Alain Ehrenberg,2014-04-01 L individu est aujourd'hui amené à assumer des responsabilités croissantes la politique semble perdre son monopole de prise en charge collective des destins individuels la vie privée n'est plus structurée par des règles stables et des rapports d'autorité L'estime de soi et la disponibilité à autrui deviennent des atouts majeurs La subjectivité envahit donc la place publique et investit largement la technique qu'elle soit pharmacologique drogues illicites tranquillisants anti-dépresseurs ou électronique interactivité reality shows cyberspace La restauration de la sensation de soi que procure le psychotrope et la mise en scène de soi qui amplifie la totale vision sont responsables des tensions de nos sociétés cartelles entre la conquête et la souffrance Nous sommes entrés dans l'âge de l'individu incertain **De Narcisse à Jésus** Jean-Marc Charron,1992 **Le sentiment de culpabilité d'Alfred de Vigny** Yolande Legrand,1987-01-01T00:00:00+01:00 Cet ouvrage est une réédition numérique d'un livre paru au XXe siècle désormais indisponible dans son format d'origine *Disease in Babylonia* Irving L.
